Executive Summary

Reliability and Integrity of Information (page 3)

- Nothing came to our attention during the audit to cause us to doubt the overall reliability and integrity of the information However, controls over recordkeeping and reporting can be improved by implementing proper separation of duties relative to the Net Data System. All clerks currently have the ability to record transactions, dismissals, and jail time credits and also have control over the assets (cash) In addition, check writing and bank reconciliation duties should be separated between two individuals

Safeguarding of Assets (page 4)

- The Court has adequate controls in place to physically secure the assets. However, on the day of the surprise cash count, $5,687.00 of collections was not on site and had not been deposited in the bank. In addition, the Court's management over its assets can be improved by implementing the following recommendations:
    - All collections should be secured in the Court's safe until depositing in the bank.
    - Make daily deposits
    - Properly perform and adequately support monthly bank reconciliations *(This was a finding from the previous audit.)*

Compliance with Statutes, Policies, and Procedures (page 5-6)

- The Court should comply with statutes by implementing the following recommendations.
    - Utilize the Net Data pro-rate calculation feature when receipting the first payment that is less than total court costs.
    - Assess a time payment fee of $25 if the person pays any part of a fine, court costs, or restitution on or after the 31st day after the date on which a judgment is entered.
    - Collect a $20 dismissal fee and consider collecting an additional $2 transaction administrative fee for charges that qualify for the administrative dismissal
    - Escheat checks in the bond account that have been outstanding more than three years.
    - Calculate PC30 fees correctly and submit monthly purchase orders to pay the fees to the collection agency. *(This was a finding from the previous audit.)*
    - Record all collections in Net Data and only issue manual receipts when the Net Data System is down.

Economic and Efficient Use of Resources (page 7)

- To improve the efficiency of the Court, all clerks should utilize the 'Activity Notes' and 'Case Notes' option in Net Data to document individual case activities.

General Information (pages 8-9)

Except for a slight increase from FY2007 to FY2008, the number of cases filed annually through JP 8-2 has been declining. The County's portion of revenue collected through JP 8-2 has also been decreasing The state's portion of collections has followed the same pattern.

Introduction

An internal audit was performed for the office of Justice of the Peace, Precinct 8-2 as required by Local Government Code § 115.0035. The audit covered the period from August 1, 2009 through July 31, 2010 and was conducted from October 18, 2010 through December 30, 2010

The objectives of the audit were to provide reasonable assurance concerning.

- The reliability and integrity of the information
- The safeguarding of assets
- The compliance with laws, regulations, contracts, policies, plans, and procedures.
- The economical, efficient and effective use of resources

The concept of reasonable assurance recognizes that 1) the cost of implementing the controls should not exceed the benefits likely to be derived, and 2) the valuation of costs and benefits requires the use of estimates and judgments by management.

The internal audit included examining transactions on a test basis and judgment was required in the selection of such transactions As the audit is not a detailed examination of all transactions, there is a risk that errors and/or fraud may not always be detected during the internal audit. The Official therefore retains the responsibility for the accuracy and completeness of the financial information.

Because of certain statutory duties required of the County auditor, we are not independent with regard to the Justice of the Peace as defined by the AICPA professional standards. However, our examination was performed with objectivity and due professional care

Lori McWhirter, Internal Auditor I, performed the audit

Reliability and Integrity of Information

Reliable information is accurate, timely, complete, and useful In order to achieve this, controls over record keeping and reporting must be adequate and effective

Record Keeping

The Court should retain copies of all support documents regarding daily collections and deposits.

Finding: The Court was unable to locate the manual receipt booklets for deposits made January 14, 2010 through May 3, 2010.

Recommendation JP8-2-11-01: The clerk should also attach a copy of the manual deposit slip to the deposit warrant when it is sent to the Treasurer's Office.

Separation of Duties

One of the most important controls is to have proper separation of duties. No one person should authorize a transaction, record the transaction, and have custody of the assets

Finding: The Court does not have proper separation of duties. All clerks can record transactions, dismissals, and jail time credits and have control over the assets (collections)

A proper separation of duties is sometimes difficult to establish due to budgetary constraints, however, there are compensating controls that can be implemented in different areas of the operations listed below

Daily Deposits:

Finding: The same individual performs close-out, prepares the deposit slip, and makes the deposit for daily collections. *(This is a finding from the previous audit)*

Recommendation JP8-2-08-01: Separate the duties for daily deposits between two individuals. Each person should sign off on the other's part of the activity.

Bond Account:

Finding: There is no separation of duties for authorizing transactions, recording transactions, having custody of the assets, or bank reconciliations for the bond account. One person performs all of these functions. *(This is a finding from the previous audit)*

Recommendation JP8-2-08-03: Separate the check writing and bank reconciliation duties between two individuals

Safeguarding of Assets

Physical Security

As part of the audit, we conducted a surprise cash count on October 18, 2010

Finding: Collections for October 4-7 and October 11-14, totaling $5,687.00, were not on site and were not deposited until October 20, 2010.

Recommendation JP8-2-11-02: All collections should be secured in the Court's safe until depositing in the bank.

Minimizing Exposure to Loss

Depositing daily is one of the best safeguards for collections as well as providing the County with the maximum benefit of the collections. During the period of June 1, 2007 through May 31, 2008, the Court clerks were depositing collections on a daily basis

Finding: For this audit period, the Court clerks have not been depositing daily.

Recommendation JP8-2-11-03: The Court should return to the practice of depositing daily.

Managing the Assets

A bank reconciliation, properly prepared and adequately supported, is one of the best methods of cash management available to an official. The reconciliation process highlights any discrepancies in the bond account and assists in preventing the misuse of funds. In its absence, this system of internal control is unable to perform adequately.

Finding: The bond account bank and book (Net Data) balances were not in agreement with each other *(This was a finding from the previous audit.)* The auditor has identified the adjusting entries required to bring the balances into agreement

Recommendation JP8-2-08-01: The Court should reconcile the bond account bank and book (Net Data) balances each month. In addition, the Judge should review the monthly bank reconciliations and include his signature of approval. If necessary, it is also recommended that the Court contact the Director of Justice Administration to request training on bond bank reconciliations.

Compliance with Statutes, Policies, and Procedures

Except for the following, no instances were found in which the Court was not complying with the applicable laws, contracts, policies and procedures.

1) Partial Payment Proration

Attorney General of Texas Opinion No GA-0147 states, "Under the allocation rule, a county must allocate monies received from a defendant first to pay costs and then to pay a fine If the monies received do not cover all the costs, then the monies must be allocated to costs on a pro rata basis If a justice of the peace has ordered installment payments, the total sum received must be allocated in accordance with the allocation rule."

Finding: The Court was inconsistent in pro-rating the payments received that were less than total court costs

Recommendation JP8-2-11-04: Utilize the Net Data pro-rate calculation feature when receipting the first payment that is less than total court costs. If necessary, the Court should contact Net Data for further explanation or additional training.

2) Time Payment Fee Assessment

Assess a time payment fee of $25 (LGC§133.103) if the person pays any part of a fine, court costs, or restitution on or after the 31st day after the date on which a judgment is entered.

Finding: The Court is incorrectly assessing a $25 time payment fee for payments received before the 31st day.

Recommendation JP8-2-11-05: The Court should review the statute and be aware of the 31-day time period when assessing fees.

3) Administrative Dismissal Fees

The Court should collect a $20 dismissal fee (TC§502.407, TC§521.026, TC§548.605, TC§521.054) and consider collecting an additional $2 transaction administrative fee (CCP§102.072) for charges that qualify for the administrative dismissal.

Finding: The Court is not collecting the $22.00 administrative dismissal fee when applicable.

Recommendation JP8-2-11-06: The clerks should review the statutes regarding administrative dismissals.

Compliance with Statutes, Policies, and Procedures (cont.)

4) Bond Account – Outstanding Checks

The 96-478 Unclaimed Property Reporting Guide 2008, issued by the Texas Comptroller of Public Accounts, states that un-cashed checks, other than those for wages, are considered unclaimed property after a period of three years.

Finding: There are outstanding checks from the bond account that were issued from January 1993 to September 1999 totaling $1,518.89

Recommendation JP8-2-11-07: Escheat all checks that have been outstanding for more than three years. The court may contact the Treasurer's Office for instructions and guidelines on this procedure.

5) Collection Contract (CCP §103.0031)

The County has agreed to pay the contracted collection agency 30% of the total fines and fees of adjudicated cases occurring on or after June 18, 2003. The County shall pay the firm by the 20th day of each month all compensation earned by the firm for the previous month

Finding: The Court miscalculated the PC30 fee in 31.3% of the cases.

Recommendation JP8-2-11-08: The Court should utilize the Net Data re-calculate private collection fee feature.

Finding: The Court has not submitted a purchase order for collection fees since April 2008. *(This was a finding from the previous audit.)* As of October 31, 2010, the total amount owed to the collection agency by this Court is $19,550 06.

Recommendation JP8-2-08-05: The Court should submit the delinquent purchase orders. In the future, the Court should submit the purchase order by the 15th of the following month.

6) Recording Collections in Net Data

The Net Data System is used to record all transactions related to each case All collections should be recorded in Net Data.

Finding: The court did not record $13,485.00 of collections in Net Data. The majority of these collections were bond payments

Recommendation JP8-2-11-09: Record all collections in Net Data and only issue manual receipts when the Net Data System is down.

Economic and Efficient Use of Resources

Economy is defined as minimizing the cost of resources for an activity Efficiency is defined as performing tasks with reasonable effort

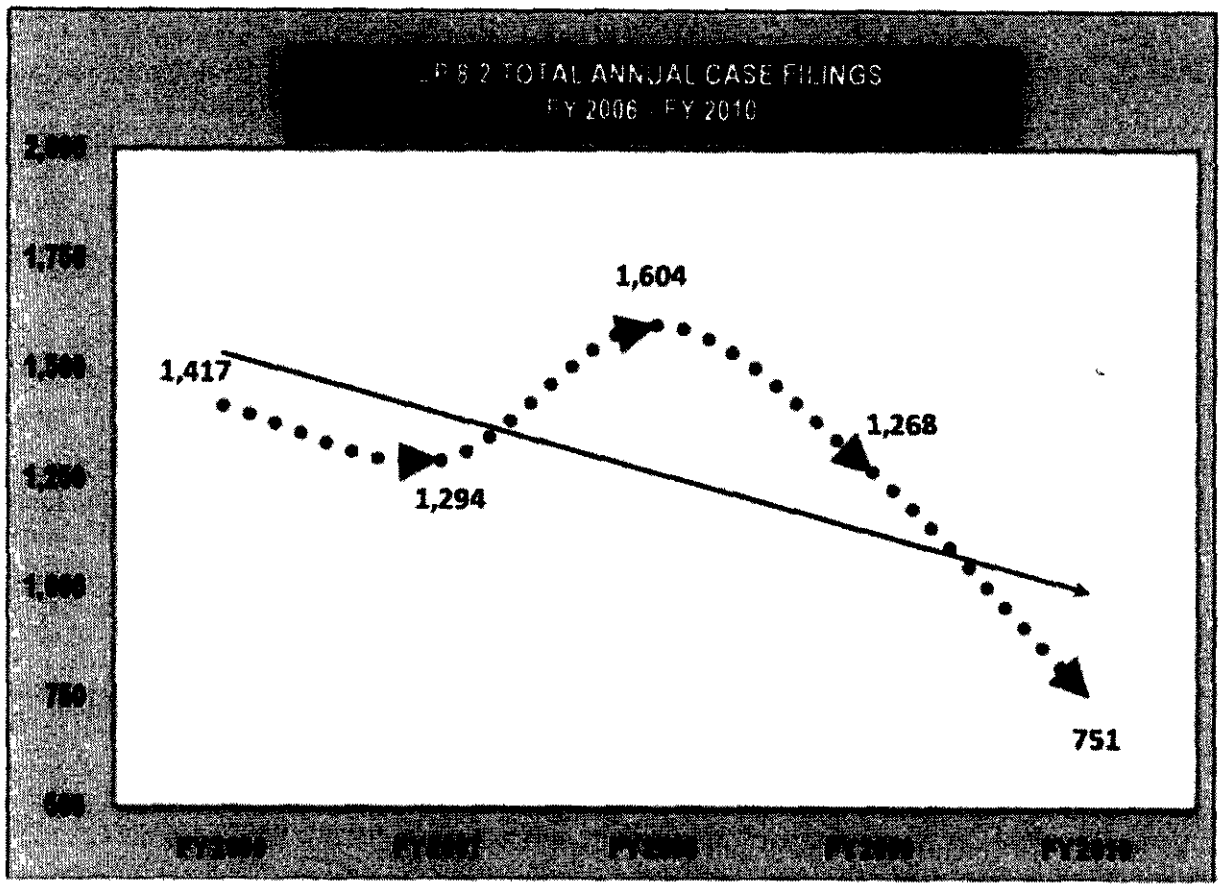
Net Data is considered the official docket of the Justice of the Peace Precinct Courts and provides a means of quickly accessing and reviewing individual cases. All pertinent information related to each case should be recorded in the Net Data system

Finding: The Court clerks are not consistently utilizing the 'Activity Notes' and 'Case Notes' option in Net Data to document case activities.

Recommendation JP8-2-11-10: To maximize the efficiency of Net Data, Court clerks should utilize the 'Activity Notes' and 'Case Notes' option in the system.

General Information

The number of cases filed annually through JP 8-2 has been declining Except for a slight increase from FY2007 to FY2008, the total number of cases filed decreased 47% over the past five years This is largely due to a sharp decline in the number of JP Criminal, Hot Check and Civil case filings. These case types make up 90% of the case load at JP 8-2, and decreased 74.5%, 43.3% and 59.7% respectively over the last five years



General Information (cont.)

There was a substantial increase in collections from FY2007 through FY2008 partially due to the implementation of PC30. However, over the next two years collections for the County decreased 23.8% ($39,934.00). The state's portion of collections followed the same pattern, increasing from FY2007 through FY2008 then decreasing through FY2010.

RE· JP 8-2 Audit Report dated December 30, 2010

Dear Mr Billingsley,

After reviewing the final Audit Findings and Recommendations given by your office, I would like to submit the following;

Reliability and Integrity of Information

Record Keeping - The Court will take proper action to ensure that all collection records and deposit slips will remain in the Fire Proof safe used in our office. The Clerk will also attach a copy of the manual deposit slip to the deposit warrant to ensure accuracy (This is double-checked by the non-depositing Clerk or Judge for every deposit-see log attached)

Separation of Duties: As stated in other Audits due to having 2 Clerks in this office at times it is hard to segregate duties We try to "trade" duties and check each others work whenever possible. When 1 Clerk is off for Vacation or Sickness this leaves all the duties in the hands of 1 person When this occurs the Judge will provide the needed oversight over monetary transactions when possible.

Daily Deposits: The Clerks are self checking and checking each others checks and balances. They alternate taking deposits to the bank, and for each deposit the other Clerk reviews the collections report, deposit warrant and deposit slip, and signs off on a daily transaction log. (see attached)

Bond Account. Since the Chief Clerk prepares checks and underlying documentation for signing and Judge signs all checks, the other Clerk will be doing the reconciliation of the Bond Account Bank Statement every month for submission Reconciliation will be presented to Judge for review.

Safeguarding of Assets

Physical Security All receipts will be deposited daily and all collections will be secured in the Court's safe until depositing in the bank. (see daily transaction log as described under "Daily Deposits" above).

Minimizing Exposure to Loss: Collections will be deposited daily (see Daily transaction sheet as described under "Daily Deposits" above).

Managing the Assets: The Bond Account will be entered into Net Data for accuracy in recording payments. Bank reconciliations will be done on a monthly by the Deputy Clerk and then reviewed by the Judge as stated above.

Compliance with Statutes, Policies, and Procedures

Partial Payment Proration: Court will comply with pro rating if required. The Court is taking measures to collect all court costs up front from all individual on all cases to avoid this issue

Time Pay Fee Assessment: This is apparently a conflict between fines "assessed" at time of plea, which include a time pay plan of over 30 days and a $25 00 time pay fee versus the rule that the $25 00 time payment fees cannot be "assessed" before the 31st day. The practical problem is that even though there is no intention of "collecting" the $25 00 time pay fee if the fine is paid in full by day 30, to have an enforceable time pay plan that will support a later capias pro fine warrant if not paid, we have to have the Defendant sign a clear, concise, unequivocal time pay agreement without extra fees being added on after the fact. No one has given us any guidance as to how to accomplish this.

The only solution we have come up with is to include two "alternate" payment plans – the first for initial fine and costs paid by day 30, and the second for initial fine, costs, and $25.00 time pay fee paid out 31 days or longer. Both alternatives will be signed by the Defendant, and the plan will include a clear explanation of the alternatives Then, unless we are advised otherwise, we will initially enter or "assess" the initial fine and costs without time pay fee, and enter and "assess" the $25 00 time payment fee only after day 30. We would welcome any other solution that resolves this conflict.

Administrative Dismissal Fee: The Court has reviewed the statutes pertaining to the compliance dismissals and will follow those procedures and include applicable court costs It is understood that no costs or fees should be collected when an ADA moves to dismiss any case as part of a plea bargain.

Bond Account:	The Court has reviewed all recommendations and is taking all measures to get outstanding checks escheated over
Collection Contract:	The Court has reviewed the recommendations and will utilize the steps to re-calculate the Net Data private collection fee where needed. The outstanding PO for PC30 fees has already been submitted as of this date.
Recording Collections in Net Data.	The Court has reviewed the recommendations and has already at this time entered these Bond payments into Net Data and will continue doing so The "Case Activity" notes will be utilized when pertinent.
General Information:	The filing of cases in our Court has changed due to other means Complainants have in trying to collect outstanding checks for themselves or their business. Traffic tickets have never been a high filing area in this Court except for when the Constables office was writing regularly traffic tickets in which does not occur anymore The Clerks have been going back into our old cases and submitting them in the OMNIBASE program. This program has been the main reason for the collections we have received in our office. We will continue to enter these old cases in the program to try and help with collections

The Court is reviewing all recommendations and will implement these when and where needed I sincerely appreciate your evaluation and suggestions.

Sincerely,

Judge James W. Woltz
Justice of the Peace Pct. 8-2

Executive Summary

Reliability and Integrity of Information (pages 3-4)

- The auditor tested the minor investment accounts specifically to confirm the value of the accounts and that they had been converted properly into Odyssey Multiple conversion errors and recording problems were identified The Auditor's Office will provide a listing to the District Clerk for use in resolving the items.
- District Clerk employees have adequate separation of duties.

Safeguarding of Assets (page 5)

- Cash (collections) and physical receipts are adequately safeguarded.
- The District Clerk needs to develop a systematic way of checking the interest calculations for its minor trust accounts.

Compliance with Statutes, Policies, and Procedures (pages 6-7)

- Disbursements made during the audit period were in compliance with court orders
- Forty-one minor accounts have been paid out but still reflect balances that represent the 10% administrative fee that should have been paid to the County.
- All deposits ordered by the Court were deposited as ordered

Economic and Efficient Use of Resources (page 8)

- The District Clerk should request a modification from Odyssey to obtain an import/export gateway that will automate the entry of minor investment bank account information

Introduction

The Internal Audit Division conducted an internal audit of the District Clerk's Minor Trust Accounts, as required by Local Government Code §115.0035. The internal audit covered the period April 1, 2009 through August 31, 2010. The audit was performed from November 29, 2010 through December 30, 2010.

The primary objectives of the internal audit are to ensure·

- The reliability and integrity of the information.
- Compliance with laws, regulations, contracts, policies, plans, and procedures.
- The safeguarding of assets.
- The economic and efficient use of resources.

The scope of the internal audit encompassed the financial records and administrative procedures related to the District Clerk The internal audit included, but was not limited to, the books, accounts, reports, dockets, and records of the District Clerk

The internal audit included examining transactions on a test basis, and required exercising judgment in the selection of such tests As the internal audit was not a detailed examination of all transactions, there is a risk that errors or fraud were not detected during the internal audit The official therefore retains the responsibility for the accuracy and completeness of the financial information.

Because of certain statutory duties required of the County Auditor, we are not independent with regard to the Galveston County District Clerk as defined by the AICPA professional standards. However, our internal audit was performed with objectivity and due professional care.

Michael Guffey, Internal Auditor II, performed the audit

Reliability and Integrity of Information

Reliable information is accurate, timely, complete and useful. In order to achieve this, controls over record keeping and reporting must be adequate and effective.

Financial and Transaction Data Accuracy

The District Clerk is responsible for maintaining and managing the minor trust accounts in accordance with the orders of the District Courts. The staff utilized two systems to accomplish this – a Microsoft Access Database and JIMS, (Justice Information Management System) the District Clerk's document management software. During the spring and summer of 2010, the office converted from JIMS to a new court management system, Odyssey. Odyssey records the implemented orders issued from the District Courts. As of July 15, 2010, both the Access database and JIMS were discontinued

Finding: The auditor tested information converted from the Access database, JIMS and Odyssey for accuracy and detected the following errors:

- Administrative fees of $8,133.27 owed to the County were not recorded or paid in either JIMS or Odyssey
- Payouts to minors that were made between the conversion date and the end of the audit period, August 31, 2010, were not entered into Odyssey as of August 31, 2010
- A payment to a minor was made after conversion, but was not recorded in either JIMS or Odyssey.
- There are 40 minors on the Annual Registries of the Court Report for 2010 that reflect the same account number.
- Two minors on the Annual Registries of the Court Report for 2010 had accounts with the same number that reflected the same deposit dates and amounts.
- Three minors on the same case in Odyssey have overstated balances. Each minor reflects a balance of $5,000 when the total of all three should be $5,000.
- Deposited funds for one minor case was recorded in JIMS but was not recorded in Odyssey.
- Interest that was earned by seven minors was not recorded in Odyssey.

Reliability and Integrity of Information (cont.)

Recommendation DC-10-01: Review Odyssey data for accuracy and completeness and take corrective action as needed. The Auditor's Office will provide specific case examples that require correcting or further review

Separation of Duties

One of the most important controls is to have proper separation of duties No one person should authorize a transaction, record the transaction, and have custody of the assets. The office has instituted procedures to separate the custody of the assets from the recording and authorization functions. Check writing procedures have been revised to ensure that the check preparer does not retain custody of the check after it has been signed by management

The District Clerk implemented a change in the check distribution duties by having a non-check-writing employee distribute the signed check to the recipient instead of the employee who prepared the check.

All registry checks signed during the audit period were in compliance with the District Clerk's policy. Check-preparing employees did not sign any checks as this duty is restricted to administrative supervisors or the District Clerk.

Check writing and approval authority within Odyssey is governed by access rights controlled by the District Clerk. Checks are now printed by laser printer and hand signed by the administrative supervisors Prior to Odyssey, bookkeepers had to prepare checks manually. This computer feature adds more security to the financial system of the District Clerk's Office.

Safeguarding of Assets

Physical Security – Collections

Depositing daily is one of the best safeguards of collections as well as providing the County with maximum benefit of the collections

The District Clerk maintains a safe that is used to service the financial needs of the office. Controls are in place to ensure that staff uses lockable cabinet drawers to safeguard their money in the office until needed for deposit in the bank or return to the safe. No one person has direct access to the safe and the safe is locked when not in use. The office deposits cash, checks and money orders on a daily basis and is in compliance with LGC §113 022.

The financial assets are adequately safeguarded.

Physical Security – Receipts

A receipt is generated from the Odyssey Database to record any incoming money. All receipt numbers are automated and no one clerk can override or assign substitute receipt numbers for money received or disbursed. Duplicate receipts can be re-printed as needed

Investment Management

The District Clerk receives court orders to invest on behalf of minors The money is customarily placed in an interest bearing account as a certificate of deposit or savings account. The old system provided a way to compare the estimated interest with the bank statement interest.

Finding: Odyssey does not have the capability to estimate interest for minor investments It only records interest as reported by the banks

Recommendation DC-10-02: The District Clerk should develop a systematic way of checking the amount of interest recorded by the bank upon receipt of the Minor Trust Account bank statements.

Compliance with Statutes, Policies, and Procedures

Compliance with Court Ordered Disbursements

All disbursements concerning minor trust accounts are court-order driven. Minors are not allowed access to their money without an approving order from one of the District Judges. The auditor tested to see if withdrawals for minors were made in accordance with an order from the Court

Each disbursement had an accompanying court order, authorizing its withdrawal and payment to the minor

LGC §117.054 Administrative Fee

Local Government Code §117.054 states that "(a) If a special or separate account earns interest, the clerk, at the time of withdrawal, **shall** pay in a manner directed by a court with proper jurisdiction the original amount deposited into the registry of the court and any interest credited to the account in the manner calculated in Subsection (b). (b) The interest earned on a special account or a separate account shall be paid in the following amounts: (1) 10% of the interest shall be paid to the general fund of the county to compensate the county for the accounting and administrative expenses of maintaining the account; and (2) 90% of the interest shall be credited to the special or separate account." Attorney General Letter Opinion No. 98-106 further reiterates the State's position that 10% of interest accrued belongs to the County upon withdrawal

Finding: Forty-one minor accounts have been paid out but still reflect balances that represent the 10% administrative fee that should have been paid to the County at the time of withdrawal.

The Auditor's Office provided the bookkeepers a list of outstanding accounts requiring payment to the County. In order to correct this, the bookkeepers will need to post payments into Odyssey in order to facilitate final payment to the County.

Recommendation DC-10-03: Comply with LGC § 117 054 by implementing the procedure of preparing the withdrawal check(s) and the check for the administrative fee at the same time. The sum of all checks should equal the closeout check that came from the bank.

Recommendation DC-10-04: Pay the County its administrative fees

Compliance with Statutes, Policies, and Procedures (cont.)

Compliance with Court Ordered Deposits

The Auditor's Office performed a test to determine whether money deposited on behalf of minors matched exactly what was ordered by the District Judges

The Court may elect to keep the money in a non-interest bearing account or instruct the District Clerk to further invest the money into a certificate of deposit or savings account until the minor reaches their age of majority. The District Clerk may also withdraw and re-invest money held in trust for minors in order to secure the greatest possible return.

All of the minor trust account deposits made during the audit period were in compliance with applicable court orders

Economic and Efficient Use of Resources

Economy is defined as minimizing the cost of resources for an activity Efficiency is defined as performing tasks with reasonable effort.

Odyssey Import/Export Gateway

One of the beneficial features that the Access database provided was its ability to directly import bank data and record information into each minor's account. This facilitated a very efficient process of saving the bookkeepers the time and resources needed to manually update the minors' Access accounts. This was a key feature that allowed the District Clerk and staff to manage the minor trust investment accounts, providing maximum benefit with minimal effort

The District Clerk currently does not have the capability to import Excel data. Not having this feature handicaps the bookkeepers by forcing them to manually enter bank interest calculations into 700+ accounts by hand

Recommendation DC-10-05: Request an import/export gateway modification from Odyssey to enable the bookkeepers to import minor trust account bank data into Odyssey. This will allow bookkeepers to reprioritize their daily work schedule and automate a time-consuming task.

COUNTY of GALVESTON

District Clerk
JASON E. MURRAY

Following is response from the District Clerk to Minor Trust Accounts Audit of December 30, 2010

Finding: The auditor tested information converted from the Access database, JIMS and Odyssey for accuracy and detected the following errors

- Administrative fees of $8,133 27 owed to the County were not recorded or paid in either JIMS or Odyssey
- Payouts to minors that were made between the conversion date and the end of the audit period, August 31, 2010, were not entered into Odyssey as of August 31, 2010
- A payment to a minor was made after conversion, but was not recorded in either JIMS or Odyssey
- There are 40 minors on the Annual Registries of the Court Report for 2010 that reflect the same account number
- Two minors on the Annual Registries of the Court Report for 2010 had accounts with the same number that reflected the same deposit dates and amounts
- Three minors on the same case in Odyssey have overstated balances Each minor reflects a balance of $5,000 when the total of all three should be $5,000
- Deposited funds for one minor case was recorded in JIMS but was not recorded in Odyssey
- Interest that was earned by seven minors was not recorded in Odyssey

Recommendation DC-10-01: Review Odyssey data for accuracy and completeness and take corrective action as needed The Auditor's Office will provide specific case examples that require correcting or further review

Response: The District Clerk will take corrective action as needed per the auditor's recommendation

- Payouts to minors will be posted in Odyssey and administrative fees not paid to the County due to not being able to post payments at Tyler Technologies request will be paid to the County once inputted in Odyssey This will be a manual posting and I hope to have completed by the end of February
- The District Clerk will coordinate with Information Technology to correct the minor's accounts that had same account numbers and overstated balances These converted to Odyssey incorrectly The cause with overstated balances for minors has been corrected by I T We are currently working on the minors with like account numbers and this should be completed within the next couple of days
- The District Clerk will coordinate with Information Technology and the banks to provide a disk so that account information can be timely inputted in to Odyssey to update minor's accounts We currently have a disk from Texas First Bank and an excel spread sheet from Amegy We have manually inputted information from Moody Bank and this is near completion We will be providing this information to I T by week's end For our next quarterly update in April, we are currently checking with

Amegy and Moody Banks to inquire about the price to receive a disk They initially indicated they would provide the disk at a cost

- An attempt will be made to locate minors from older causes and those combined under one account number in order to clear some of these accounts We have contacted County Legal to inquire about the process of escheating funds on the older causes They will begin looking in to this for us this week Once we hear back from them, we will develop a plan of action

Investment Management

The District Clerk receives court orders to invest on behalf of minors The money is customarily placed in an interest bearing account as a certificate of deposit or savings account The old system provided a way to compare the estimated interest with the bank statement interest

Finding: Odyssey does not have the capability to estimate interest for minor investments It only records interest as reported by the banks

Recommendation DC-10-02: The District Clerk should develop a systematic way of checking the amount of interest recorded by the bank upon receipt of the Minor Trust Account bank statements

Response: The District Clerk will utilize a formula through an excel spreadsheet to determine the amount of interest to check the interest recorded by the bank Additionally, the clerk will utilize on online C D calculator to aid in determining that interest is correct

LGC §117.054 Administrative Fee

Local Government Code §117 054 states that "(a) If a special or separate account earns interest, the clerk, at the time of withdrawal, **shall** pay in a manner directed by a court with proper jurisdiction the original amount deposited into the registry of the court and any interest credited to the account in the manner calculated in Subsection (b) (b) The interest earned on a special account or a separate account shall be paid in the following amounts (1) 10% of the interest shall be paid to the general fund of the county to compensate the county for the accounting and administrative expenses of maintaining the account, and (2) 90% of the interest shall be credited to the special or separate account " Attorney General Letter Opinion No 98-106 further reiterates the State's position that 10% of interest accrued belongs to the County upon withdrawal

Finding: Forty-one minor accounts have been paid out but still reflect balances that represent the 10% administrative fee that should have been paid to the County at the time of withdrawal

The Auditor's Office provided the bookkeepers a list of outstanding accounts requiring payment to the County In order to correct this, the bookkeepers will need to post payments into Odyssey in order to facilitate final payment to the County

Recommendation DC-10-03: Comply with LGC § 117 054 by implementing the procedure of preparing the withdrawal check(s) and the check for the administrative fee at the same time The sum of all checks should equal the closeout check that came from the bank

Recommendation DC-10-04: Pay the County its administrative fees

Response: The District Clerk was unable to pay administrative fees to the County due to instructions from Tyler Technology to not process any information in either GDT or Odyssey for a 2 month period between mid July and mid September, 2010 Additionally, for the month proceeding this time period, the clerk was unable to pay over the fees due to testing and training for Odyssey Prior to Odyssey, the clerk would pay such fees to the County on a monthly basis. The clerk will pay over those fees to the County upon verification of the payment amount and the payment amount converted in to Odyssey correctly We hope to complete by the end of February

In Odyssey, the District Clerk now pays the administrative fee to the County at the time of withdrawal of the account

Odyssey Import/Export Gateway

One of the beneficial features that the Access database provided was its ability to directly import bank data and record information into each minor's account This facilitated a very efficient process of saving the bookkeepers the time and resources needed to manually update the minors' Access accounts This was a key feature that allowed the District Clerk and staff to manage the minor trust investment accounts, providing maximum benefit with minimal effort

The District Clerk currently does not have the capability to import Excel data Not having this feature handicaps the bookkeepers by forcing them to manually enter bank interest calculations into 700+ accounts by hand

Recommendation DC-10-05: Request an import/export gateway modification from Odyssey to enable the bookkeepers to import minor trust account bank data into Odyssey This will allow bookkeepers to reprioritize their daily work schedule and automate a time-consuming task

Response: Information Technology has given the District Clerk specifications for Odyssey that is to be turned over to the each of the banks so that the bank may prepare a disk that would allow the District Clerk to import the bank data in Odyssey The District Clerk will work the banks to ensure that the information is received in a timely manner We currently have a disk from Texas First Bank and an excel spread sheet from Amegy We have manually inputted information from Moody Bank and this is near completion We will be providing this information to I T by week's end For our next quarterly update in April, we are currently checking with Amegy and Moody Banks to inquire about the price to receive a disk They initially indicated they would provide the disk at a cost

Rufus, attached is the bid tabulation for then FM 646 Storm Sewer Outfall project in San Leon It is my recommendation that the project be awarded to the low responsible bidder , James Construction Group LLC, For the alternate bid plus supplemental items in the amount of $2,143,627 10

A budget amendment will be necessary in the amount of $370,000 00

Ron, please prepare a budget amendment to transfer the following
Transfer from Caroline St acct no 3312 312112 5731140 to Fm 646 Storm Sewer Outfalls acct no 3370 313202 5734306-----190,000
Transfer from Pct 1 Roads acct no 3312 312112 5731011 to FM 646 Storm Sewer Outfalls acct no 3370 313202 5734306-----180,000
Total budget amendment----------370,000

If transferring from the road to the flood control fund is an issue there is almost 10,000,000 available in the flood control fund but these are not designated for Pct 1 I am not aware of any other available funds unless there is interest which has been earned Ron, is there any interest money available from the flood control funds(acct 3370)which could be used for the budget amendment The base bid(2 year design) is within the budget but Txdot has requested the alternate bid(10 year design)

Re FM 646 Storm Sewer Outfalls
Bid Tabulation

Dear Mr Fitzgerald

On Thursday, January 27 2011, construction bids were opened in the office of the Galveston County Purchasing Agent for the referenced project Six bids were received for the project and Costello, Inc prepared a bid tabulation that is included for your review The apparent low bid of $1,761,710 80 (Base) and $2,143,627 10 (Alternate) was submitted by James Construction Group, LLC

The bids have been reviewed for errors by Costello, Inc and we have confirmed that James Construction Group, LLC is the apparent low bidder on the project

Sincerely,

GENERAL PROVISIONS
FM 646 STORM SEWER OUTFALLS
GALVESTON COUNTY, TEXAS

1. BID PACKAGE

The invitation to bid, general and special provisions, drawings, specifications/line item details, contract documents and the bid sheet are all considered part of this bid package Bids must be submitted in ***sets of five (5), one (1) original and four (4) copies,*** *on the forms provided by the County, including the bid sheet completed in its entirety and signed by an authorized representative by original signature Failure to complete and sign the bid sheet/contract page(s) may disqualify the bid from being considered by Commissioners' Court Any individual signing on behalf of the bidder expressly affirms that he or she is duly authorized to tender this bid and to sign the bid sheet/contract under the terms and conditions in this bid. Bidder further understands that the signing of the contract shall be of no effect unless subsequently awarded and the contract properly executed by Commissioners' Court All figures must be written in ink or typed Figures written in pencil or with erasures are not acceptable However, mistakes may be crossed out, corrections inserted, and initialed in ink by the individual signing the bid. If there are discrepancies between unit prices quoted and extensions, the unit price will prevail Each bidder is required to thoroughly review this entire bid packet to familiarize themselves with the bid procedures, the plans and specifications for the requested work as well as the terms, and conditions of the contract the successful bidder will execute with the County*

2. COMPETITIVENESS AND INTEGRITY

To prevent biased evaluations and to preserve the competitiveness and integrity of such acquisition efforts, bidders are to direct all communications regarding this bid to the Galveston County Purchasing Agent, unless otherwise specifically noted.

Do not contact the requesting department. Attempts by offering firms to circumvent this requirement will be viewed negatively and may result in rejection of the offer of the firm found to be in non-compliance.

All questions regarding this Invitation to Bid must be submitted in writing to

Rufus G. Crowder, CPPB
Galveston County Purchasing Agent

Galveston, Texas 77550
Fax: (409) 621-7987
E-mail: rufus.crowder@co.galveston.tx.us

An authorized person from the submitting firm must sign all bids This signature acknowledges that the bidder has read the bid documents thoroughly before submitting a bid and will fulfill the obligations in accordance to the terms, conditions, and specifications

Please carefully review this Invitation to Bid. It provides specific information necessary to aid participating firms in formulating a thorough response

3. TIME FOR RECEIVING BIDS

Bids received prior to the submission deadline will be maintained unopened until the specified time for opening If the bidder fails to identify the Bid Number on the outside of the envelope as required, the Purchasing Agent will open the envelope for the sole purpose of identifying the bid number for which the submission was made The envelope will then be resealed No liability will attach to a County office or employee for the premature opening of a bid. If you do not submit a bid, return this Invitation to Bid and state reason, otherwise your name may be removed from our mailing list

4. BID OPENING

The names of the bidders and the pricing will be read aloud at the bid opening. Sealed bids will be received in the office of the County Purchasing Agent and opened immediately in that office in the presence of the County Auditor and the Purchasing Agent No bid may be withdrawn for a period of sixty (60) calendar days of the bid opening date

GENERAL PROVISIONS
FM 646 STORM SEWER OUTFALLS
GALVESTON COUNTY, TEXAS

5. **REJECTION OF BIDS**
The County, acting through its Commissioners' Court reserves the right to. (1) reject any and all bids and waive any informality in the bids received, (2) disregard the bid of any bidder determined to be non responsive to the provisions contained herein.

6. **RESTRICTIVE OR AMBIGUOUS SPECIFICATIONS**
It is the responsibility of the prospective bidder to review the entire invitation to bid packet and to notify the Purchasing Department if the specifications are formulated in a manner that would restrict competition or appear ambiguous Any such protest or question(s) regarding the specifications or bid procedures must be received in the Purchasing Department not less than seventy-two (72) hours prior to the time set for bid opening. Vendors are to bid as specified herein or bid an approved equal The mention of any brand name in the specifications is not intended to be restrictive, but is intended to describe the general features and requirements (or equivalent) that Galveston County is seeking

7. **SUBSTITUTES**
It is not the County's intent to discriminate against any materials of equal merit to those specified, however, no substitutions are allowed for this bid unless specific instructions are included in the Special Provision section that allow alternate substitutions Should the bidder desire to use any substitutions, prior written approval shall be obtained from the County Purchasing Agent sufficiently in advance in order that an addendum might be issued

8. **EXCEPTIONS TO BID**
No exceptions to this bid are allowed unless specific instructions are included in the Special Provision section that allow exceptions to the bid conditions Otherwise, Bidders must adhere to the specifications when completing their submittals

9. **PRICING**
Bids will be either lump sum or unit prices as shown on the bid sheet The net price will be delivered to Galveston County, including all freight or shipping charges. The County is tax exempt and no taxes should be included in your bid

Cash discount must be shown on bid, otherwise prices will be considered net. Unless prices and all information requested are complete, bid may be disregarded and given no consideration

In case of default by the contractor, the County of Galveston may procure the articles or services from other sources and may deduct from any monies due, or that may thereafter become due to the contractor, the difference between the price named in the contract of purchase order and the actual cost thereof to the County of Galveston Prices paid by the County of Galveston shall be considered the prevailing market price at the time such purchase is made Periods or performance may be extended if the facts as to the cause of delay justify such extension in the opinion of the Purchasing Agent and the Commissioners' Court

10. **PROCUREMENT CARD PROGRAM**
The County of Galveston participates in a Procurement Card (P-Card) program that allows payments made to the vendor by credit card This method normally results in substantially faster bill payments sometimes within three (3) to five (5) days of the actual transaction date. If your company will accept payment via credit card (Visa, MasterCard), please notate this in you bid submittal.

11. **TAX EXEMPTION**
Any resultant purchase orders are issued by a political subdivision of the State of Texas which qualifies for exemption from sales, excise, and use taxes pursuant to sections 151 309 – 151.311, of the Texas Tax Code The contractor performing this contract may purchase all materials, and supplies, used or consumed in the performance of this contract by issuing to his supplier an exemption certificate complying with State Comptroller's Ruling #95-9307 in lieu of tax Any such exemption certificate issued by the Contractor in lieu of tax shall be subject to the provisions of the State Comptroller's ruling #95 05 (effective October 2, 1968) or as hereafter amended. As a general rule, a vendor is not required to pay state sales tax on goods purchased that are totally incorporated into or consumed by the public improvements Certificates may be issued upon request

GENERAL PROVISIONS
FM 646 STORM SEWER OUTFALLS
GALVESTON COUNTY, TEXAS

12. PASS THROUGH COST ADJUSTMENTS

Except in instances of extreme extenuating circumstances Vendor prices shall remain firm throughout the Contract period and any renewals Examples of extreme extenuating circumstances include such situations as a nation wide rail strike, oil shortage, or oil embargos

In extreme extenuating circumstances Vendors may be allowed to temporarily "pass through" additional costs they are forced to incur through no fault of their own. A request for a pass through cost increase will not be considered unless a Vendor's cost for his product exceeds 10% over the original cost for the product Also, the increase in cost must be nationwide and consistent for a minimum period of sixty (60) days If a Vendor thinks he will be asking for a pass through cost adjustment during the term of his contract the original cost of his product to him must be stated in Vendor's original bid.

A request for a pass through cost does not guarantee that one will be granted. Vendors must submit such information on each request as is required by the County Purchasing Agent The County Purchasing Agent will review each request on a case by case basis and determine the appropriateness of each request as well as amount and duration of increase Vendors will not be permitted any additional compensation for mark-ups or profits based on the increase in price Rather, such additional compensation will be limited to the actual increase in original cost to the Vendor as such increase is reflected by the original cost stated in the bid But in no event will the amount of additional compensation exceed 25% increase in

Vendor's original cost for his product as such cost is reflected in Vendor's original bid or the duration exceed a period of sixty (60) days In addition, should, during the period of the pass through, cost return to normal or decrease to below pre pass through prices, appropriate downward adjustments will be made No more than one pass through adjustment will be permitted per year

13. MODIFICATION OF BIDS

A bidder may modify a bid by letter at any time prior to the submission deadline for receipt of bids Modification requests must be received prior to the submission deadline. Modifications made before opening time must be initialed by bidder guaranteeing authenticity Bids may not be amended or altered after the official opening with the single exception that any product literature and/or supporting data required by the actual specifications, if any, will be accepted at any time prior to the Commissioners' Court consideration of same

14. AWARD OF BIDS

The award will be made to the bidder who is determined to be the lowest bidder demonstrating the best value and ability to fulfill the requirements of the bid The prices proposed will be considered firm and cannot be altered after the submission deadline

The criteria utilized for determining responsibility of bidder(s) includes, but is not limited to, the bidder's experience, skill, ability, business judgment, financial capacity, integrity, honesty, possession of the necessary facilities or equipment, previous performance, reputation, promptness, and any other factor deemed relevant by the County The bidder shall furnish any information requested by the County in order for the County to determine whether a bidder is responsible

In determining and evaluating the best bid, the pricing may not necessarily be controlling, but quality, equality, efficiency, utility, general terms, delivery, suitability of the service offered, and the reputation of the service in general use will also be considered with any other relevant items The Commissioners' Court shall be the sole judge in the determination of these matters.

Each bidder, by submitting a bid, agrees that if their bid is accepted by the Commissioners' Court, such bidder will furnish all items and services upon which prices have been tendered and upon the terms and conditions in this bid and contract

GENERAL PROVISIONS
FM 646 STORM SEWER OUTFALLS
GALVESTON COUNTY, TEXAS

The contractor shall commence work only after the transmittal of a fully executed purchase order, or contract, and after receiving written notification to proceed from Galveston County The contractor will perform all services indicated in the bid in compliance with this contract

Neither department heads nor elected officials are authorized to sign any binding contracts or agreements prior to being properly placed on the Commissioners' Court agenda and approved in open court Department heads and other elected officials are not authorized to enter into any type of agreement or contract on behalf of Galveston County Only the Commissioners' Court, acting as a body, may enter into a contract on behalf of Galveston County Additionally, department heads and other elected officials are not authorized to agree to any type of supplemental agreements or contracts for goods or services Supplemental agreements are subject to review by the Galveston County Legal Department prior to being signed by the County's authorized representative.

The County of Galveston reserves the right to accept bids on individual items listed, or group items, or on the bid as a whole, to reject any and all bids, to waive any informality in the bids, and to accept the bid that appears to be in the best interest of the County

Notice of contract award will be made within ninety (90) days of opening of bids to the lowest responsive and responsible contractor, whose bid complies with all the requirements in this Invitation to Bid unless special consideration is granted by the Commissioners' Court.

Contractor shall submit to the County, for approval, within ten (10) days from notice of contract award, all Certificates of Insurance evidencing the required coverage as described under insurance in the schedule of the Invitation to Bid, item 29, page 7, Proof of Insurance.

The contractor shall not commence work under these terms and conditions of the contract until all applicable Certificates of Insurance, Performance and Payment Bonds, and Irrevocable Letter of Credit (if required) have been approved by the County of Galveston and he/she has received notice to proceed in writing and an executed copy of the contract from the County of Galveston Purchasing Agent.

15. RESULTANT CONTRACT

The resultant contract if applicable, shall become effective upon the Commissioners' Court execution of the same The contract documents shall consist of the contract, the general and special provisions, the drawings, bid package, any addenda issued, and any change orders issued during the work If applicable to the attached bid, bidder must sign three (3) original contracts and return with their bid submittal

16. CONTRACT TERM

The term of the resultant contract will begin on the date of execution by the Commissioners' Court and will terminate on the date specified in the resultant contract unless terminated earlier as herein set forth

17. TERMINATION FOR DEFAULT

Failure of either party in the performance of any of the provisions of this contract shall constitute a breach of contract, in which case, either party may require corrective action within ten (10) days from date of receipt of written notice citing the exact nature of such breach Failure of the party being notified to take corrective action within the prescribed ten (10) days, or failure to provide written reply of why no breach has occurred, shall constitute a Default of Contract

All notices relating to default by Bidder of the provisions of the contract shall be issued by County by its Legal Department, and all replies shall be made in writing to the Galveston County Legal Department. Notices issued by or issued to anyone other than the Galveston County Legal Department shall be null and void and shall be considered as not having been issued or received.

GENERAL PROVISIONS
FM 646 STORM SEWER OUTFALLS
GALVESTON COUNTY, TEXAS

Galveston County reserves the right to enforce the performance of this contract in any manner prescribed by law in the event of breach or default of this contract, and may contract with another party, with or without solicitation of bids or bids or further negotiations At a minimum, bidder shall be required to pay any difference in service or materials, should it become necessary to contract with another source, plus reasonable administrative costs and attorney fees

In the event of Termination for Default, Galveston County, its agents or representatives shall not be liable for loss of any profits anticipated to be made by bidder

No waiver by either party of any event of default under this agreement shall operate as a waiver of any subsequent default under the terms of this agreement

County reserves the right to terminate this contract immediately in the event bidder

- Fails to meet delivery or completion schedules;
- Fails to otherwise perform in accordance with the accepted bid and the contract

18. TERMINATION FOR CONVENIENCE

County may terminate this contract upon at least thirty (30) days prior written notice for its' convenience or for any reason deemed by the County to serve the public interest. County may terminate this contract upon thirty (30) days prior written notice for any reason resulting from any governmental law, order, ordinance, regulations, or court order In no event shall County be liable for loss of any profits anticipated to be made hereunder by bidder should this contract be terminated early

19. FORCE MAJEURE

If by reason of Force Majeure either Party shall be rendered unable, wholly or in part, to carry out its responsibilities under this contract by any occurrence by reason of Force Majeure, then the Party unable to carry out its responsibility shall give the other Party notice and full particulars of such Force Majeure in writing within a reasonable time after the occurrence of the event, and such notice shall suspend the Party's responsibility for the continuance of the Forced Majeure claimed, but for no longer period

Force Majeure means acts of God, floods, hurricanes, tropical storms, tornadoes, earthquakes, or other natural disasters, acts of a public enemy, acts of terrorism, sovereign conduct, riots, civil commotion, strikes or lockouts, and other causes that are not occasioned by either Party's conduct which by the exercise of due diligence the Party is unable to overcome and which substantially interferes with operations.

20. ESTIMATED QUANTITIES

Any reference to quantities shown in the Invitation to Bid are an estimate only. Since the exact quantities cannot be predetermined, the County reserves the right to adjust quantities as deemed necessary to meet its' requirements

21. CONTRACTOR INVESTIGATION

Before submitting a bid, each contractor shall make all investigations and examinations necessary to ascertain all site conditions and requirements affecting the full performance of the contract and to verify any representations made by the County upon which the contractor will rely. If the contractor receives an award as a result of its bid submission, failure to have made such investigations and examinations will in no way relieve the contractor from its obligation to comply in every detail with all provisions and requirements of the contract, nor will a plea of ignorance of such conditions and requirements be accepted as a basis for any claim whatsoever by the contractor for additional compensation

22. NO COMMITMENT BY COUNTY OF GALVESTON

This Invitation to Bid does not commit the County of Galveston to award any costs or pay any costs, or to award any contract, or to pay any costs associated with or incurred in the preparation of a bid to this request, or to procure or contract for services or supplies

GENERAL PROVISIONS
FM 646 STORM SEWER OUTFALLS
GALVESTON COUNTY, TEXAS

23. SINGLE BID RESPONSE

If only one bid is received in response to the Invitation to Bid, a detailed cost bid may be requested of the single contractor. A cost/price analysis and evaluation and/or audit may be performed of the cost bid in order to determine if the price is fair and reasonable

24. REJECTION/DISQUALIFICATION OF BIDS

Galveston County reserves the right to reject any or all bids in whole or in part received by reason of this bid package and may discontinue its efforts for any reason under this bid package at any time prior to actual execution of the contract by the County Bidders may be disqualified and rejection of bids may be recommended to the Commissioners' Court for any of (but not limited to) the following causes·

A Failure to use the bid form(s) furnished by the County, if applicable
B. Lack of signature by an authorized representative that can legally bind the company on the bid form.
C Failure to properly complete the bid.
D Bids that do not meet the mandatory requirements.
E. Evidence of collusion among bidders

25. CHANGES IN SPECIFICATIONS

If it becomes necessary to revise any part of this bid, a written notice of such revision will be provided to all bidders in the form of addenda The County is not bound by any oral representations, clarifications, or changes made in the written specifications by the County's employees, unless such clarification or change is provided to bidders in a written addendum from the Purchasing Agent

The County of Galveston reserves the right to revise or amend the specifications up to the time set for opening of bids Such revisions and amendments, if any, shall be announced by amendments to the solicitation. Copies of such amendments shall be furnished to all prospective contractors. Prospective contractors are defined as those contractors listed on the County's Invitation to Bid list for this material/service or who have obtained his documents subsequent to the advertisement. If revisions and amendments require changes in quantities or prices proposed, or both, the date set for opening of bids may be postponed by such number of days as in the opinion of the County shall enable contractors to revise their bids. In any case, the bid opening shall be at least five working days after the last amendment; and the amendment shall include an announcement of the new date if applicable, for the opening of bids.

26. BID DISCLOSURES

The names of those who submitted bids will not be made public information until after an award is made by Commissioners' Court. No price or staffing information will be released. Bidders are requested to withhold all inquiries regarding their bid or other submissions until after an award is made. No communication is to be had with any County employee, other than the Purchasing Agent, regarding whether a bid was received Violations of this provision may result in the rejection of a bid.

27. PROTEST

Any actual or prospective bidder who is allegedly aggrieved in connection with the solicitation or award of bid may protest The protest will be submitted in writing to the Purchasing Agent within seven (7) days after such aggrieved person knows of, or should have known of the facts giving rise thereto. If the protest is not resolved by mutual agreement, the Purchasing Agent will promptly issue a decision in writing to the protestant If the protestant wishes to appeal the decision rendered by the Purchasing Agent, such appeal must be made to the Commissioners' Court through the Purchasing Agent The decision of the Court will be final. The Court need not consider protests unless this procedure is followed.

28. WITHDRAWAL OF BID

Bidders may request withdrawal of a sealed bid prior to the scheduled bid opening time provided the request for withdrawal is submitted to the Purchasing Agent in writing No bids may be withdrawn for a period of sixty (60) calendar days after opening of the bids

GENERAL PROVISIONS
FM 646 STORM SEWER OUTFALLS
GALVESTON COUNTY, TEXAS

29. INDEMNIFICATION

GENERAL PROVISIONS
FM 646 STORM SEWER OUTFALLS
GALVESTON COUNTY, TEXAS

It is Proposer's sole responsibility to file a true and complete CIQ Form with the Galveston County Clerk if Proposer is required to file by the requirements of Chapter 176 Proposer is advised that it is an offense to fail to comply with the disclosure reporting requirements dictated under Chapter 176 of the Texas Local Government Code.

If you have questions about compliance with Chapter 176, please consult your own legal counsel Compliance is the individual responsibility of each person, business, and agent who is subject to Chapter 176 of the Texas Local Government Code

34. ENTIRETY OF AGREEMENT AND MODIFICATION

This contract contains the entire agreement between the parties Any prior agreement, promise, negotiation or representation not expressly set fourth in this contract has no force or effect. Any subsequent modification to this contract must be in writing, signed by both parties.

An official representative, employee, or agent of the County does not have the authority to modify or amend this contract except pursuant to specific authority to do so granted by the Galveston County Commissioners' Court

35. NON-COLLUSIONAFFIDAVIT

The contractor declares, by signing and submitting a bid, that the bid is not made in the interest of, or on behalf of, any undisclosed person, partnership, company, association, organization, or corporation; that the bid is genuine and not collusive or sham, that the contractor has not directly or indirectly induced or solicited another contractor to put in a false or sham bid, and has not directly or indirectly colluded, conspired, connived, or agreed with any contractor or anyone else to put in a sham bid, of that anyone shall refrain from bidding, that the contractor has not in any manner, directly or indirectly, sought by agreement, communications, or conference with anyone to fix the bid price of the contractor of any other bidder, or to fix any overhead, profit or cost element of the bid price, or of that of any other contractor, or to secure any advantage against the public body awarding the contact of anyone interested in the proposed contract; that all statements contained in the bid are true; and further, that the contractor has not, directly or indirectly, submitted his or her bid price or any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, or paid, and will not pay, any fee to any cooperation, partnership, company association, organization, bid depository, or to any member or agent thereof to effectuate a collusive or sham bid

No negotiations, decisions, or actions shall be initiated by any company as a result of any result of any verbal discussion with any County employee prior to the opening of responses to this Invitation to Bid.

No officer or employee of the County of Galveston, and no other public or elected official, or employee, who may exercise any function or responsibilities in the review or approval of this undertaking shall have any personal or financial interest, direct or indirect, in any contract or negotiation process thereof. The above compliance request will be part of all County of Galveston contracts for this service

36. PROCUREMENT ETHICS

Galveston County is committed to the highest ethical standards Therefore, it is a serious breach of the public trust to subvert the public purchasing process by directing purchases to certain favored vendors, or to tamper with the competitive bidding process, whether it's done for kickbacks, friendship or any other reason Since misuse of the purchasing power of a local government carries criminal penalties, and many such misuses are from a lack of clear guidelines about what constitutes an abuse of office, the Code of Ethics outlined below must be strictly followed

Galveston County also requires ethical conduct from those who do business with the county

CODE OF ETHICS – Statement of Purchasing Policy

Public employment is a public trust. It is the policy of Galveston County to promote and balance the objective of protecting the County's integrity and the objective of facilitating the recruitment and retention of personnel needed by Galveston County. Such policy is implemented by prescribing essential standards of ethical conduct without creating unnecessary obstacles to entering public office.

GENERAL PROVISIONS
FM 646 STORM SEWER OUTFALLS
GALVESTON COUNTY, TEXAS

Public employees must discharge their duties impartially so as to assure fair competitive access to governmental procurement by responsible contractors Moreover, they should conduct themselves in such a manner as to foster public confidence in the integrity of the Galveston County procurement organization.

To achieve this purpose, it is essential that those doing business with Galveston County also observe the ethical standards prescribed herein

General Ethical Standards
It shall be a breach of ethics to attempt to realize personal gain through public employment with Galveston County by any conduct inconsistent with the proper discharge of the employee's duties

It shall be a breach of ethics to attempt to influence any public employee of Galveston County to breach the standards of ethical conduct set forth in this code

It shall be a breach of ethics for any employee of Galveston County to participate directly or indirectly in a procurement when the employee knows that:

- The employee or any member of the employee's immediate family, has a financial interest pertaining to the procurement
- A business or organization in which the employee, or any member of the employee's immediate family, has a financial interest pertaining to the procurement
- Any other person, business or organization with which the employee or any member of the employee's immediate family is negotiating or has an arrangement concerning prospective employment is involved in the procurement.

Gratuities
It shall be a breach of ethics to offer, give or agree to give any employee of Galveston County, or for any employee or former employee of Galveston County to solicit, demand, accept or agree to accept from another person, a gratuity or an offer of employment in connection with any decision, approval, disapproval, recommendation, preparation of any part of a program requirement or purchase request, influencing the content of any specification or procurement standard, rendering of advice, investigation, auditing, or in any other advisory capacity in any program requirement or a contract or subcontract, or to any solicitation or bid therefore pending before this government.

Kickbacks
It shall be a breach of ethics for any payment, gratuity or offer of employment to be made by or on behalf of a subcontractor under a contract to the prime contractor or higher tier subcontractor for any contract for Galveston County, or any person associated therewith, as an inducement for the award of a subcontract or order

Contract Clause
The prohibition against gratuities and kickbacks prescribed above shall be conspicuously set forth in every contract and solicitation by Galveston County.

Confidential Information
It shall be a breach of ethics for any employee or former employee of Galveston County to knowingly use confidential information for actual or anticipated personal gain, or for the actual or anticipated gain of any person

37. OPEN RECORDS
Galveston County is required to adhere to the provisions of the Texas Public Information Act. All information, documentation and other material submitted by vendor in response to any solicitations or under any resulting contract thereof may be subject to public disclosure under the Texas Public Information Act (TX Gov't Code,

Certificate(s) of Insurance: **If the person or entity seeking qualified vendor status with the County will be performing work at or on any County owned facility and/or property, Certificate(s) of Insurance are required to be submitted prior to performing any work.**

Insurance requirements are as follows:

Public Liability and Property Damage Insurance:

Successful vendor agrees to keep in full force and effect, a policy of public liability and property damage insurance issued by a casualty company authorized to do business in the State of Texas, and in standard form approved by the Board of Insurance Commissioners of the State of Texas, with coverage provisions insuring the public from any loss or damage that may arise to any person or property by reason of services rendered by vendor. Vendor shall at its own expense be required to carry the following minimum insurance coverages:

- For damages arising out of bodily injury to or death of one person in any one occurrence – one hundred thousand and no/100 dollars ($100,000.00);
- For damages arising out of bodily injury to or death of two or more persons in any one occurrence – three hundred thousand and no/100 dollars ($300,000.00); and
- For injury to or destruction of property in any one occurrence – one hundred thousand and no/100 dollars ($100,000.00).

This insurance shall be either on an occurrence basis or on a claims made basis. Provided however, that if the coverage is on a claims made basis, then the vendor shall be required to purchase, at the termination of this agreement, tail coverage for the County for the period of the County's relationship with the vendor under this agreement. Such coverage shall be in the amounts set forth in subparagraphs (1), (2), and (3) above.

Worker's Compensation Insurance:

Successful vendor shall also carry in full force Workers' Compensation Insurance policy(ies), if there is more than one employee, for all employees, including but not limited to full time, part time, and emergency employees employed by the vendor. Current insurance certificates certifying that such policies as specified above are in full force and effect shall be furnished by the vendor to the County.

The County of Galveston shall be named as additional insured on policies listed in subparagraphs above and shall be notified of any changes to the policy(ies) during the contractual period. Insurance is to be placed with insurers having a Best rating of no less than A. The vendor shall furnish the County with certificates of insurance and original endorsements affecting coverage required by these insurance clauses. The certificates and endorsements for each insurance policy are to be signed by a person authorized by the insurer to bind coverage on its behalf. The vendor shall be required to submit annual renewals for the term of any contractual agreement, purchase order or term contract, with Galveston County prior to expiration of any policy.

In addition to the remedies stated herein, the County has the right to pursue other remedies permitted by law or in equity

The County agrees to provide vendor with reasonable and timely notice of any claim, demand, or cause of action made or brought against the County arising out of or related to utilization of the property. Vendor shall have the right to defend any such claim, demand, or cause of action at its sole cost and expense and within its sole and exclusive discretion. The County agrees not to compromise or settle any claim or cause of action arising out of or related to the utilization of the property without the prior written consent of the vendor.

In no event shall the County be liable for any damage to or destruction of any property belonging to the vendor unless specified in writing and agreed upon by both parties

Procurement Policy - Special Note:

Understand that it is, according to Texas Local Government Code, Section 262.011, Purchasing Agents, subsections (d), (e), and (f), the sole responsibility of the Purchasing Agent to supervise all procurement transactions.

Therefore, be advised that all procurement transactions require proper authorization in the form of a Galveston County purchase order from the Purchasing Agent's office prior to commitment to deliver supplies, materials, equipment, including contracts for repair, service, and maintenance agreements. Any commitments made without proper authorization from the Purchasing Agent's office, pending Commissioners' Court approval, may become the sole responsibility of the individual making the commitment including the obligation of payment.

Code of Ethics - Statement of Purchasing Policy:

Public employment is a public trust. It is the policy of Galveston County to promote and balance the objective of protecting the County's integrity and the objective of facilitating the recruitment and

retention of personnel needed by Galveston County. Such policy is implemented by prescribing essential standards of ethical conduct without creating unnecessary obstacles to entering public office.

Public employees must discharge their duties impartially so as to assure fair competitive access to governmental procurement by responsible contractors Moreover, they should conduct themselves in such a manner as to foster public confidence in the integrity of the Galveston County procurement organization.

To achieve the purpose of these instructions, it is essential that those doing business with Galveston County also observe the ethical standards prescribed here

General Ethical Standards: It shall be a breach of ethics to attempt to realize personal gain through public employment with Galveston County by any conduct inconsistent with the proper discharge of the employee's duties

It shall be a breach of ethics to attempt to influence any public employee of Galveston County to breach the standards of ethical conduct set forth in this code

It shall be a breach of ethics for any employee of Galveston County to participate directly or indirectly in procurement when the employee knows that:

- The employee or any member of the employee's immediate family has a financial interest pertaining to the procurement.
- A business or organization in which the employee, or any member of the employee's immediate family, has a financial interest pertaining to the procurement.
- Any other person, business or organization with which the employee or any member of the employee's immediate family is negotiating or has an arrangement concerning prospective employment is involved in the procurement.

Gratuities: It shall be a breach of ethics to offer, give or agree to give any employee of Galveston County, or for any employee or former employee of Galveston County to solicit, demand, accept or agree to accept from another person, a gratuity or an offer of employment in connection with any decision, approval, disapproval, recommendation, preparation of any part of a program requirement or purchase request, influencing the content of any specification or procurement standard, rendering of advice, investigation, auditing, or in any other advisory capacity in any program requirement or a contract or subcontract, or to any solicitation or proposal therefore pending before this government.

Kickbacks: It shall be a breach of ethics for any payment, gratuity or offer of employment to be made by or on behalf of a subcontractor under a contract to the prime contractor or higher tier subcontractor for any contract for Galveston County, or any person associated therewith, as an inducement for the award of a subcontract or order.

Contract Clause: The prohibition against gratuities and kickbacks prescribed above shall be conspicuously set forth in every contract and solicitation by Galveston County.

Confidential Information: It shall be a breach of ethics for any employee or former employee of Galveston County to knowingly use confidential information for actual or anticipated personal gain, or for the actual or anticipated gain of any person

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on Line 1 to avoid backup withholding. For individuals, this is your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

Note. If the account is in more than one name, see the chart on page 4 for guidelines on whose number to enter.

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and
3. I am a U.S. citizen or other U.S. person (defined below).

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the Certification, but you must provide your correct TIN. See the instructions on page 4.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),

2. Certify that you are not subject to backup withholding, or

3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

The person who gives Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States is in the following cases:

- The U.S. owner of a disregarded entity and not the entity,

• The U S. grantor or other owner of a grantor trust and not the trust, and

• The U.S. trust (other than a grantor trust) and not the beneficiaries of the trust

Foreign person. If you are a foreign person, do not use Form W-9 Instead, use the appropriate Form W-8 (see Publication 515, Withholding of Tax on Nonresident Aliens and Foreign Entities)

Nonresident alien who becomes a resident alien. Generally, only a nonresident alien individual may use the terms of a tax treaty to reduce or eliminate U.S tax on certain types of income However, most tax treaties contain a provision known as a "saving clause " Exceptions specified in the saving clause may permit an exemption from tax to continue for certain types of income even after the payee has otherwise become a U S. resident alien for tax purposes

If you are a U S resident alien who is relying on an exception contained in the saving clause of a tax treaty to claim an exemption from U.S. tax on certain types of income, you must attach a statement to Form W-9 that specifies the following five items

1 The treaty country. Generally, this must be the same treaty under which you claimed exemption from tax as a nonresident alien.

2. The treaty article addressing the income.

3 The article number (or location) in the tax treaty that contains the saving clause and its exceptions

4 The type and amount of income that qualifies for the exemption from tax.

5 Sufficient facts to justify the exemption from tax under the terms of the treaty article

Example. Article 20 of the U S.-China income tax treaty allows an exemption from tax for scholarship income received by a Chinese student temporarily present in the United States. Under U S. law, this student will become a resident alien for tax purposes if his or her stay in the United States exceeds 5 calendar years However, paragraph 2 of the first Protocol to the U S.-China treaty (dated April 30, 1984) allows the provisions of Article 20 to continue to apply even after the Chinese student becomes a resident alien of the United States. A Chinese student who qualifies for this exception (under paragraph 2 of the first protocol) and is relying on this exception to claim an exemption from tax on his or her scholarship or fellowship income would attach to Form W-9 a statement that includes the information described above to support that exemption.

If you are a nonresident alien or a foreign entity not subject to backup withholding, give the requester the appropriate completed Form W-8

What is backup withholding? Persons making certain payments to you must under certain conditions withhold and pay to the IRS 28% of such payments. This is called "backup withholding " Payments that may be subject to backup withholding include interest, tax-exempt interest, dividends, broker and barter exchange transactions, rents, royalties, nonemployee pay, and certain payments from fishing boat operators. Real estate transactions are not subject to backup withholding

You will not be subject to backup withholding on payments you receive if you give the requester your correct TIN, make the proper certifications, and report all your taxable interest and dividends on your tax return.

Payments you receive will be subject to backup withholding if:

1. You do not furnish your TIN to the requester,

2 You do not certify your TIN when required (see the Part II instructions on page 3 for details),

3 The IRS tells the requester that you furnished an incorrect TIN,

4 The IRS tells you that you are subject to backup withholding because you did not report all your interest and dividends on your tax return (for reportable interest and dividends only), or

5 You do not certify to the requester that you are not subject to backup withholding under 4 above (for reportable interest and dividend accounts opened after 1983 only)

Certain payees and payments are exempt from backup withholding See the instructions below and the separate Instructions for the Requester of Form W-9.

Also see *Special rules for partnerships* on page 1

Penalties

Failure to furnish TIN. If you fail to furnish your correct TIN to a requester, you are subject to a penalty of $50 for each such failure unless your failure is due to reasonable cause and not to willful neglect

Civil penalty for false information with respect to withholding. If you make a false statement with no reasonable basis that results in no backup withholding, you are subject to a $500 penalty.

Criminal penalty for falsifying information. Willfully falsifying certifications or affirmations may subject you to criminal penalties including fines and/or imprisonment

Misuse of TINs. If the requester discloses or uses TINs in violation of federal law, the requester may be subject to civil and criminal penalties.

Specific Instructions

Name

If you are an individual, you must generally enter the name shown on your income tax return However, if you have changed your last name, for instance, due to marriage without informing the Social Security Administration of the name change, enter your first name, the last name shown on your social security card, and your new last name.

If the account is in joint names, list first, and then circle, the name of the person or entity whose number you entered in Part I of the form.

Sole proprietor. Enter your individual name as shown on your income tax return on the "Name" line. You may enter your business, trade, or "doing business as (DBA)" name on the "Business name" line.

Limited liability company (LLC). Check the "Limited liability company" box only and enter the appropriate code for the tax classification ("D" for disregarded entity, "C" for corporation, "P" for partnership) in the space provided.

For a single-member LLC (including a foreign LLC with a domestic owner) that is disregarded as an entity separate from its owner under Regulations section 301.7701-3, enter the owner's name on the "Name" line. Enter the LLC's name on the "Business name" line.

For an LLC classified as a partnership or a corporation, enter the LLC's name on the "Name" line and any business, trade, or DBA name on the "Business name" line

Other entities. Enter your business name as shown on required federal tax documents on the "Name" line. This name should match the name shown on the charter or other legal document creating the entity. You may enter any business, trade, or DBA name on the "Business name" line

Note. You are requested to check the appropriate box for your status (individual/sole proprietor, corporation, etc.).

Exempt Payee

If you are exempt from backup withholding, enter your name as described above and check the appropriate box for your status, then check the "Exempt payee" box in the line following the business name, sign and date the form

Generally, individuals (including sole proprietors) are not exempt from backup withholding. Corporations are exempt from backup withholding for certain payments, such as interest and dividends

Note. If you are exempt from backup withholding, you should still complete this form to avoid possible erroneous backup withholding

The following payees are exempt from backup withholding.

1 An organization exempt from tax under section 501(a), any IRA, or a custodial account under section 403(b)(7) if the account satisfies the requirements of section 401(f)(2),

2 The United States or any of its agencies or instrumentalities,

3 A state, the District of Columbia, a possession of the United States, or any of their political subdivisions or instrumentalities,

4 A foreign government or any of its political subdivisions, agencies, or instrumentalities, or

5. An international organization or any of its agencies or instrumentalities.

Other payees that may be exempt from backup withholding include

6 A corporation,

7. A foreign central bank of issue,

8 A dealer in securities or commodities required to register in the United States, the District of Columbia, or a possession of the United States,

9. A futures commission merchant registered with the Commodity Futures Trading Commission,

10 A real estate investment trust,

11 An entity registered at all times during the tax year under the Investment Company Act of 1940,

12 A common trust fund operated by a bank under section 584(a),

13. A financial institution,

14. A middleman known in the investment community as a nominee or custodian, or

15. A trust exempt from tax under section 664 or described in section 4947.

The chart below shows types of payments that may be exempt from backup withholding. The chart applies to the exempt payees listed above, 1 through 15.

IF the payment is for . . .	THEN the payment is exempt for . . .
Interest and dividend payments	All exempt payees except for 9
Broker transactions	Exempt payees 1 through 13 Also, a person registered under the Investment Advisers Act of 1940 who regularly acts as a broker
Barter exchange transactions and patronage dividends	Exempt payees 1 through 5
Payments over $600 required to be reported and direct sales over $5,000[1]	Generally, exempt payees 1 through 7[2]

[1]See Form 1099-MISC, Miscellaneous Income, and its instructions.

[2]However, the following payments made to a corporation (including gross proceeds paid to an attorney under section 6045(f), even if the attorney is a corporation) and reportable on Form 1099-MISC are not exempt from backup withholding: medical and health care payments, attorneys' fees, and payments for services paid by a federal executive agency.

Part I. Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. If you are a resident alien and you do not have and are not eligible to get an SSN, your TIN is your IRS individual taxpayer identification number (ITIN). Enter it in the social security number box If you do not have an ITIN, see *How to get a TIN* below

If you are a sole proprietor and you have an EIN, you may enter either your SSN or EIN. However, the IRS prefers that you use your SSN.

If you are a single-member LLC that is disregarded as an entity separate from its owner (see *Limited liability company (LLC)* on page 2), enter the owner's SSN (or EIN, if the owner has one). Do not enter the disregarded entity's EIN If the LLC is classified as a corporation or partnership, enter the entity's EIN.

Note. See the chart on page 4 for further clarification of name and TIN combinations.

How to get a TIN. If you do not have a TIN, apply for one immediately To apply for an SSN, get Form SS-5, Application for a Social Security Card, from your local Social Security Administration office or get this form online at *www ssa.gov* You may also get this form by calling 1-800-772-1213 Use Form W-7, Application for IRS Individual Taxpayer Identification Number, to apply for an ITIN, or Form SS-4, Application for Employer Identification Number, to apply for an EIN You can apply for an EIN online by accessing the IRS website at *www irs.gov/businesses* and clicking on Employer Identification Number (EIN) under Starting a Business. You can get Forms W-7 and SS-4 from the IRS by visiting *www irs.gov* or by calling 1-800-TAX-FORM (1-800-829-3676)

If you are asked to complete Form W-9 but do not have a TIN, write "Applied For" in the space for the TIN, sign and date the form, and give it to the requester. For interest and dividend payments, and certain payments made with respect to readily tradable instruments, generally you will have 60 days to get a TIN and give it to the requester before you are subject to backup withholding on payments. The 60-day rule does not apply to other types of payments. You will be subject to backup withholding on all such payments until you provide your TIN to the requester.

Note. Entering "Applied For" means that you have already applied for a TIN or that you intend to apply for one soon

Caution: *A disregarded domestic entity that has a foreign owner must use the appropriate Form W-8.*

Part II. Certification

To establish to the withholding agent that you are a U S person, or resident alien, sign Form W-9. You may be requested to sign by the withholding agent even if items 1, 4, and 5 below indicate otherwise.

For a joint account, only the person whose TIN is shown in Part I should sign (when required). Exempt payees, see *Exempt Payee* on page 2.

Signature requirements. Complete the certification as indicated in 1 through 5 below

1. Interest, dividend, and barter exchange accounts opened before 1984 and broker accounts considered active during 1983. You must give your correct TIN, but you do not have to sign the certification.

2. Interest, dividend, broker, and barter exchange accounts opened after 1983 and broker accounts considered inactive during 1983. You must sign the certification or backup withholding will apply If you are subject to backup withholding and you are merely providing your correct TIN to the requester, you must cross out item 2 in the certification before signing the form

3. Real estate transactions. You must sign the certification. You may cross out item 2 of the certification

4. Other payments. You must give your correct TIN, but you do not have to sign the certification unless you have been notified that you have previously given an incorrect TIN "Other payments" include payments made in the course of the requester's trade or business for rents, royalties, goods (other than bills for merchandise), medical and health care services (including payments to corporations), payments to a nonemployee for services, payments to certain fishing boat crew members and fishermen, and gross proceeds paid to attorneys (including payments to corporations).

5. Mortgage interest paid by you, acquisition or abandonment of secured property, cancellation of debt, qualified tuition program payments (under section 529), IRA, Coverdell ESA, Archer MSA or HSA contributions or distributions, and pension distributions. You must give your correct TIN, but you do not have to sign the certification.

[1] List first and circle the name of the person whose number you furnish. If only one person on a joint account has an SSN, that person's number must be furnished.

[2] Circle the minor's name and furnish the minor's SSN.

[3] You must show your individual name and you may also enter your business or "DBA" name on the second name line. You may use either your SSN or EIN (if you have one), but the IRS encourages you to use your SSN.

[4] List first and circle the name of the trust, estate, or pension trust. (Do not furnish the TIN of the personal representative or trustee unless the legal entity itself is not designated in the account title.) Also see *Special rules for partnerships* on page 1

Note. If no name is circled when more than one name is listed, the number will be considered to be that of the first name listed.

Secure Your Tax Records from Identity Theft

Identity theft occurs when someone uses your personal information such as your name, social security number (SSN), or other identifying information, without your permission, to commit fraud or other crimes. An identity thief may use your SSN to get a job or may file a tax return using your SSN to receive a refund

To reduce your risk

- Protect your SSN,
- Ensure your employer is protecting your SSN, and
- Be careful when choosing a tax preparer

Call the IRS at 1-800-829-1040 if you think your identity has been used inappropriately for tax purposes

Victims of identity theft who are experiencing economic harm or a system problem, or are seeking help in resolving tax problems that have not been resolved through normal channels, may be eligible for Taxpayer Advocate Service (TAS) assistance You can reach TAS by calling the TAS toll-free case intake line at 1-877-777-4778 or TTY/TDD 1-800-829-4059

Protect yourself from suspicious emails or phishing schemes. Phishing is the creation and use of email and websites designed to mimic legitimate business emails and websites. The most common act is sending an email to a user falsely claiming to be an established legitimate enterprise in an attempt to scam the user into surrendering private information that will be used for identity theft.

The IRS does not initiate contacts with taxpayers via emails. Also, the IRS does not request personal detailed information through email or ask taxpayers for the PIN numbers, passwords, or similar secret access information for their credit card, bank, or other financial accounts.

If you receive an unsolicited email claiming to be from the IRS, forward this message to *phishing@irs.gov*. You may also report misuse of the IRS name, logo, or other IRS personal property to the Treasury Inspector General for Tax Administration at 1-800-366-4484. You can forward suspicious emails to the Federal Trade Commission at: *spam@uce.gov* or contact them at *www.consumer.gov/idtheft* or 1-877-IDTHEFT(438-4338).

Visit the IRS website at *www irs.gov* to learn more about identity theft and how to reduce your risk

Privacy Act Notice

Section 6109 of the Internal Revenue Code requires you to provide your correct TIN to persons who must file information returns with the IRS to report interest, dividends, and certain other income paid to you, mortgage interest you paid, the acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA, or Archer MSA or HSA. The IRS uses the numbers for identification purposes and to help verify the accuracy of your tax return The IRS may also provide this information to the Department of Justice for civil and criminal litigation, and to cities, states, the District of Columbia, and U.S. possessions to carry out their tax laws. We may also disclose this information to other countries under a tax treaty, to federal and state agencies to enforce federal nontax criminal laws, or to federal law enforcement and intelligence agencies to combat terrorism.

You must provide your TIN whether or not you are required to file a tax return Payers must generally withhold 28% of taxable interest, dividend, and certain other payments to a payee who does not give a TIN to a payer Certain penalties may also apply

INSTRUCTIONS TO BIDDERS

1. **BID PACKAGE**

This bid package consists of the Invitation to Bid, the Instructions to Bidders, the bid proposal, the unexecuted Notice of Contract Award, the Special and General Terms and Conditions, any drawings and specifications, and any addenda which the County may issue prior to receipt of bids.

2. **REVIEW**

Each bidder is required to thoroughly review this entire bid packet to familiarize themselves with the bidding procedures, the plans and specifications for the requested work as well as the terms, and conditions of the contact the successful bidder will execute with the County.

3. **PRE-BID MODIFICATIONS**

Any modification to any portion of this bid packet will be in writing in the form of addenda. All addenda will be mailed to all holders of plans and specifications at least three (3) days prior to the date of opening bids. Bidders should inquire whether addenda have been issued inasmuch as Bidders shall be bound by such addenda whether or not received.

4. **BID FORMS**

All bids must be submitted on forms furnished by County

5. **TIME FOR RECEIVING BIDS**

Bids received prior to the submission deadline will be maintained unopened until the specified time for bid opening. If the bidder fails to identify the Bid Number on the outside of the envelope as required, the Purchasing Agent will open the

envelope for the sole purpose of identifying the Bid Number for which the submission was made. The envelope will then be resealed. No liability will attach to a County officer or employee for the premature opening of a bid.

6. **TERM**

The term of the contract will begin on the date of execution by the County and will terminate on the date specified in the document entitled "Contract Award".

7. **AWARD OF BID**

The award will be to the responsive, responsible bidder(s) who submits the lowest and best bid. Criteria utilized for determining responsibility of bidder(s) includes, the bidder's experience, skill, ability, business judgment, financial capacity, integrity, honesty, possession of the necessary facilities or equipment, previous performance, reputation, promptness and any other factor deemed relevant by the County. The bidder shall furnish any information requested by the County in order for the County to determine whether a bidder is responsible.

8. **SUBSTITUTES**

It is not the County's intent to discriminate against any materials of equal merit to those specified; however, should the Bidder desire to use any substitutions, prior written approval shall be obtained from the County sufficiently in advance in order that an addendum might be issued.

9. **REJECTION OF BIDS**

The County, acting through its County Commissioners' Court reserves the right to: (1) reject any and all bids and waive any informality in the bids received; (2) disregard the bid of any Bidder determined to be not responsible.

10. **BID BOND**

Each Bidder will be required to furnish with his bid a Cashier's or Certified Check from any bank in the State of Texas or an acceptable Bidder's Bond for the sum of 5% of the total highest bid payable to the County of Galveston. The certified check or Bid Bond will be returned to the unsuccessful Bidder(s) and to the successful Bidder on the completion of execution of all contract documents and the furnishing of any necessary payment and

performance bonds and insurance certificates.

The bid bond or check will be forfeited to the County as liquidated damages should the successful Bidder fail to give the required payment and performance bonds and insurance certificates and execute the contract with the said County within thirty (30) days after receiving notice of acceptance of its bid.

11. **PERFORMANCE AND PAYMENT BOND**

V.T.C.A., Government Code Chapter 2253, requires a Performance Bond (for contracts in excess of $100,000) and a Payment Bond (for contracts in excess of $25,000), be provided by the Contractor. Each bond required shall be equal to the total contract price and shall be issued by a satisfactory surety company. The bond(s) will remain in full force and effect until final completion and acceptance of the work.

The bond(s) are to be made payable to the County of Galveston. They shall be written on forms provided by the surety for public works projects in Texas. They shall also be executed by a surety and licensed to do business in Texas.

Bidders should familiarize themselves with the entire provisions of V.T.C.A.,

Chapter 2253 and the penalties provided for its violations before submitting their bid.

12. **CONTRACT**

The contract shall become effective upon the Commissioners' Court's execution of same. The contract documents shall consist of the contract, the general and special conditions, the drawings, the bid package, any addenda issued, and any change orders issued during the work.

13. **TAX EXEMPTION**

This contract is issued by a political subdivision of the State of Texas which qualifies for exemption from sales, excise and use taxes pursuant to Section 151.309, Texas Tax Code.

The Contractor performing this contract may purchase, rent or lease all materials, supplies, equipment used or consumed in the performance of this contract by issuing to his supplier an exemption certificate complying with State Comptroller's Ruling #95-9 07 in lieu of the tax. Any such exemption certificate issued by the Contractor in lieu of the tax shall be subject to the provisions of the State Comptroller's ruling #95.05 (effective October 2, 1968) or as hereafter amended.

Special Terms and Conditions

SPECIAL TERMS AND CONDITIONS

CONTRACT FOR: FM 646 STORM SEWER OUTFALLS

In the event of a conflict between any provision of these Special Terms and Conditions and any other section or provision of this bid package or a contract awarded under this bid, the Special Terms and Provisions control. If you need additional information, contact the Project Administrator

SCOPE:

It is the intent of these specifications to secure a contract to furnish labor, equipment, materials and incidentals as required to:

Construct reinforced concrete box storm sewers and outfalls on six streets in San Leon, Texas, including 13th, 17th, 20th, 23rd, 24th, and 26th Streets In addition, the existing roadside ditches and driveway culverts will be reconstructed to maximize drainage. The existing streets are asphalt paved with roadside ditches and driveway culverts The existing asphalt pavement and base course that is removed to construct the box sewers will be reused as temporary paving surface for the streets until they are repaved under a separate contract.

The construction will consist of both box and pipe storm sewer, grading and related miscellaneous work The proposed storm sewer outfall boxes will be plugged at the north end. Future connection will be made to the proposed TXDOT project on FM 646.

Also included in this project is the construction of a 6" parallel sanitary sewer on four of the six streets These sanitary lines will be constructed in order to avoid long-side sanitary sewer service lead conflicts This work will include manholes, sanitary sewer and other related appurtenances as may be required for construction

The work to be performed will be administered by the County's Program Administrator, who, for purposes of this Contract is:

Name. G. Michael Fitzgerald, P.E., County Engineer
Address. 722 Moody Avenue, Galveston, Texas 77550
Telephone No.. (409) 770-5549

GENERAL

The County reserves the right to award the contract with or without any or all additive alternates.

Before approval of final payment and release of retainage, the contractor shall execute the following forms and deliver them to the County:

AIA Form G706 – Contractor's Affidavit of Payment of Debts and Claims
AIA Form G706A – Contractor's Affidavit of Release of Liens
AIA Form G707 – Consent of Surety to Final Payment
AIA Form G707A – Consent of Surety to Reduction in or Partial Release of Retainage (if applicable)

The Contractor will be required to make submittals on all materials for pre-delivery approval.

All advance warning signs to be set two weeks prior to the start of construction activities and to remain in place until all construction activities are complete and accepted by Galveston County

For this project the contractor will furnish and maintain all barricades and warning signs, including all temporary and portable traffic control devices necessary during the various phases of construction These barricades and warning signs shall be constructed and placed in accordance with the barricades and construction standards, latest Texas MUTCD, and typical construction layouts, or as directed by the Engineer.

The Contractor shall be responsible for controlling excess dust and loose rocks produced by the work. The Contractor shall use methods which are reasonable and practical to control these problems.

MATERIAL STORAGE

Mixing of materials, storing of materials, storing of equipment, or repairing of equipment on top of pavement will not be permitted unless specifically authorized by the ENGINEER Permission will be granted to store materials on subject surfaces if no damage or discoloration will result

MATERIAL HAULING

Hauling of materials will not be paid for directly, but shall be considered as subsidiary work pertaining to the respective bid items. Haul routes for full and empty loads shall be restricted to State Highways Hauling of equipment is also restricted to State Highways.

VERTICAL AND HORIZONTAL CONTROL

Vertical and horizontal control points will be provided by Galveston County. All construction surveying and staking will be done by the contractor.

MATERIALS TESTING

Galveston County will pay for and conduct materials testing for the County's benefit and use in determining whether to accept or reject the materials or finished products

Contractor is responsible for assuring all materials and finished products comply with the Drawings and Specifications Test results from the County's testing will be made available to Contractor

SUSPENSION OF WORK

In case of suspension of work for any cause, the contractor shall be responsible for the preservation of all materials He shall provide suitable drainage of the roadway and shall erect temporary structures where required. The contractor shall maintain the roadway in good and passable condition until final acceptance.

ABATEMENT AND MITIGATION OF EXCESSIVE OR UNNECESSARY CONSTRUCTION NOISE

Throughout all phases of the construction of this project, including the moving, unloading, operating and handling of construction equipment prior to commencement of work, during the project and after the work is complete, the contractor shall make every reasonable effort to minimize the noise imposed upon the immediate neighborhood surrounding the area of construction. Particular and special efforts shall be exercised by the Contractor to avoid the creation of unnecessary noise impacts on adjacent sensitive receptors in the placement of non-mobile equipment such as air compressors, generators, pumps, etc. The placement of temporary parked mobile equipment with the engine running shall be such as to cause the least disruption of normal adjacent activities not associated with the work to be performed by the contractor.

All equipment associated with the work shall be equipped with components designed by the manufacturer wholly or in part to suppress excessive noise and these components shall be maintained in their original operating condition considering normal depreciation. Noise-attenuation devices installed by the manufacturer such as mufflers, engine covers, insulation, etc., shall not be removed nor rendered ineffectual nor be permitted to remain off the equipment while the equipment is in use.

WORKING HOURS

Work shall not be commenced by the contractor before sunrise and shall be so conducted that all equipment is off the road and safely stored by sunset. Specific permission shall be obtained by the contractor from the Engineer for work during those hours between 7:00 P.M and 6:00 A M. of the following day.

LIQUIDATED DAMAGES

Liquidated damages in the amount of One Thousand dollars ($1,000.00) per day will be assessed for each day beyond the time of completion that the work is not substantially complete.

TIME OF COMPLETION

Time of Completion of this project is 180 calendar days from the date of the Notice to Proceed.

PIPELINE, UTILITY LOCATIONS AND CONTRACTOR RESPONSIBILITY

An effort to determine all pipelines and utilities which may impact the project has been made. All known pipelines and utilities have been approximately located and shown on the plans. The Contractor shall notify all utility and pipeline owners before beginning the work Additional unknown utilities and pipelines may be found. Adjustments of these utilities or pipelines shall be done by others at no expense to the contractor However, the Contractor shall cooperate and coordinate his work with the adjustment

The Contractor will anticipate this in making his bid The contractor will not be allowed claims for damages or delays for these adjustments should they be necessary However, additional time will be considered for the contract period.

This action, however, shall in no way be interpreted as relieving the Contractor of his responsibilities under the terms of the contract as set out in the plans and specifications. The Contractor shall repair any damage to the facilities caused by his operations at the Contractor's expense and shall restore facilities to service in a timely manner

BUILDER'S RISK INSURANCE

Builder's Risk Insurance and Professional Liability Insurance will not be required for this project

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii))

In the listing above, the "SU" designation means that rates listed under the identifier do not reflect collectively bargained wage and fringe benefit rates. Other designations indicate unions whose rates have been determined to be prevailing.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

* an existing published wage determination
* a survey underlying a wage determination
* a Wage and Hour Division letter setting forth a position on a wage determination matter
* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to·

Branch of Construction Wage Determinations
Wage and Hour Division
U.S Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

SECTION IV

General Terms and Conditions

GENERAL TERMS AND CONDITIONS

1. **COUNTY AS OWNER**

The word "County" in this contract refers to the County of Galveston.

2. **CONTRACTOR**

The word "Contractor" refers to the person or entity agreeing to perform the work in this contract.

3. **PROGRAM ADMINISTRATOR**

The term "Program Administrator" refers to the person designated by County to act on its behalf in administering this contract.

4. **STATUS OF CONTRACTOR**

The Contractor shall at all times be considered to be an independent contractor, and will not hold itself or its employees out to be employees or agents of the County of Galveston.

The Contractor shall provide, at the Contractor's expense, competent, full-time supervision of the work while actually in progress.

5 **ASSIGNMENT AND SUBLETTING**

The Contractor will retain full control over this contract and will not assign or subcontract said contract without the prior written consent of the County. The Contractor further agrees that the subcontracting any portion or feature of the work shall not relieve the Contractor from its full obligations under this contract.

6. **EQUAL OPPORTUNITY**

The Contractor and all Subcontractors shall not discriminate against any employee or applicant for employment because of race, religion, color, sex, or national origin.

The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices setting forth the policies of non-discrimination.

7. **CONTRACT**

This contract consists of the following documents; Invitation to Bid, Instructions

to Bidders, Bid Proposal, Contract Award, Special Terms and Conditions (including specifications, drawings and addenda), General Terms and Conditions, and any other documents referenced herein or attached hereto for the work Collectively these documents may also be referred to as the Plans and Specifications.

8. **DISCREPANCIES AND OMISSIONS**

In the event of any discrepancy between the Plans and Specifications, or otherwise, or in the event of any doubt as to the meaning and intent of any portion of the Plans and Specifications, the Program Administrator shall define which is intended to apply to the work. Such definition shall be final and binding on Contractor.

9. **COLLATERAL CONTRACT**

The County reserves the rights to provide by separate contract or otherwise, in such manner as not to delay its programs or damage said Contractor, all labor and material essential to the completion of the work that is not included in this contract.

10. **TIME**

The Contractor is advised that time for completion will consist of the number of calendar days set out in the Contract Award.

The time for completion will begin to run on the day after the issuance of a notice to proceed by the Program Administrator. The Contractor is required to start work no later than ten (10) working days after the issuance of the written notice to proceed. Failure to timely commence operations may be deemed by the County to be a default. The Contractor will complete the work at that site within the time period specified. If there is more than one site listed on the notice to proceed, work for all sites must be completed not later than is specified for each site by the Program Administrator

11. **TIME AND ORDER OF COMPLETION**

The Contractor will commence work within ten (10) working days after the issuance of the notice to proceed and will substantially complete it within the time specified in the Contract Award.

By the term "substantially completed" is meant that work shall be fully completed with the exception of minor miscellaneous work and adjustment.

12 **EXTENSION OF TIME**

Should the Contractor be delayed in the completion of the work by an act or neglect of the County or Program Administrator, or by any employee of either, or by other Contractors employed by the County, or by changes ordered in the work, or by strikes, lockouts, fire, or unusual delays by common carriers, or unavoidable cause or causes beyond the Contractor's control or by any cause which the Program Administrator shall decide justifies the delay, then an extension of time shall be allowed for completing the work sufficient to compensate for the delay. The Contractor shall give the Program Administrator prompt notice in writing of the cause of such delay. The amount of the extension will be determined by the Program Administrator.

13. **LOSSES FROM NATURAL CAUSES**

All damage to the work from the action of the elements, or from any unforeseen circumstances in the prosecution of the work shall be repaired by the Contractor at his own cost.

14. **KEEPING OF PLANS AND SPECIFICATIONS ACCESSIBLE**

The Contractor shall keep one (1) copy of all Plans and Specifications constantly accessible at the work site and available for inspection at all times.

15. **PERFORMANCE OF WORK**

All work shall be performed and completed in a thorough, workmanlike manner and in accordance with the latest proven practices of the trade by thoroughly skilled and experienced workers.

16. **STORAGE AND CLEANUP**

The County does not assume responsibility for any materials, tools, or equipment stored on or about the worksite. The worksite shall be cleared of debris by the Contractor continuously through the progress of the work and also upon final completion of the work.

17. **WORKING HOURS**

Contractor may perform work twenty four hours a day, seven days a week, unless otherwise restricted by the Special Conditions of this contract.

18. **WORKSITE SECURITY**

Contractor shall maintain the security of the worksite and shall restrict access to the site to the following:

a) its employees;
b) employees of subcontractors;
c) representatives of manufacturers whose goods are utilized in the work and are called to the site by either the Contractor or the Program Administrator; and
d) agents and/or employees of the County.

Contractor shall provide adequate protection to persons on the worksite, adjacent properties, and utilities as is necessary to keep each free of damage or injury. Contractor shall furnish all barricades, warning lights and other safety devices necessary for the safety and protection of the public and shall remove them upon completion of the work performed on those premises under the terms of this contract.

Contractor will have complete control over the work site and shall be fully responsible for any loss of or damage to any County property from any cause and will reimburse County in the event of any loss or damage to County's property from any cause.

Contractor shall take proper means to protect adjacent or adjoining properties which might be injured or seriously effected by construction undertaken under this Agreement from any damage or injury by reason of said process of construction. Contractor shall be liable for any and all claims for such damage on account of its failure to fully protect all adjoining properties.

19. **ALCOHOL/DRUG FREE WORKPLACE**

The County is committed to maintaining an alcohol and drug free workplace. Possession, use or being under the influence of alcohol or controlled substances by the Contractor's employees while in the performance of this Contract is prohibited. Violation of this requirement shall constitute grounds for immediate termination of the contract.

20. **LABOR**

Contractor is encouraged to use local labor, but not at the expense of poor workmanship and higher cost.

Contractor will not discriminate against any employee or applicant for employment because of race, religion, creed, color or national origin. Contractor agrees to post in a conspicuous place a notice setting forth provisions of this non-discrimination clause.

In the event of Contractor's non-compliance with the non-discrimination clause of this contract, the contract entered into may be canceled in whole or in part

21. **WAGE RATES**

This Contract is a Public Works Contract governed by V.T.C A., Government Code, Chapter 2258. That Act requires Contractor to pay workers not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the work is performed and not less than the general prevailing rate of per diem wages for legal holiday and overtime work.

Prevailing wage rates determined by the United States Department of Labor in accordance with the Davis-Bacon Act (40 U.S.C. Section 276a et seq) are used in this contract and are incorporated and made a part hereof.

In the event other crafts or types of workers are required than are listed therein, such workers shall be paid at a rate not less than the prevailing rate for similar workers in the Galveston County area.

Contractor acknowledges that:

A) Pursuant to V.T.C.A., Government Code §2258.022, a violation of the obligation to pay workers the prevailing wages shall result in Contractor paying the County the amount of $60.00 for each worker employed for each calendar day or part of the day that the worker is paid less than the wage rates stipulated in the Contract; and

B) Contractors and Subcontractors shall be required to keep a record showing the name and occupation of each worker employed by Contractor or Subcontractor in the construction of the work called for in the contract and the actual per diem wages paid to each worker. The record shall be open at all reasonable hours to inspection by the officers and agents of the County.

Contractor represents it has read this law and the penalties provided prior to entering into this agreement.

22. **UTILITIES**

Contractor shall be responsible for any charges which may be made by any city or utility companies for the work to be performed by Contractor.

23. **PARKING**

Contractor shall be responsible for the expense of parking the Contractor's vehicle(s) in a legal manner and at no expense or inconvenience to the County.

24. FIRE AND SAFETY

Contractor is completely responsible for fire protection at the job site as well as the safety of its own employees as well as those entering onto the job site.

25. CONTRACTOR'S BUILDINGS

The building of structures for housing men, or the erection of tents or other forms of protection will be permitted only at such places as the Program Administrator shall permit, and the sanitary conditions of the grounds in or about such structures shall at all times be maintained in the manner satisfactory to the Program Administrator

26. INSURANCE

Contractor shall obtain and pay for insurance set forth below prior to commencing work, and shall file with the Program Administrator certificates or copies of policies for approval and as proof of coverage:

1) Workmen's Compensation
   a. State Statutory
   b. Applicable - Statutory

2) Comprehensive General Liability (including Premises – Operations; Independent Contractor's Protective; Products and Completed Operations; Broad Form Property Damage)
   a. Bodily Injury –

      $300,000.00 Aggregate, each occurrence
   b. Property Damage including loss of use –
      $100,000.00 Each occurrence
   c. Products and Completed Operations to be maintained for 1 year after Final Payment
   d. Property Damage Liability Insurance will provide X, C or U coverage as applicable

3) Contractual Liability
   a. Bodily Injury
      $100,000.00 Each Person
      $300,000.00 Each occurrence
   b. Property Damage
      $100,000.00 Each occurence

4) Personal injury, with Employment Exclusion deleted:
   $100,000.00 Each occurence

5) Comprehensive Automobile Liability (including owned, non-owned and hired motor vehicles):
   a. Bodily Injury
      $100,000.00 Each Person
      $300,000.00 Each occurrence
   b Property Damage
      $100,000.00 Each occurrence

6) Builders Risk Insurance

The contractor shall furnish one copy of each Certificate of Insurance herein required with each signed copy of the Agreement and prior to commencement of the work. The contractor shall furnish to the Owner copies of any endorsements that are subsequently issued amending coverage or limits. Receipt of all required notices shall be evidenced by return receipt of registered or Certified letter. The policies shall contain provision that coverages will not be cancelled until at least thirty days' prior written notice has been given to the County. In the event of such notice of cancellation being given the contractor will provide substitute policies with the same provisions to county prior to the effective date of such cancellation

The above requirements do not establish limits of Contractor's liability.

Contractor shall at all times during the term of this contract and any extensions thereof maintain such insurance coverage.

Such insurance is to be provided at the sole cost of Contractor.

All policies of insurance shall waive all rights of subrogation against County, its officers, employees and agents.

The County shall be named as "additional insured" on such policies as are specified above.

The County reserves the right to require additional insurance should it be deemed necessary.

27. **SANITATION**

Necessary sanitary conveniences for the use of laborers at the worksite, properly secluded from the public observation, shall be constructed and maintained by Contractor in such manner at such points as shall be approved by the Program Administrator, and their use shall be strictly enforced.

28. **DAILY CLEANUP**

Contractor shall confine to the work site all materials and refuse generated by Contractor's operations. Materials which are stored on-site shall be stored in an orderly manner. Materials or refuse from demolition and/or removal operations which become scattered in adjacent areas shall be collected and returned to the work site and satisfactorily removed. Truck hauling materials must be covered to keep materials from littering streets.

29. **FINAL GRADING**

If grading is required, when work is complete, Contractor shall grade the site to fill in holes and make a presentable appearance without disturbing trees and add fill dirt if needed. Contractor may not leave voids in the grading and compaction of the property. The land shall have a smooth appearance without concrete, bricks, building materials, and other debris on the surface.

30. **RIGHT OF ENTRY**

County reserves the right to enter the property or location at which the work is being conducted, by such agents as it may elect, for the purpose of inspecting the work, or for the purpose of constructing or installing such collateral work as County may desire, or for any other purpose deemed necessary by County.

31. **INSPECTION**

County reserves the right to inspect the work done by Contractor at any time.

The inspection may include examination of the material furnished and the work done under this agreement to ensure compliance with the plans and specifications.

Contractor shall furnish all reasonable aid and assistance required by the inspector(s) for the proper inspection and examination of the work. The inspector(s) may make any order requiring remedy of deficient performance at any time. Should Contractor object to any order by any inspector, Contractor may, within 24 hours, make written appeal to the Program Administrator for his decision, which decision shall be final and binding on Contractor.

The approval or failure of an inspector to reject non complying work or materials shall not relieve Contractor of his obligation to perform the work in full compliance with the plans and specifications for the work.

Contractor shall be responsible for the costs associated by the exposing and covering of any item of concealed work for which an inspection is performed.

32. **DEFECTS AND THEIR REMEDIES**

It is further agreed that if the work or any part thereof, or any material brought on the ground for use in the work or selected for the same, shall be deemed by the Program Administrator as unsuitable or not in conformity with the specifications Contractor shall, after receipt of written notice thereof from the Program Administrator, forthwith remove such material and rebuild or otherwise remedy such work so that it shall be in full accordance with this contract.

33. **SUBSTANTIAL COMPLETION**

When the Contractor determines that the work is substantially complete, he shall advise the Program Administrator of such and schedule a time for the Program Administrator to inspect the work. Contractor shall have all systems fully functional and operational for the inspection of the Program Administrator. All phases of the work will be examined by the Program Administrator, who will note any deficiencies in the work and notify Contractor of the same.

The Program Administrator may acknowledge that the project is substantially complete if the work has been completed to the point where the work can be utilized for the general purpose for which it was undertaken; however, if the project is found not to be substantially complete, the Program Administrator will so advise the contractor.

34. **FINAL COMPLETION AND ACCEPTANCE**

Within ten (10) days after Contractor has given the Program Administrator written notice that the work has been completed, or substantially completed, the Program Administrator shall inspect the work and, within said time, if the work be found to be completed or substantially completed in accordance with the plans and specifications, the Program Administrator shall issue a substantial completion certificate.

Should such inspection reveal deficiencies on the work, the Program Administrator will deliver a list of deficiencies to Contractor for immediate repair. No final payment will be made until all deficiencies have been remedied.

35 **PARAGRAPH 35 HAS BEEN DELETED**

36. **PROGRESS PAYMENTS AND RETAINAGE**

If this contract provides for the making of progress payments, Contractor shall make application to County for payment utilizing forms provided by County for that purpose. Contractor shall state the percentage or the limits of the work

performed and request payment for the amount of acceptable work performed. Applications for payment shall be made monthly by Contractor.

The County shall then pay the Contractor on or before 45 days thereafter, the total amount of the request, less 5% of the amount thereof, which 5% shall be retained until final payments, and further less all previous payments, and further less all further sums that may be retained by the County under the terms of this agreement.

Upon the attainment of substantial completion, payment will be made so that the sum of all payments made under the contact equals Ninety Five Percent (95%) of the total contract amount.

37. **ESTIMATED QUANTITIES**

This Contract, including the specifications, plans and estimates, is intended to show clearly all the work to be done and material to be furnished hereunder. The estimated quantities of the various classes of work to be done and material to be furnished under this contract are approximate and are to be used as a basis for estimating the probable cost of the work and for comparing the proposals offered for the work. It is understood and agreed that the actual amount of work to be done and material to be furnished under this contract may differ somewhat from these estimates, and that the basis for payment under this contract shall be the plan quantity or actual amount of such work done whichever is specified. It is further understood that the County does not guarantee any minimum amount of work under this Contract.

Contractor agrees that it will make no claim for damages, anticipated profits or otherwise on account of any differences which may be found between the quantities of work actually done, the material actually furnished under this Contract and the estimated quantities contemplated and contained in the proposals.

38. **CHANGES AND ALTERATIONS**

Contractor further agrees that Program Administrator may make such changes and alterations as County may see fit, in the line, grade, form dimensions, plans or materials for the work herein contemplated, or any part thereof, either before or after the beginning of the contract construction, without affecting the validity of this Contract and the accompanying bonds.

If such changes or alterations diminish the quantity of the work to be done, they shall not constitute the basis for a claim for damages, or anticipated profits on the work that may be dispensed with. If they increase the amount of the work, and the increased work can fairly be classified under the specifications, such increase shall be paid for according to the quantity actually done and at the unit

price established for such work under this contract; otherwise such additional work shall be paid for as provided under the paragraph entitled "EXTRA WORK". In case Program Administrator shall make such changes or alterations as shall make useless any work already done or material already furnished or used in said work, then County shall recompense Contractor for any material or labor so used, and for any actual loss occasioned by such change due to actual expenses incurred in preparation for the work as originally planned.

39. **EXTRA WORK**

The term "Extra Work" as used in this contract shall be understood to mean and include all work that may be required by the Program Administrator to be done by Contractor to accomplish any change, alteration or addition to the work shown in the plans and specifications

It is agreed that Contractor shall perform all Extra Work under the direction of the Program Administrator when presented with a Written Work Order signed by the Program Administrator: subject, however, to the right of Contractor to require a written confirmation of such Extra Work Order by the County Commissioners' Court. It is also agreed that the compensation to be paid Contractor for performing said Extra Work shall be determined by one or more of the following methods:

Method (a) - By agreed unit prices; or
Method (b) - By agreed lump sum: or
Method (c) - If Neither Method (a) nor Method (b) can be agreed upon before the Extra Work is commenced, then Contractor shall be paid the "Actual field cost" of the work plus fifteen (15) percent.

In the event said Extra Work be performed and paid for under Method (c), then the provisions of this paragraph shall apply and the "actual field cost" is hereby defined to include the cost of all workmen, such as foremen, timekeepers, merchants, and laborers, and materials, supplies, teams, trucks, rentals on machinery and equipment for time actually employed or used on such Extra Work plus actual transportation charges necessarily incurred, if the kind of equipment or machinery is not already on the job, together with all power, fuel, lubricants, water and similar operating expenses, also all necessary incidental expenses incurred directly on account of such Extra Work including Social Security, Old Age Benefits and other payroll taxes, and a ratable proportion of premiums on Construction and Maintenance Bonds, Public Liability and Property Damage and Workmen's Compensation, and all other insurance as may be required by any law or ordinance, or directed by the Program Administrator or by him agreed. The Program Administrator may direct the form in which accounts

of the "actual field cost" shall be kept and may also specify in writing, before the work commences, the method of doing the work and the type and kind of machinery and equipment to be used, otherwise these matters shall be determined by Contractor. Unless otherwise agreed upon, the prices for the use of machinery and equipment shall be determined by using the one hundred (100) percent of the actual hourly or daily rate (for the time used plus time in moving to and from Job) of the latest schedule of Equipment Ownership Expense adopted by the Association General Contractors of America. Where practicable the terms and prices for the use of Machinery and Equipment shall be incorporated in the Written Extra Work Order. The fifteen (15) percent of the "Actual Field Cost" to be paid Contractor shall cover and compensate him for his profit, overhead, general superintendence and field office expense, and all other elements of cost and expense not embraced within the 'actual field cost" as herein defined, save that where the Contractor's Camp or Field Office must be maintained primarily on account of such extra work, then the cost to maintain and operate same shall be included in the "actual field cost".

No claim for extra work of any kind will be allowed unless ordered in writing by the Program Administrator. In case any orders or instructions, either oral or written appear to Contractor to involve extra work for which he should receive compensation, it shall make written request to the Program Administrator for written order authorizing Extra Work. Should a difference of opinion arise as to what does or does not constitute extra work, or as to the payment therefor, and the Program Administrator insists upon its performance, Contractor shall proceed with the work after making written order and shall keep an accurate account of the "actual field cost" thereof, as provided under Method (c) and by this action Contractor will thereby preserve the right to submit the matter of payment to litigation.

40 FINAL PAYMENT

Upon the issuance of the approval for payment, the Program Administrator shall certify same to County, who shall pay to Contractor the balance due Contractor under the terms of this agreement, provided it has fully performed its contractual obligations under the terms of this contract; and has provided County with a release of liens from all materialmen, suppliers and subcontractors utilized in the work.

41. HINDRANCES AND DELAYS

No charge shall be made by Contractor for hindrances or delays from any cause (except when work is stopped by order of the County) during the progress of any portion of the work embraced in this contract. In case said work shall be stopped by the act of Program Administrator then such expense as in the judgment of the Program Administrator is caused by stopping of said

work shall be paid by County to Contractor.

42. **TIME OF FILING CLAIMS**

It is further agreed by both parties hereto that all questions of dispute or adjustment presented by Contractor shall be in writing and filed with the Program Administrator within a reasonable time after the Program Administrator has given any directions, order, or instruction to which Contractor desires to take exception. The Program Administrator shall reply to such written exceptions by Contractor and render his final decision in writing.

43. **LIQUIDATED DAMAGES FOR DELAY**

Contractor agrees that time is of the essence of this contract and that for each day of a delay of a day beyond the number of working days or calendar days herein agreed upon the completion of the work herein specified and contracted for (after due allowance for such extension of time as is provided for under Extension of Time hereinabove) County may withhold permanently from Contractor's total compensation the sum specified in the special conditions as liquidated damages for such delay.

44. **ABANDONMENT BY CONTRACTOR**

Should Contractor fail to start or resume work within ten (10) days after written notification from the Program Administrator or if Contractor fails to comply with a change order or instruction of the Program Administrator, Contractor shall be declared to be in default and the Surety on the bonds shall be notified in writing and directed to complete the work, and a copy of said notice shall be delivered to Contractor.

In case the Surety should fail to commence compliance with the notice for completion hereinbefore provided for within ten (10) days after services of such notice, or in the event there is no Surety, then County may provide for completion of the work in any manner it deems appropriate.

45. **TERMINATION**

County may terminate this Contract:

i. immediately by giving written notice, if Contractor breaches its obligation under the Contract; or
ii. with or without cause, after giving 30 days written notice of termination to Contractor

In the event this Contract is terminated Contractor will be paid for work satisfactorily completed. The amount of such payment will be determined by

the Program Administrator.

46. **SALVAGE**

Any materials, equipment and fixtures specifically ordered to be salvaged under these specifications shall remain the property of County and will be delivered to the site designated by the Program Administrator. All other items shall be disposed of by Contractor in compliance with all applicable laws and regulations.

47. **COMPLIANCE WITH CODES**

Contractor shall comply with all city, county, and state codes, laws, and ordinances in force at the time of award of contract and applicable to such work Contractor shall obtain, at Contractor's own expense such permits, certificates, and licenses as may be required in the performance of the specified work.

48. **INDEMNITY**

Contractor shall defend, indemnify, and save whole and harmless Galveston County, and it officers, agents, and employees from and against all claims and suits of whatever character, arising from the performance of this contract.

49. **PROTECTION AGAINST CLAIMS OF SUBCONTRACTORS, LABORERS, MATERIALMEN AND FURNISHERS OF MACHINERY EQUIPMENT AND SUPPLIES**

Contractor agrees to indemnify and hold County harmless from all claims of subcontractors, laborers, workmen, mechanics, materialmen and furnishers of equipment, and all supplies incurred in the performance of this contract. Contractor shall furnish satisfactory evidence that all obligations of the nature hereinabove designated have been paid, discharged or waived. If Contractor fails to do so, then County reserves the right to pay unpaid bills of which County has written notice direct and withhold from Contractor's unpaid compensation a sum of money reasonably sufficient to liquidate any and all such lawful claims.

50. **PROTECTION AGAINST ROYALTIES, PATENTED INVENTIONS OR PROCESS, OR PATENT INFRINGEMENT**

Contractor shall, at its own expense, settle or defend any claim, suit or action brought against County and shall protect and save harmless County from all and every demand for damages, royalties or fees for any patented invention or process used by it in connection with the work done, process used or material furnished under this Contract, and shall pay any final judgement for damages,

attorneys fees and costs which may be awarded against County.

51. **LAWS AND ORDINANCES**

Contractor shall at all times observe and comply with all Federal, State and Local Laws, ordinances and regulations which in any manner effect the contract or the work, and shall indemnify and save harmless the County against any claim arising from the violation of any such laws and ordinances, whether by Contractor or its employees

52. **WARRANTY**

Contractor and/or its Surety will be required by County to repair, replace, restore, and/or to make such corrections as are required of it to comply strictly in all things with this contract and the Plans and Specifications and any and all of said work and/or materials, which, within a period of one year from and after the date of the passing, approval, and/or acceptance of any such work or materials, are found to be defective or to fail in any way to comply with this contract or with the Plans and Specifications.

53 **PERMITS AND LICENSES**

Contractor shall be responsible for obtaining and furnishing all necessary permits and licenses, City, County, State or Federal as are required for the performance of this contract.

54. **NOTICE**

Any notice required or permitted between the parties under this contract must be in writing and shall be delivered in person or mailed, certified mail, return receipt requested, or may be transmitted by fax as follows:

to County at

Hon. Mark Henry, County Judge
Galveston County Courthouse, 2nd floor
Galveston, TX 77550
Fax (409) 765-2653

and to Contractor at the address listed in Contractor's Bid Proposal.

55. **FORCE MAJEURE**

If the performance by County of any of its obligations under this contract is delayed by any occurrence not of its own conduct, whether an act of God or the common enemy or the result of war, riot, civil commotion, sovereign conduct, or the act or conduct of any person not a party or privy to this contract, the County

is excused from its performance for a period of time as is reasonably necessary after the occurrence to remedy the effects of the occurrence.

56. **APPLICABLE LAWS**

Contractor acknowledges that County is a governmental entity and this Agreement is an open record under the Open Records Act and will be discussed and voted upon in a public meeting.

57. **ENTIRETY OF AGREEMENT AND MODIFICATION**

This contract contains the entire agreement between the parties. A prior agreement, promise, negotiation or representation not expressly set forth in this contract has no force or effect. A subsequent modification to this contract must be in writing, signed by both parties.

An official representative, employee, or agent of the County does not have authority to modify or amend this contract except pursuant to specific authority to do so granted by the Commissioners' Court.

58. **SEVERABILITY; CONFORMITY WITH LEGAL LIMITATIONS**

If a provision contained in this contract is held invalid for any reason, the invalidity does not affect other provisions of the contract that can be given effect without the invalid provision, and to this end the provisions of this contract are severable.

59. **GOVERNING LAW; VENUE**

This contract shall be governed by the laws of the State of Texas. Venue for an action arising under this contract shall be exclusively in Galveston County.

60. **LINES AND GRADES**

The Engineer will furnish points for horizontal and vertical control. Any additional stakes required by the Contractor shall be set at his expense. Whenever necessary, work shall be suspended to permit this work, but such suspension will be as brief as practicable and the Contractor shall be allowed no extra compensation therefor. The Contractor shall give the Engineer ample notice of the time and place where control lines and bench marks will be needed. All control stakes, marks, etc. shall be carefully preserved by the Contractor, and in case of careless destruction or removal by him or his employees, such control stakes, marks, etc. shall be replaced by the Engineer at the Contractor's expense.

GOVERNING SPECIFICATIONS AND SPECIAL PROVISIONS

All Specifications and Special Provisions applicable to this Project are identified as follows:

STANDARD SPECIFICATIONS:

"Standard Specifications for Construction and Maintenance of Highways, Streets and Bridges" as adopted by the Texas Department of Transportation, June 1, 2004.

SPECIAL SPECIFICATIONS.

164 (GC) Seeding and Fertilizing for Erosion Control
168 (GC) Sprinkle Irrigation
Important Notice to Contractors
02132 Straw Bale Fence
02215 Excavating, Trenching, and Backfilling for Utilities
02321 Cement Stabilized Sand
02710 Sanitary Sewers
02715 Manholes

SPECIAL PROVISIONS:

Special Provisions to Items 1 Thru 9

GENERAL:

The above listed specification items are those under which payment is to be made. These, together with such other pertinent items, if any, as may be referred to in the above listed specification items, and including the special provisions listed above, constitute the complete specifications for this project. No separate payment will be made for any item that is not specifically set forth in the bid sheets and all costs therefore shall be included in the prices named in the bid sheets for the various appurtenant items of work.

GENERAL NOTES AND SPECIFICATION DATA

1 The contractor shall carefully examine the drawings and specifications, visit the site of this work, and check the proposed locations of all new work. The contractor shall inform himself, in detail, as to all existing conditions, limitations, available clearances, and shall thoroughly check all facilities which are to be removed and/or relocated.

2. Where a material or product is referred to on the drawings by a manufacturer's brand or trade name, it is for the purpose of establishing a standard or quality. Similar materials or products of equal quality (meeting design requirement) from other manufacturers will be given due consideration provided they are submitted to and approved by the Engineer as per the provisions of the general conditions.

3. An effort to determine all the pipelines and utilities which may impact the project has been made. All known pipelines and utilities have been approximately located and shown on the plans. The Contractor shall notify all utility and pipeline owners before beginning the work. Additional unknown utilities and pipelines may be found. Adjustment of these utilities or pipelines shall be done by others at no expense to the Contractor However, the Contractor shall cooperate and coordinate his work with the adjustment The Contractor will anticipate this in making his bid. The Contractor will not be allowed claims for damages or delays for these adjustments should they be necessary. However, additional time will be considered for the contract period. This action, however, shall in no way be interpreted as relieving the Contractor of his responsibilities under the terms of the contract as set out in the plans and specifications. The Contractor shall repair any damage to the County's facilities caused by his operations at the Contractor's expense and shall restore facilities to service in a timely manner

4. The drawings and specifications are correlative and have equal authority and priority. Should they disagree in themselves, or with each other, base the bids on the most expensive combination of quality and quantity of the work indicated. The Engineer will clarify the project requirements in the event of the above mentioned disagreements.

5. The Contractor shall be responsible for obtaining and furnishing all permits and licenses, City, County, State or Federal as are required for the performance of this contract.

6 All items of work required under this contract not specifically called for in the proposal as pay items shall be considered incidental and no separate payment shall be made for same.

7. Mixing of materials, storing of materials, storing of equipment or repairing of

equipment on top of pavement or bridge decks will not be permitted unless specially authorized by the Engineer. Permission will be granted to store material s on subject surfaces if no damage or discoloration will result

8. All existing culverts to be removed shall become the property of the Contractor and shall be properly disposed of off-site.

9. All removed, demolished, obliterated, excess and waste materials shall become the property of the Contractor and shall be properly disposed of off-site. Handling, hauling and disposal shall be considered subsidiary to the various bid items and no separate payment shall be made for same.

10. Item 164 (GC): Seeding and Fertilizing for Erosion Control

The application of seed and fertilizer will be at the composition and rates stated in the specifications and on the basis of estimate.

The applications of fertilizer will not be paid for directly, but will be considered incidental to Item 164 (GC) "Seeding and Fertilizing for Erosion Control".

The Contractor shall be responsible for the establishment and proper care of the stand of grass over the entire seeded area. It is the intent of these specifications to have a good, thick, mowable stand of grass over the entire project before final acceptance of same.

11. Item 247: Flexible Base

Flexible base shall be type A or D, Grade 1.

12. Item 400: Excavation and Backfill for Structures

Aggregate for cement stabilized backfill shall be sand, free from deleterious matter, and subject to approval of the Engineer.

Cement stabilized backfill shall contain a minimum of 7% Portland cement based on the dry weight of combined aggregate and cement.

When backfilling pipes or boxes with stabilized material, the material shall be placed in lifts not to exceed 24 inches in depth (loose measurement), and shall be compacted using mechanical means. Special care shall be taken to tamp the material under the pipe haunches in the lower one-fourth of the pipe height.

13. Item 464: Reinforced Concrete Pipe

It may be necessary to install pipes below the ditch grade in driveways where it is not possible to get enough cover

14. Item 500: Mobilization

The total lump sum payment for the bid item "Mobilization" shall not exceed 5% of the total bid.

15. Item 502: Barricades, Signs and Traffic Handling

For details of signs, barricades and placement of such see "Barricades and Construction Standards" sheets 9 through 16 of 16.

For this project, the Contractor will furnish and maintain all barricades and warning signs, including all temporary and portable traffic control devices necessary during the various phases of construction. These barricades and warning signs shall be constructed and placed in accordance with the "Barricades and Construction Standards" sheets 9 through 16 of the latest Texas MUTCD and typical construction layouts, or as directed by the Engineer.

Two weeks prior to any alteration in traffic patterns, the Contractor will provide the Engineer, for his approval, a layout showing all signs and barricades. The approval of this layout by the Engineer will not relieve the Contractor of his responsibility for the protection of the traveling public.

All advance warning signs are to be set prior to the start of construction activities and to remain in place until all construction activities are complete and accepted by Galveston County. The contractor will coordinate with the Galveston County Engineering Department in establishing traffic routes and location of signs.

The Contractor shall provide, install, move, replace and maintain in a clean and good condition all barricades, signs, barriers, cones, lights, signals, and other such type devices as may be required by Item 502, "Barricades, Signs and Traffic Handling". Upon completion of the work, all barricades, signs, barriers, etc. and evidences thereof shall be removed by the Contractor.

The Contractor will not block traffic without prior approval of the Engineer

Access to all businesses and private properties shall be continuously maintained except for short periods during construction operations and as approved by the Engineer. The Contractor shall notify property owners at least 48 hours prior to making driveway cuts. The Contractor shall communicate daily with the affected property owners to coordinate construction and access.

At the end of the working day, the roadways shall be opened to two-way traffic with adequate pavement markings and signs.

Materials furnished and work performed under these provisions shall be

measured and paid for by the month in accordance with Item 502, "Barricades, Signs, and Traffic Handling".

Loose gravel, uneven pavement and rough pavement signs shall be provided and maintained throughout the project on a continuous basis as directed by the Engineer.

All equipment shall be off the road by dark and before dawn.

Existing drainage shall be maintained at all times.

During certain phases of construction, flagmen will be required to direct and control traffic. This work will not be paid for directly but shall be considered incidental to Item 502, "Barricades, Signs and Traffic Handling"

The Contractor shall be responsible for controlling excess dust and loose rocks produced by the work. The Contractor shall use methods which are reasonable and practical to control these problems.

SPECIAL ITEM 164 (GC)

SEEDING AND FERTILIZING FOR EROSION CONTROL

164.1 Description

This item shall consist of preparing ground, providing and hydromulching seeds and fertilizer, rolling and other management practices along and across such areas that are to be re-seeded as designated as on the plans and in accordance with these specifications.

164.2 Materials

Seed: All seed must meet the requirements of the Texas Seed Law including the labeling requirements for showing pure live seed (PLS=purity + germination) name and type of seed. Seed furnished shall be of previous season's crop and the date of analysis shown on each bag shall be within nine months of the time of use on the project Each variety of seed shall be furnished and delivered in separate bags or containers. A sample of each variety of seed shall be furnished for analysis and testing when directed by the Engineer. Seeding shall be a combination of Bermuda grass (hulled) at 15lb./acre and Rye grass 25 lb./acre for a total of 40lb./acre.

Fertilizer: Fertilizer shall be delivered in bags or containers clearly labeled showing the analysis. The fertilizer is subject to testing in accordance with the Texas Fertilizer Law. Fertilizer that is powdered or caked will be rejected. A pelleted or granulated fertilizer which has an analysis of 12-12-12, (percentage of nitrogen, phosphoric acid, and potash nutrients) shall be uniformly applied at a rate of 830/lbs acre. In the event it is necessary to substitute a fertilizer of different analysis, the total amount of nutrients furnished and applied per acre shall equal that specified for each nutrient. Any such substitution shall be approved in advance by the Engineer.

Mulch: Mulch for use with hydraulic application of grass seed and fertilizer shall consist of specially prepared wood cellulose fiber or shredded paper fiber. It shall be processed in such a manner that it will not contain germination or growth inhibiting factors. It shall be dyed green to allow visual metering of its application. The fibers shall have the property of becoming evenly dispersed and suspended when agitated in water. When sprayed uniformly on the surface of the soil, the fibers shall form a blotter-like ground cover, which readily absorbs water, and allows infiltration to the underlying soil. Weight specifications from suppliers, and for all applications, shall refer only to air dry weight of the fiber, a standard equivalent to 10 percent moisture. The mulch material shall be supplied in packages having a gross weight not in excess of 100 pounds, and shall be marked by the manufacturer to show the air dry weight content. Suppliers shall be prepared to certify that laboratory and field testing of their product has been accomplished, and that it meets all of the foregoing requirements.

164.3 Construction Methods

All exposed topsoil shall be seeded. All areas to be seeded shall be cultivated to a depth of 4 inches. The seed bed shall be firmed with a roller not exceeding 90 pounds for each foot of roller width and then cultivated sufficiently to reduce the soil to a state of good tilth when the soil particles on the surface are small enough and lie closely enough together to prevent the seed from being covered too deep for optimum germination. The proper cross-section shall be maintained throughout the process of cultivation and any necessary reshaping shall be done prior to any planting of seed.

Seeding and fertilizing shall be accomplished by hydromulching only.

The application of the mulch slurry shall be made with hydraulic equipment, which has a built-in agitation system with an operating capacity sufficient to agitate, suspend and homogeneously mix slurry. The slurry distribution lines shall be large enough to prevent stoppage and shall be equipped with hydraulic spray nozzles which provide even distribution of the slurry on the slopes to be seeded. The fiber mulch shall be applied at the rate of 2000 pounds per acre in combination with water, fertilizer, and seed, and shall be sprayed over the soil in a uniform coat. The mulch shall be kept moist by daily application of water if necessary, until the seeds in the mulch have germinated and rooted in the soil and are visibly growing above the soil surface.

164.4 Measurement

Acceptable work and material for "Seeding and Fertilizing for Erosion Control" will be measured by the Square Yard complete in place. The quantity measured shall be from edge of subgrade to top of bank in areas where ditches are to be regraded as shown on the plans. Any work done outside said limits shall be at the Contractor's expense. This is a plans quantity measurement Item and the quantity to be paid for will be that quantity shown in the proposal.

164.5 Payment

The work and materials prescribed by this item and measured as provided under "Measurement" shall be paid for at the unit price bid for "Seeding and Fertilizing For Erosion Control". This price shall be full compensation for furnishing all labor, materials, supervision, equipment, and incidentals necessary to satisfactorily complete the work except as follows: Water for irrigating the seed bed shall meet the requirements of Item 168 (GC) "Sprinkle Irrigation", however shall be considered incidental to this item and no separate payment shall be made for same. All rolling performed as required shall be considered incidental to this item and no separate payment shall be made for same.

Seeding will not be accepted until the planted seed has germinated, rooted in the soil, and is visibly growing above the surface of the topsoil. The Contractor shall be responsible for the establishment and proper care of a stand of grass over the entire seeded area. It is the intent of these specifications to have a good, thick, mowable stand of grass over the entire project and before final acceptance of same.

SPECIAL ITEM 168 (GC)

SPRINKLE IRRIGATION

168.1 Description

This item shall consist of providing and properly applying water on all seeded areas, and any other area as directed by the Engineer and as herein specified.

168.2 Materials

Water shall be clean and free of industrial wastes and other substances harmful to the growth of grass.

168.3 Construction Methods

This work shall be done within 24 hours after rolling the seed bed or as directed by the Engineer. The Contractor will furnish and operate sprinklers, nozzles, or other approved equipment which will insure the distribution of water in a uniform and controllable rate of application. The Contractor shall apply the water as necessary to cause the seed to germinate and sprout and without causing erosion or displacement of the topsoil.

168.4 Measurement and Payment

This item shall be considered incidental to other items and no separate payment shall be made.

IMPORTANT NOTICE TO CONTRACTORS

The Contractor's attention is directed to the fact that certain utility adjustments have not been completed. Any adjustments still required at the time of construction will need to be requested by the Contractor to be performed by the utility owner concurrently with ongoing construction activities.

For the Contractor's information, the following is a list of all private utilities requiring adjustments. The Contractor is invited to review the existing utilities with the Engineer assigned to this project

OWNER	LOCATION	UTILITY
Centerpoint Gas	Various	Buried Gas Lines
Layton Energy, Inc	Various	Buried Gas Lines
Eagle Point Pipeline/ Tempest Energy	Various	Buried Gas Lines

It will be the responsibility of the Contractor to prosecute the Work in such a manner and sequence that there will be no interference with the work of others in adjusting utilities. The contractor will allow free ingress to and egress from these areas over the right-of-way to these workers as necessary.

An extension of working time may be granted, if deemed necessary, for delays caused by interference beyond such estimated period.

SECTION 02132

STRAW BALE FENCE

PART 1 GENERAL

1.01 DESCRIPTION

A This specification describes the installation of erosion and sedimentation control straw bale fences utilized during construction and prior to the final development of the site.

PART 2 PRODUCTS

2.01 STRAW BALES

A. Use straw bales bound by either wire, nylon or poly-propylene rope tied across the straw bales

B. Do not use straw bales bound with jute or cotton rope or twine.

2 02 ANCHOR STAKES

A. Bales shall be anchored using 3/8-inch diameter reinforcing steel bars.

B. Length of bar shall be thickness of straw bale plus two (2) feet.

PART 3 EXECUTION

3.01 GENERAL

A. Except if otherwise directed or otherwise shown on the Construction Plans provide straw bale fences to prevent erosion and control sedimentation.

B. Maintain straw bale fences until the project is accepted by the Owner

C. At Owner's option, straw bale fences may remain in place after acceptance.

3.02 CONSTRUCTION METHODS

A Excavate four (4) inches of material to embed each straw bale in the soil.

B. Anchor bales securely by driving anchor stakes through the bales and at least two (2) feet into the ground below the bale.

C. The first stake in each bale shall be angled toward the previously laid bale to force bales together

D. Fill any gaps between bales with straw to prevent unfiltered runoff from escaping between the bales.

E. Wedge straw in gaps carefully so as not to separate bales

* END *

SECTION 02215

EXCAVATING, TRENCHING AND BACKFILLING FOR UTILITIES

PART 1 GENERAL

1.01 DESCRIPTION

A. Work under this specification covers excavating, trenching and backfilling for storm sewers, water distribution mains, sanitary sewer force mains, sanitary sewers and other utility systems and appurtenances.

B. Shoring will be required for all excavation at depths over 5 feet.

1.02 REFERENCE STANDARD

A. City of Houston, Texas, Department of Public Work and Engineering's "Standard Construction Specifications for Wastewater Collection Systems, Water Lines, Storm Drainage and Street Paving," dated October 2002 and "Standard Construction Details for Wastewater Collection Systems, Water Lines, Storm Drainage, and Street Paving," dated October 2002 and all applicable amendments.

B. In using the aforementioned specifications, it shall be understood that whenever the terms "City of Houston" and "Director of Public Works" are used, the interpretation shall be "Owner" and "Engineer," respectively.

C. Measurement and payment paragraphs in the City of Houston Standard Specifications will not apply, see the section entitled "MEASUREMENT AND PAYMENT" for measurement and payment.

1.03 QUALITY ASSURANCE

A. If during progress of work, tests indicate that compacted materials do not pass specified requirements, work shall be removed, replaced and retested at no cost to Owner.

B. Field moisture/density tests will be performed for each lift of bedding and backfill material at intervals of 500 feet measured along the trench centerline, and or at least one point between all manholes, whichever is more frequent, unless specified otherwise on the Construction Plans or unless otherwise directed by the Engineer.

PART 2 PRODUCTS

2.01 CEMENT STABILIZED SAND BEDDING AND BACKFILL

A. Prepare and compact cement stabilized sand bedding and backfill as specified in the Technical Specification entitled "CEMENT STABILIZED SAND."

2.02 BANK SAND BEDDING AND BACKFILL

A. Obtain bank sand from an approved source.

B. Use sand that is free from clay lumps, organic and other deleterious material, and that has a plasticity index of 4 or less.

C. Compact bank sand bedding and backfill in layers not thicker than 12 inches.

D. Adjust moisture content of material to between 2% above or below optimum moisture content and compact to 95% Standard Proctor Density, ASTM D698 unless otherwise specified on the Construction Plans.

2.03 EARTH BEDDING AND BACKFILL

A. Suitable excavated material free of large chunks or clods.

B. Compact earth bedding and backfill in layers not thicker than 12 inches.

C. Adjust moisture content of material to between 2% above or below optimum moisture content and compact to 95% Standard Proctor Density, ASTM D698 unless otherwise specified on the Construction Plans.

2.04 TRENCH SHORING

A. Materials

1. Timber trench sheeting materials to be minimum of two inches in thickness, solid and sound, free from weakening defects such as loose knots and splits.
2. Steel sheet piling shall conform to one of the following specifications:

   a. ASTM A328;
   b. ASTM A572, Grade 50; or
   c. ASTM A690

3. Steel for stringers and cross braces shall conform to ASTM A588.

B. Trench Boxes

1. Portable trench boxes shall be constructed of steel conforming to ASTM Specification A-36.
2. Connecting bolts used shall conform to ASTM A-307.
3. Welds are to conform to requirements of AWS Specification D1.1

PART 3 EXECUTION

3.01 EXCAVATION

A. Procedure

1. Excavate to indicated or specified depths.
2. During excavation, pile material suitable for backfilling in an orderly manner far enough from the bank of the trench to avoid overloading, slides or cave-ins.
3. Remove and dispose of, as indicted or directed, all excavated materials not required or suitable for backfill.
4. Grade as necessary to prevent surface water from flowing into trenches or other excavations.
5. Remove any water accumulating in trenches or other excavations, using pumping or other approved means.
6. Excavate by open cut with trenching machine or back hoe.
7. Where machines other than ladder or wheel type trenching machines are used, do not use excavated material composed of large chunks or clods for backfill, but dispose of such material and provide other suitable material for backfill without additional expense.

B. Trench Excavation

1. Trenches for pipe sewers and sanitary sewer force mains smaller than 30 inches in diameter shall have a width below the top of pipe bell or other joint of not less than the outside diameter of the pipe plus 12 inches and not more than the outside diameter of the pipe plus 18 inches.
2. Trenches for pipe sewers 30 inches in diameter and larger shall have a width below the top of pipe of not less than the outside diameter of the pipe plus 16 inches and shall be wide enough to permit making up of joints but shall not be wider than the outside diameter of the pipe plus 24 inches.
3. Trenches for water lines and sanitary sewer force mains shall have a minimum of 6 inches of space between pipe and wall of trench.
4. Remove stones as necessary to avoid point-bearing.

5. Over excavate wet or unstable soil from the trench bottom to permit construction of a more stable bed for pipe.
6. Do not over excavate.
7. Accurately grade the trench bottom to provide uniform bearing and support for each section of pipe on bedding material at every point along its entire length except where necessary to excavate for pipe bell.
8. Dig bell holes and depressions for joints after the trench bottom has been graded.
9. Make bell holes and depressions for joints no deeper, longer or wider than needed to make the joint properly.

C. Trench Safety System

1 Install in sewer trenches and other excavations sheeting and bracing necessary to support the sides.
2. Sheeting is required as specified by OSHA.
3. Timber Sheeting

   a. Install in accordance with OSHA Standards.
   b. Drive timber sheeting to depth below trench bottom.
   c. Size of uprights, stringers, and cross bracing to be in accordance with OSHA requirements.
   d. Place cross braces in true horizontal position, spaced vertically, and secured to prevent sliding, falling or kickouts.

4. Steel Sheet Piling

   a. Steel sheet piling of equal or greater strength may be substituted for timber trench shoring.
   b. Contractor shall provide written certification that steel sheet piling substituted provides protection equal to or greater than timber trench shoring.
   c. Steel sheet piling systems shall be designed by a Professional Engineer registered in the State of Texas.
   d Drive steel sheet piling to minimum depth below trench bottom as recommended by Contractor's Professional Engineer providing design.
   e. Place cross braces in true horizontal position, spaced vertically and secured to prevent sliding, falling, or kickouts.

5. Portable Trench Box

   a. A portable trench box of equal or greater strength may be substituted for timber trench shoring.

b. Contractor shall provide written certification that the trench box substituted provides protection equal to or greater than timber trench shoring.

c. Certification of trench box shall be provided by a Professional Engineer registered in the State of Texas.

d. In cases where top of portable trench box will be below top of trench, the trench must be sloped to the appropriate angle of repose for the existing soil conditions.

e. In areas where sloped trench will affect the integrity of existing structures, Contractor shall protect structures prior to sloping trench.

6. Trench Jacks

a. Trench jacks may be used in lieu of cross bracing or stringers.

b. Contractor shall provide written certification that the trench jacks substituted provide protection equal to or greater than timber cross bracing or stringers.

c. Certification shall be provided by a Professional Engineer registered in the State of Texas.

D. Sanitary Sewer Bedding for Dry Stable Trench

1. Accurately grade the bottom of the trench 6 inches below the bottom of the pipe and to the width specified unless otherwise shown on the Construction Plans.
2. Place and compact at least 6 inches of cement stabilized sand bedding in the bottom of the trench unless otherwise shown on the Construction Plans.
3. Install the pipe and place and compact additional cement stabilized sand bedding to a height of 12 inches above the top of the pipe unless otherwise shown on the Construction Plans.
4. All types of PVC pipe, flexible and semi rigid pipe used for sanitary sewer gravity lines shall be constructed using Sanitary Sewer Bedding for Dry Stable Trench unless otherwise noted on the Construction Plans.

E. Water Line Bedding and Sanitary Sewer Force Main Bedding

1. Accurately grade the bottom of the trench 6 inches below the elevation of the normal pipe installation and to the width specified.
2. Place and compact at least 6 inches of bank sand bedding in the bottom of the trench.
3. Install the pipe and place and compact additional bank sand bedding to a height of 6 inches above the top of the pipe.

4 All sanitary sewer force mains shall be constructed using the bedding described above unless otherwise indicated on the Construction Plans.

F. Storm Sewer Bedding

1. 36 Inch Diameter and Less

a. Accurately grade the bottom of the trench 10 inches below the bottom of the pipe and to the width specified
b. Place and compact at least 10 inches of cement stabilized sand bedding in the bottom of the trench.
c. Install the pipe and place and compact additional cement stabilized sand bedding to a height of 6 inches above the top of the pipe.
d. The Engineer may order use of washed shell or other approved granular material in lieu of cement stabilized sand bedding.

2. 42 Inch and Larger

a. Accurately grade the bottom of the trench 12 inches below the bottom of the pipe and to the width specified.
b. Place and compact at least 12 inches of cement stabilized sand for 42" and larger diameter pipe in the bottom of the trench.
c. Install the pipe and place and compact additional cement stabilized sand bedding to a height of 6 inches above the top of the pipe.
d. The Engineer may order use of washed shell or other approved granular material in lieu of cement stabilized sand bedding.

3.02 UTILITY INSTALLATION

A. Sanitary Sewers and Storm Sewers

1. Cut trench as described in Section 3.01,B.
2. Above the pipe, cut as wide as necessary to sheet and brace and properly perform the work.
3. Provide bedding as described in Section 3.01,D. and F. above

B. Water Lines

1. Grade trenches to avoid high points requiring vacuum and relief valves in water lines.
2. Provide minimum cover over top of the pipe shown on drawings.
3. Avoid interference with other utilities.

C. Excavation of Appurtenances

1. Excavate sufficiently for manholes and similar structures to leave at least 2 feet clear between the outer surfaces and the embankment or timber that may be used to hold and protect the banks.
2. Any over-depth excavation below such appurtenances not directed will be considered unauthorized and will be backfilled with sand, gravel, cement stabilized sand, or concrete, as directed at no additional cost.

3.03 PROTECTION OR REMOVAL OF UTILITY LINES

A. Existing utility lines shown on the Construction Plans or known to the Contractor prior to excavation and that are to be retained, as well as utility lines encountered during excavation operations must be carefully protected and satisfactorily repaired, if damaged.

B. Any damage to lines not shown should be reported immediately.

C. When utility lines that are to be removed are encountered, notify the Engineer so that measures can be taken to avoid interruption of service.

3.04 BACKFILL

A. Remove Shoring

1. All shoring shall be removed
2. Removal of shoring shall be in accordance with OSHA standards to maintain trench safety.
3. Bed pipe to the point specified above top of pipe prior to removal of any portion of trench safety system.
4. Backfilling and removal of trench supports shall progress together from bottom of trench upward.
5. Do not remove braces or trench supports until all personnel have evacuated the trench.
6. Backfill trench to within 5 feet of natural ground prior to removal of entire trench safety system.

B. Open Areas

1. Use earth backfill material in all trenches in open areas unless otherwise shown or specified on the Construction Plans.
2. Take special care not to damage pipe wrapping or coating.

C. Pavement Sections

1. Backfill and compact sanitary sewer and storm sewer trenches with cement stabilized sand unless otherwise shown or specified on the Construction Plans.
2. Cure cement stabilized sand at least 3 days before placing pavement on top of it.
3. Place and compact cement stabilized sand to within one foot of finished pavement surface.
4. Backfill water line trenches with the material specified on the Construction Plans.

1.03 SUBMITTALS

A. Submittals shall conform to requirements of the Section titled "Submittals."

B Submit proposed target cement content and production data for sand-cement mixture in accordance with the requirements of paragraph 2.03 of this Section.

1 04 DESIGN REQUIREMENTS

A. Sand-cement mixture shall produce a minimum unconfined compressive strength of 100 pounds per square inch ("psi") in 48 hours.

1. Design will be based on strength specimens molded in accordance with ASTM D558 at a moisture content within 3% of optimum and within 4 hours of batching.
2 Determine minimum cement content from production data and statistical history. Mix shall contain not less than 2 sacks of cement per ton (188 lbs per ton) of dry sand unless otherwise indicated on the Drawings.

PART 2 - PRODUCTS

2.01 MATERIALS

A Cement: Type I Portland cement conforming to ASTM C150.

B. Sand: Clean, durable sand meeting grading requirements for fine aggregates of ASTM C33 and the following requirements:

1 Classified as SW, SP, SW-SM, SP-SM, or SM by the United Soil Classification System of ASTM D2487.
2. Deleterious materials:

a. Clay lumps, ASTM C142; less than 0.5%.
b. Lightweight pieces, ASTM C123; less than 5%.
c. Organic impurities, ASTM C40; color no darker than the standard color.

3. Plasticity index of 4 or less when tested in accordance with ASTM D4318.

C Water: Potable water, free of oils, acids, alkalis, organic matter or other deleterious substances, meeting requirements of ASTM C94.

2.02 MIXING MATERIALS

A. Add required amount of water and mix thoroughly in a pug mill-type mixer.

B. Stamp batch ticket at plant with time of loading. Material not placed and compacted within 4 hours after mixing shall be rejected.

2.03 MATERIAL QUALIFICATION

A Determine the target cement content of the material as follows:

1. Obtain samples of sand-cement mixtures at the production facility representing a range of cement content consisting of at least 3 points.
2. Complete the molding of samples within 4 hours after the addition of water
3 Perform strength tests (average of 2 specimens) at 48 hours and 7 days.
4. Perform cement content tests on each sample.
5. Perform moisture content tests on each sample
6. Plot average 48-hour strength versus cement content.
7 Record scale calibration date, sample date, sample time, molding time, cement feed dial settings and silo pressure, if applicable.

B. Test the raw sand for the following properties at the point of entry into the pug-mill:

1. Gradation.
2. Plasticity index.
3. Organic impurities
4. Clay lumps and friable particles
5. Lightweight pieces.
6 Moisture content.
7. Classification.

C. The target content may be adjusted if statistical history so indicates. For determination of minimum product performance use the formula:

$$f'_c + 1/½ \text{ standard deviation}$$

PART 3 - EXECUTION

3.01 PLACING

A. Place sand-cement mixture in a maximum 12-inch thick loose lift and compact to 95% percent of ASTM D558, unless otherwise specified. Refer to related specifications for thickness of lifts in other applications. The target moisture

content during compaction is plus or minus 3% of optimum. Perform and complete compaction of sand-cement mixture within 4 hours after addition of water to mix at the plant.

B Do not place or compact sand-cement mixture in standing or free water

3.02 FIELD QUALITY CONTROL

A Samples of delivered product will be taken in the field at point of delivery for testing in accordance with ASTM D3665.

B. Four specimens shall be prepared and molded (for each sample obtained) in accordance with ASTM D558, Method A, without adjusting the moisture content. Samples will be molded at approximately the same time the material is being used, but no later than 4 hours after water is added to mix.

C. After molding, specimens will be removed from the molds and sealed in a plastic bag or similar material to minimize moisture loss. Specimens will be cured at a room temperature between 60 and 80°F, until ready for testing

D. Specimens will be tested for compressive strength in accordance with ASTM D1633, Method A. 2 specimens will be tested at 48 hours plus or minus 2 hours and 2 specimens will be tested at 7 days plus or minus 4 hours.

E. A strength test will be the average of the strengths of 2 specimens molded from the same sample of material and tested at the same age. The average daily strength will be the average of the strengths of all specimens molded during one day's production and tested at the same age.

F Precision and Bias: Test results shall meet the recommended guideline for precision in ASTM D1633, Section 9.

G. Reporting. Test reports shall contain, as a minimum, the following information:

1 Supplier and plant number.
2 Time material was batched.
3. Time material was sampled.
4 Test age (exact hours).
5. Average 48-hour strength.
6. Average 7-day strength.
7. Specification section number.
8. Compliance/non-compliance.
9. Mixture identification.
10. Truck and ticket numbers.
11. The time of molding.
12 Moisture content at time of molding.

13. Required strength.
14. Test method designations.
15. Compressive strength data as required by ASTM D1633.

3.03 ACCEPTANCE

A. The strength level of the material will be considered satisfactory if.

1. the average 48-hour strength is greater than 100 psi with no individual strength test below 60 psi, or
2 all 7-day individual strength tests exceed 100 psi.

B. The material will be considered acceptable for partial payment if any 7-day individual strength test (average of 2 specimens) is less than 100 psi but greater than 60 psi.

C. The material will be considered unacceptable and subject to removal and replacement at the Contractor's expense if any individual strength test has a 7-day strength less than 60 psi.

D. If the moving average of any 3 daily 48-hour averages falls below 100 psi, the supplier shall discontinue shipment to the project until that plant is capable of producing a material which exceeds 100 psi at 48 hours. A total of 5 48-hour strength tests shall be made in this determination with no individual strength tests less than 100 psi.

E. The testing laboratory shall notify the Contractor, Engineer, and material supplier by facsimile of all tests indicating results falling below specified strength requirements.

WATER TAP AND SERVICE LINE INSTALLATION

PART 1 GENERAL

1.01 SECTION INCLUDES

A. Tapping existing mains and furnishing and installing new service lines for water.

B. Relocation of existing small water meters.

1.02 MEASUREMENT AND PAYMENT

A Unit Prices.

1 Payment for water taps and copper service lines 3/4 inch through 1 inch is on unit price basis for each installation. Separate measurements will be made for "short side", "long side" and "extra long side" connections as defined in Paragraph 1.04, Definitions.

2. Payment for water taps and service lines 1 1/2 inch through 2 inch is on unit price basis for each installation. Separate measurements will be made for "short side", "long side" and "extra long side" connections as defined in Paragraph 1.04, Definitions.

3 Payment for "short side, "long side" and "extra long side" includes locating water line, tap installation and connection to meter and restoring site.

4. Payment for each small meter includes labor, materials, and equipment to relocate existing small meter.

5. No additional payment will be made for bedding, backfill, compaction, push under pavement, etc.

B. Stipulated Price (Lump Sum). If Contract is Stipulated Price Contract, payment for work in this Section is included in total Stipulated Price.

1 03 REFERENCES

A. AWWA C 800 - Standard for Underground Service Line Valves and Fittings.

B. AWWA C 900 - Standard for Polyvinyl Chloride (PVC) Pressure Pipe, 4 in Through 12 in., for Water Distribution.

1 04 DEFINITIONS

A Short Side Connection. Service line connecting proposed curb stop, located inside water meter box, to water line on same side of street.

B. Long Side Connection· Service line connecting proposed curb stop, located inside water meter box, to water line on opposite side of street or from center of streets where supply line is located in street center such as boulevards and streets with esplanades. Distance not to exceed 60 linear feet (at right angles to water line).

C. Extra Long Side Connection· Service line connecting proposed curb stop, located inside water meter box, to water line on opposite side of street or from center of streets where supply line is located in street center such as boulevards and streets with esplanades. Distance greater than 60 linear feet (at right angles to water line).

PART 2 PRODUCTS

2.01 MATERIALS

A. Copper Tubing· Polybutylene tubing is not permitted.

B. Corporation Stops: AWWA C 800 as modified in this Section

1 Inlet End: AWWA standard thread.

2 Valve Body: Tapered plug type, O-ring seat ball type, or rubber seat ball type.

3. Outlet End: Flared-copper connection for use with Type K, soft copper or compression type fitting.

C. Provide taps for water line types and sizes in accordance with pipe tapping schedule located at end of this Section.

D Dual Strap Saddles: Red brass body and straps; ductile-iron; vinyl-coated body and straps; or ductile-iron, vinyl-coated body and stainless-steel straps.

E. Taps for PVC Water Lines: Use dual-strap or single, wide-band strap saddles which provide full support around circumference of pipe and bearing area of sufficient width along axis of

pipe, 2 inches minimum, ensuring that pipe will not be distorted when saddle is tightened. Provide approved stainless-steel tapping saddle with AWWA standard thread .

F. Taps for Steel Pipe: Not allowed, unless specifically approved by Project Manager. Use saddle only when tap is approved on steel pipe.

G. Curb Stops and Brass Fittings· AWWA C 800 as modified in this Section.

1. Inlet End: Flared copper connection or compression-type fitting

2. Valve Body: Straight-through or angled, meter-stop design equipped with following:

a. O-ring seal straight plug type

b. Rubber seat ball type.

3. Outlet End: Female, iron-pipe thread or swivel-nut, meter-spud thread on 3/4-inch and 1-inch stops and 2-hole flange on 1 1/2 and 2-inch sizes.

4 Fittings· Provide approved fittings. Use same size open end wrenches and tapping machines as used with respective Mueller fittings.

5 Factory Testing of Brass Fittings:

a. Submerge in water for 10 seconds at 85 psi with stop in both closed and open positions.

b. Reject fitting that shows air leakage. Project Manager may confirm tests locally Entire lot from which samples were taken will be rejected when random sampling discloses unsatisfactory fittings.

H. Angle Stops. In accordance with AWWA C 800; ground-key, stop type with bronze lock-wing head stop cap; inlet and outlet threads conform to application tables of AWWA C 800; and inlets flared connection or compression.

1. Outlet for 3/4-inch and 1-inch size: Meter swivel nut with saddle support.

2. Outlet for 1 1/2-inch through 2-inch size· O-ring sealed meter flange, iron pipe threads.

I Fittings· In accordance with AWWA C 800 and following:

1. Castings· Smooth, free from burrs, scales, blisters, sand holes, and defects which would make them unfit for intended use.

2. Nuts: Smooth cast and has symmetrical hexagonal wrench flats.

3. Flare-Joint Fittings. Smooth cast. Machine seating surfaces for metal-to-metal seal to proper taper or curve, free from pits or protrusions.

4. Thread fittings, of all types, shall have N P T or AWWA threads, and protect male threaded ends in shipment by plastic coating, or approved equal

5. Compression tube fittings shall have Buna-N beveled gasket.

6 Stamp of manufacturer's name or trademark and of fitting size on body.

PART 3 EXECUTION

3 01 GENERAL

A. For service lines and lateral connections larger than those allowed in Pipe Tapping Schedule, branch connections and multiple taps may be used. Space corporation stops minimum of 2 feet apart.

B Tapped collars of appropriate sizes· Approved in new construction only provided they are set at right angles to proposed meter location

C. Use tapping machine manufactured for pressure tapping purposes for 2-inch and smaller service taps on pressurized water lines.

D For new meter or when existing meter is in conflict with proposed pavement improvements, locate water meters one foot inside street right-of-way, or when this is not feasible, one foot on curb side of sidewalk. Contact Project Manager when major landscaping or trees conflict with service line and meter box location. No additional payment will be made for work on customer side of meter.

E. New location and installation of existing small meter shall conform to requirements of this Section.

3.02 SERVICE INSTALLATION

A. Set service taps at right angles to proposed meter location and locate taps in upper pipe segment within 45 degrees of pipe springline.

B. Install service lines in accordance with Excavation and Backfill for Utilities.

C. Lay service lines with minimum of 30 inches of cover as measured from top of curb or, in absence of curbs, from centerline elevation of crowned streets or roads. Provide minimum of 18 inches of cover below flow line of ditches to service lines.

D Service lines across existing street (push-unders): Pull service line through prepared hole under paving Use only full lengths of tubing. Take care not to damage copper tubing when

pulling it through hole. Compression-type union is only permitted when span underneath pavement cannot be accomplished with a full standard length of tubing. Use one compression-type union for each full length of tubing.

E. Maintain service lines free of dirt and foreign matter.

F. Install service lines so that top of meter will be 4 to 6 inches below finished grade.

G. Anticipate existing sanitary sewers to have cement stabilized sand backfill to bottom of pavement. Include cost of such crossings in unit price for services.

3.03 CURB STOP INSTALLATION

A. Set curb stops or angle stops at outer end of service line inside of meter box Secure opening in curb stop to prevent unwanted material from entering. In close quarters, make S-curve in field. Do not flatten tube. In 3/4-inch and 1-inch services, install meter coupling, swivel-nut, or curb stop ahead of meter Install straight meter coupling on outlet end of meter.

3.04 SEQUENCE OF OPERATIONS

A. Open trench for proposed service line in accordance with Excavation and Backfill for Utilities.

B. Install curb stop on meter end of service line.

C With curb stop open and prior to connecting service line to meter in slack position, open corporation stop and flush service line thoroughly Close curb stop, leaving corporation stop in full-open position.

D Check service line for apparent leaks. Repair leaks before proceeding

E. Schedule inspection with Project Manager prior to backfilling. After inspection, backfill in accordance with Excavation and Backfill for Utilities.

F Install meter box centered over meter with top of lid flush with finished grade.

SANITARY SEWER SERVICE STUBS OR RECONNECTIONS

PART 1 GENERAL

1.01 SECTION INCLUDES

A Installation of service stubs in sanitary sewers serving areas where sanitary sewer service did not previously exist

B. Reconnection of existing service connections along parallel, replacement, or rehabilitated sanitary sewers.

C Installation of sanitary sewer service stubs, within street right-of-way, terminating with a clean-out and a plug at the right-of-way to allow for future connection of a single service, on at a double-wye fitting plugged at both to allow for future connection to two services.

1 02 MEASUREMENT AND PAYMENT

A. Unit Prices.

1 Payment for sanitary sewer service stubs or service reconnections with stacks is on unit price basis for each stub or reconnection. Payment will be made for each service stub or reconnection installed complete in place, including service connections, couplings, and adapters disconnecting existing services, reconnecting new service, fittings, excavation, and backfill.

2 Payment for sanitary sewer service stubs or service reconnections without stacks is on unit price basis for each stub or reconnection. Payment will be made for each service stub or reconnection installed complete in place, including service connections, couplings, and adapters disconnecting existing services, reconnecting new service, fittings, excavation, backfill and testing.

3. Pay estimates for progress payments will be made as measured above according to following schedule·

   a. An estimate for 95 percent payment will be authorized when reconnection is completely installed and backfilled.

   b An estimate for 100 percent payment will be authorized when reconnection has been tested
   Sewers

4. One or more connections discharging into common point are considered one service connection. Contractor shall not add service reconnections without approval of Project Manager. Project Manager may require connections to be relocated to avoid having more than two service connections per reconnection.

5. Protruding service connections which must be removed to allow liner insertion are paid as service reconnection when connected. If abandoned, they will be paid as abandoned connection.

6. Payment for abandonment of service connection is on unit price basis for each abandoned connection No separate payment will be made for abandonment of service connection unless excavation is required. No separate payment will be made for excavation of sanitary sewer services within new or replacement sewer trench.

7. No separate payment will be made for removal of existing sanitary sewer service stubs. Include payment in unit price for Section - Sanitary Sewer Service Stubs or Reconnections.

8. No separate payment will be made for abandoned service connection when service to be abandoned is within 4 feet of active connection. Payment for only one abandoned service connection will be allowed when second abandoned connection is within 4 feet of first.

9. If faulty remote cut is later corrected using procedures specified for reconnection by excavation, only one reconnection will be allowed for payment.

B. Stipulated Price (Lump Sum). If Contract is Stipulated Price Contract, payment for work in this Section is included in total Stipulated Price

C. ASTM D 3212 - Standard Specification for Joints for Drain and Sewer Plastic Pipes Using Flexible Elastomeric Seals.

1.04 PERFORMANCE REQUIREMENTS

A. Accurately locate in field all proposed service stubs along new sanitary sewer main.

B Accurately locate in field existing service connections and proposed service stubs along alignment of new parallel or replacement sewer main.

1 05 SUBMITTALS

A. Conform to requirements of Submittal Procedures.

B. Submit product data for each pipe product, fitting, coupling and adapter.

C. Show reconnected services on record drawings. Give exact distance from each service connection to nearest downstream manhole.

PART 2 PRODUCTS

2.01 PVC SERVICE CONNECTION

A. As stub outs, use PVC sewer pipe of 4-inch through 10-inch diameter, conforming to ASTM D 1784 and ASTM D 3034, with cell classification of 12454-B. SDR (ratio of diameter to wall thickness) shall be 26 for pipe 10 inches in diameter or less.

B PVC pipe shall be gasket jointed with gasket conforming to ASTM D 3212.

C. Provide service connection pipe in sizes shown on Drawings. For reconnection of existing services, select service connection pipe diameter to match existing service diameter.

Reconnections to rehabilitated sanitary sewer mains shall be limited to following maximum service connection diameter:

Sewer Diameter	Maximum Service Connection Diameter
8" or less	4"
10" or greater	6"

D Subject to above limits, provide 6-inch service connection when more than one service discharges into single pipe

E. Connect service pipes to parallel or replacement sewer mains with prefabricated, full-bodied tee or wye fittings conforming to specifications for sewer main pipe material as specified in other Sections for sewers up to 18 inches in diameter.

F. Where sewers are installed using pipe augering or tunneling, or where sewer is greater than 18 inches in diameter, use Fowler "Inserta-Tee" to connect service to sewer main

2.02 PIPE SADDLES

A Use pipe saddles only on rehabilitated sanitary sewer mains. Comply with Paragraph 2 01E for new parallel and replacement sanitary sewer mains

B. Supply one-piece prefabricated saddle, either polyethylene or PVC, with neoprene gasket to accomplish complete seal. Use saddle fabricated to fit outside diameter of connecting pipe. Protruding lip of saddle must be at least 5/8-inch long with grooves or ridges to retain stainless steel band clamps.

C Use 1/2-inch stainless steel band clamps for securing saddles to liner pipe.

2 03 COUPLINGS AND ADAPTERS

A For connections between new PVC pipe stubouts and existing service, 4-, 6-, or 8-inch diameter, use flexible adapter coupling consisting of neoprene gasket and stainless steel shear rings with 1/2-inch stainless steel band clamps:

1. Fernco Pipe Connectors, Inc. Series 1055 with shear ring SR-8

2 Band Seal by Mission Rubber Co., Inc.

3. Approved equal.

B. For connections between new PVC pipe stubout and new service, use rubber-gasket adapter coupling:

1. GPK Products, Inc.

2. IPS & Sewer Adapter

3. Approved equal.

2.04 STACKS

A Provide stacks for service connections wherever crown of sewer is 8 feet or more below finished grade

B Construct stacks of same material as sanitary sewer and as shown on Drawings.

C. Provide stacks of same nominal diameter at sanitary service line.

2.05 PLUGS AND CAPS

A. Seal upstream end of unconnected sewer service stubs with rubber gasket plugs or caps of same pipe type and size. Provide plugs or caps by GPK Products, Inc., or approved equal.

PART 3 EXECUTION

3.01 PERFORMANCE REQUIREMENTS

A. Provide minimum of 72 hours notice to customers whose sanitary sewer service will potentially be interrupted

B. Accurately field locate service connections, whether in service or not, along rehabilitated sanitary sewer main. For parallel and replacement sewers, service connections may be located as pipe laying progresses from downstream to upstream.

C. Properly disconnect existing connections from sewer and reconnect to rehabilitated liner, as described in this Section.

D Reconnect service connections, including those that go to unoccupied or abandoned buildings or to vacant lots, unless directed otherwise by Project Manager.

E. Complete reconnection of service lines within 24 hours after cured-in-place liner installation and within 72 hours after disconnection for sliplining, parallel, or replacement sanitary sewer mains.

F. Reconnect services on cured-in-place liner at 12 feet depth or less by excavation method. Project Manager reserves right to require service connections by excavation when remote cut service connection damages lines.

G. Reconnection by excavation method shall include stack and fittings and required pipe length to reconnect service line.

H. Connect services 8 inches in diameter and larger to sewer by construction of manhole. Refer to appropriate Section on manholes for construction and payment.

3.02 PROTECTION

A. Provide barricades, warning lights, and signs for excavations created for service connections.

B. Do not allow sand, debris, or runoff to enter sewer system.

3.03 PREPARATION

A. Determine existing sewer locations and number of existing service connections from closed-circuit television (CCTV) inspection tapes or from field survey Accurately field locate existing service connections, whether in service or not. Use existing service locations to connect or reconnect service lines or liner.

B For rehabilitated sanitary sewer mains, allow liner to normalize to ambient temperature and recover from imposed stretch. For cured-in-place liners, verify that liner is completely cured.

C. For new parallel and replacement sanitary sewer mains, complete testing and acceptance of downstream sewers as applicable. Provide for compliance with requirements of Paragraph 3.01E.

3.04 EXCAVATION AND BACKFILL

A. Excavate in accordance with - Excavation and Backfill for Utilities.

B Perform work in accordance with OSHA standards. Employ Trench Safety System for excavations requiring trench safety.

C. Install and operate necessary ground water and surface water control measures

D. Determine locations where limited access, buildings or structure preclude use of mechanical excavation equipment. Obtain approval from Project Manager for hand excavation.

3 05 RECONNECTION BY EXCAVATION METHOD

A. Remove portion of existing sanitary sewer main or carrier pipe to expose liner pipe Provide sufficient working space for installing prefabricated pipe saddle.

B. Carefully cut liner pipe making hole to accept stubout protruding from underside of saddle

C. Strap on saddle using stainless steel band on each side of saddle. Tighten bands to produce watertight seal of saddle gasket to liner pipe.

D. Remove and replace cracked, offset, or leaking service line for up to 5 feet, measured horizontally, from center of new liner

E. Make up connection between liner and service line using PVC sewer pipe and approved fittings and couplings.

F. Encase entire service connection in cement stabilized sand as shown on Drawings.

G. Test service connections before backfilling.

3.06 RECONNECTION BY REMOTE METHOD

A. Make service reconnections using remote-operated cutting tools on cured-in-place liners at depth greater than 12 feet.

B. Employ method and equipment that restore service connection capacity to not less than 90 percent of original capacity.

C. Immediately open missed connections and repair holes drilled in error using method approved by Project Manager.

3 07 RECONNECTION ON PARALLEL OR REPLACEMENT SEGMENTS

A. Install service connections on sewer main.

B. Remove and replace cracked, offset or leaking service line for up to 5 feet, measured horizontally, from centerline of sanitary sewer main

C. Make up connection between main and existing service line using PVC sewer pipe and approved couplings, as shown on Drawings.

D. Test service connections before backfilling.

E. Embed service connection and service line as specified for sanitary sewer main as shown on Drawings. Place and compact trench zone backfill in compliance with Excavation and Backfill for Utilities

3.08 INSTALLATION OF NEW SERVICE STUBS

A. Install service connections on sanitary sewer main for each service connection. Provide length of pipe required to allow sufficient room for standard 6-inch clean-out service lead assembly in accordance with detail Install plug(s) or cap on the upstream end(s) of service stub(s) as needed.

B. Test service connections before backfilling.

C. Embed service connection and service line as specified for sanitary sewer main, and as shown on Drawings. Place and compact trench zone backfill in compliance with Excavation and Backfill for Utilities Install minimum 2-foot length of magnetic locating tape along axis of service stub and 9 inches to 12 inches above crown of pipe, at end of stub.

3.09 TESTING

A. Test service reconnections and service stubs. Follow applicable procedures to perform smoke testing to confirm reconnection.

B. Perform post installation CCTV inspection to show locations of service connection.

3 10 CLEANUP

A Backfill excavation as specified in - Excavation and Backfill for Utilities.

B Replace pavement or sidewalks removed or damaged by excavation in accordance with Section 02951 - Pavement Repair and Resurfacing. In unpaved areas, bring surface to grade and slope surrounding excavation. Replace minimum of 4 inches of topsoil and seed according to requirements

END OF SECTION

SECTION 02710

SANITARY SEWERS

PART 1 GENERAL

1.01 DESCRIPTION

A. This section describes the installation of new sanitary sewers and modifications or connections to the existing sanitary sewer system required as part of the proposed work.

1.02 REFERENCE STANDARD

A. City of Houston, Texas, Department of Public Work and Engineering's "Standard Construction Specifications for Wastewater Collection Systems, Water Lines, Storm Drainage and Street Paving," dated October 2002 and "Standard Construction Details for Wastewater Collection Systems, Water Lines, Storm Drainage, and Street Paving," dated October 2002 and all applicable amendments.

B. In using the aforementioned specifications, it shall be understood that whenever the terms "City of Houston" and "Director of Public Works" are used, the interpretation shall be "Owner" and "Engineer," respectively.

C. Measurement and payment paragraphs in the City of Houston Standard Specifications will not apply, see the section entitled "MEASUREMENT AND PAYMENT" for measurement and payment.

1.03 QUALITY ASSURANCE

A. Low Pressure Air Test

1. For safety reasons, air testing of sections of pipe shall be limited to lines with an average inside diameter less than 36-inches.
2. The length of line to be tested at one time shall be limited to the length between adjacent manholes.
3. Sections of pipe which have an average inside diameter of 36-inches or larger shall be air tested at each joint.
4. The test section shall be pressurized to 3.5 pounds per square inch ("psi") and held above 3.0 psi for 5 minutes.
5 Air is to be added as required to hold pressure during this 5 minute period.

6. At the end of the 5 minute saturation period, the pressure shall be recorded and the time period shall begin with a pressure of 3.5 psi.
7. For sections of pipe up to 36-inch average inside diameter, the minimum time allowable for the pressure to drop from 3.5 pounds per square inch gauge to 2.5 pounds per square inch gauge shall be computed using the following equation:

$$T = 0.085 (D) (K) / (Q)$$

Where:

T = time for pressure to drop 1.0 pound per square inch gauge in seconds.
K = 0.000419 (D) (L), but not less than 1.0
D = the average inside diameter of the pipe in inches
L = length of pipe in feet of same size being tested
Q = rate of loss in cubic feet per minute per square foot of internal surface area (a value of 0.0015 shall be used)

The testing times and minimum testing times for each pipe diameter are shown below·

Pipe Diameter (inches)	Time (seconds)	But Not Less Than (minutes)	Pipe Diameter (inches)	Time (seconds)	But Not Less Than (minutes)
6	0.855L	5:40	21	10.471L	19:50
8	1.520L	7:34	24	13.676L	22:40
10	2.374L	9:27	27	17.309L	25:30
12	3.419L	11:20	30	21.369L	28:20
15	5.342L	14:10	33	25.856L	31:10
18	7.693L	17:00			

8. Sections of pipe which have an average inside diameter of 36-inches or larger shall be tested at each joint.
9. The minimum time allowable for the pressure to drop from 3.5 psig to 2.5 psig during a joint test, regardless of pipe size, shall be 20 seconds.
10. When the prevailing ground water is above the sewer being tested, air pressure shall be increased 0.43 psi for each foot the water table is above the flow line of the sewer.

11. A pressure gauge shall be supplied by the Contractor and shall have minimum divisions of 0.10 psi and shall have an accuracy of 0.04 psi.
12. Calibration of the gauge shall be certified by a reliable testing firm at 6-month intervals or as required by the Engineer.
13. Any section failing to meet the requirements shall be examined and the leak found and repaired at no additional expense to the Owner.
14. After repair, the section shall be retested.

B. Deflection Test

1. Deflection tests shall be performed on all flexible and semi-rigid pipe.
2. The test shall be conducted after the final backfill has been in place at least 30 days.
3. Deflection shall not exceed the manufacturer's recommended maximum and under no circumstances be greater than 5%.
4. If the deflection test is to be run using a rigid ball or mandrel, it shall have a diameter equal to 95% of the inside diameter of the pipe.
5. The test shall be performed without mechanical pulling devices.

1.04 CLEARANCES

A. The requirements listed below are for separation distances between sanitary sewers (and manholes) and potable water lines and are identical to 30 Texas Administrative Code, Chapter 290.44(e)(1)-(7).

B. Location of Water Lines

1. The following rules apply to installations of potable water distribution lines and wastewater collection lines, wastewater force mains and other conveyances/appurtenances identified as potential sources of contamination. Furthermore, all ratings specified shall be defined by ASTM or AWWA standards unless stated otherwise.
2. When new potable water distribution lines are constructed, they shall be installed no closer than nine feet in all directions to wastewater collection facilities. All separation distances shall be measured from the outside surface of each of the respective pieces.
3. Potable water distribution lines and wastewater collection lines or force mains that form parallel utility lines shall be installed in separate trenches.
4. No physical connection shall be made between a drinking water supply and a sewer line. Any appurtenance shall be designed and constructed so as to prevent any possibility of sewage entering the drinking water system.
5. Where the nine foot separation distance cannot be achieved, the following criteria shall apply:

C. New Water Line Installation - Parallel Lines

1. Where a new potable water line parallels an existing, non-pressure or pressure rated wastewater line/force main and the registered professional engineer is able to determine that the existing line is not leaking, the new potable water line shall be located at least two feet above the existing line, measured vertically, and at least four feet away, measured horizontally, from the existing line. Every effort shall be exerted not to disturb the bedding and backfill of the existing wastewater line.
2. Where a new potable water line parallels an existing pressure rated wastewater line and it cannot be determined by the registered professional engineer if the existing line is leaking, the existing wastewater line shall be replaced with a 150 psi pressure rated pipe. The new potable water line shall be located at least two feet above the new wastewater line, measured vertically, and at least four feet away, measured horizontally, from the replaced wastewater line.
3. Where a new potable water line parallels a new wastewater line/force main, the wastewater line shall be constructed of 150 psi pressure rated pipe. The new potable water line shall located at least two feet above the wastewater line, measured vertically, and at least four feet away, measured horizontally, from the wastewater line.

D. New Water Line Installation - Crossing Lines

1 Where a new potable water line crosses an existing, non-pressure rated wastewater line, one segment of the water line pipe shall be centered over the wastewater line such that the joints of the water line pipe are equidistant and at least nine feet horizontally from the centerline of the wastewater line. The potable water line shall be at least two feet above the wastewater line. Whenever possible, the crossing shall be centered between the joints of the wastewater line. If the existing wastewater line is disturbed or shows signs of leaking, it shall be replaced for at least 9 feet in both directions (18 feet total) with 150 psi pressure rated pipe.
2. Where a new potable water line crosses an existing, pressure rated wastewater line, one segment of the water line pipe shall be centered over the wastewater line such that the joints of the water line pipe are equidistant and at least nine feet horizontally from the centerline of the wastewater line. The potable water line shall be at least six inches above the wastewater line. Whenever possible, the crossing shall be centered between the joints of the wastewater line. If the existing wastewater line shows signs of leaking, it shall be replaced for at least 9 feet in both directions (18 feet total) with 150 psi pressure rated pipe.

3. Where a new potable water line crosses a new, non-pressure rated wastewater line and the standard pipe segment length of the wastewater line is at least 18 feet, one segment of the water line pipe shall be centered over the wastewater line such that the joints of the water line pipe are equidistant and at least nine feet horizontally from the centerline of the wastewater line. The potable water line shall be at least two feet above the wastewater line. Whenever possible, the crossing shall be centered between the joints of the wastewater line. The wastewater pipe shall have a minimum pipe stiffness of 115 psi at five percent deflection. The wastewater line shall be embedded in cement stabilized sand (see §290.44(e)(5)(B)(vi) of this title) for the total length of one pipe segment plus 12 inches beyond the joint on each end.

4. Where a new potable water line crosses a new, non-pressure rated wastewater line and a standard length of the wastewater pipe is less than 18 feet in length, the potable water pipe segment shall be centered over the wastewater line. The materials and method of installation shall conform with one of the following options:

   a Within nine feet horizontally of either side of the water line, the wastewater pipe and joints shall be constructed with pipe material having a minimum pressure rating of 150 psi. A minimum vertical separation distance of two feet shall be provided. The wastewater line shall be located below the water line.

   b. All sections of wastewater line within nine feet horizontally of the water line shall be encased in an 18 foot (or longer) section of pipe. Flexible encasing pipe shall have a minimum pipe stiffness of 115 psi at five percent deflection. The encasing pipe shall be centered on the water line and shall be at least two nominal pipe diameters larger than the wastewater line. The space around the carrier pipe shall be supported at 5 foot (or less) intervals with spacers or be filled to the springline with washed sand. Each end of the casing shall be sealed with water tight non-shrink cement grout or a manufactured water tight seal. An absolute minimum separation distance of six inches between the encasement pipe and the water line shall be provided. The wastewater line shall be located below the water line.

   c. When a new water line crosses under a wastewater line, the water line will be encased as described for wastewater lines in section (b) above or constructed of ductile iron or steel pipe with mechanical or welded joints as appropriate. An absolute minimum separation distance of 1 foot between the water line and the wastewater line shall be provided. Both the water line and wastewater line, must pass a pressure and leakage test as specified in AWWA C600 standards.

5. Where a new potable water line crosses a new, pressure rated wastewater line, one segment of the water line pipe shall be centered over the wastewater line such that the joints of the water line pipe are equidistant and at least nine feet horizontally from the centerline of the wastewater line. The potable water line shall be at least six inches above the wastewater line. Whenever possible, the crossing should be centered between the joints of the wastewater line The wastewater pipe shall have a minimum pressure rating of 150 psi. The wastewater line shall be embedded in cement stabilized sand for the total length of one pipe segment plus 12 inches beyond the joint on each end.
6. Where cement stabilized sand bedding is required, the cement stabilized sand shall have a minimum of 10 percent cement per cubic yard of cement stabilized sand mixture, based on loose dry weight volume (at least 2.5 bags of cement per cubic yard of mixture). The cement stabilized sand bedding shall be a minimum of six inches above and four inches below the sewer pipe. The use of brown coloring in cement stabilized sand for wastewater line bedding is recommended for the identification of wastewater force mains during future construction.

E. Water Line and Manhole Separation

1. The separation distance from a potable water line to a manhole shall be a minimum of nine feet. Where the nine foot separation distance cannot be achieved, the potable water line shall be encased in a joint of 150 psi pressure class pipe at least 18 feet long and two nominal sizes larger than the new conveyance. The space around the carrier pipe shall be supported at five feet intervals with spacers or be filled to the spring line with washed sand. The encasement pipe shall be centered on the crossing and both ends sealed with cement grout or manufactured seal.

F. Location of Fire Hydrants

1. Fire hydrants shall not be installed within nine feet vertically or horizontally of any sanitary sewer line regardless of construction.

PART 2 PRODUCTS

2 01 MATERIALS

A. Sanitary Sewer Pipe

1. PVC sanitary sewer pipe and fittings 6 inches through 18 inches shall meet the requirements of and be tested in accordance with ASTM D-2241, SDR 26 (Class 160) unless otherwise noted on the Construction Plans.
2. PVC sanitary sewer pipe and fittings shall be made of PVC having a cell classification of 12454A or 12454B (PVC 1120) per ASTM D-1784.
3. Joints for pipe and fittings:

    a. Shall have spigot and integral wall section bells with solid cross section elastomeric or rubber gaskets as per ASTM D-3139.
    b. Gaskets shall conform to ASTM F-477 and shall be securely locked or glued in place to prevent displacement.
    c. The manufacturer shall test a sample from each batch per ASTM D-2444.
    d. All connections including wyes, tees, stacks, stubs, etc. shall be full bodied fittings.

B. Unless otherwise indicated on the Construction Plans, furnish all other materials according to the requirements of the referenced standard.

PART 3 EXECUTION

3.01 INSTALLATION

A. Except as otherwise specified herein or indicated on the Construction Plans workmanship, methods of installation, construction procedures and materials furnished shall be in strict accordance with the previously referenced City of Houston Specifications and Drawings.

B. Excavating, trenching, backfilling and bedding shall be in accordance with the section entitled "EXCAVATING, TRENCHING AND BACKFILLING FOR UTILITIES."

C. All pipe installed in augured or bored holes shall be installed with cement grout side support in accordance with the pipe manufacturer's recommendations.

* END *

SECTION 02715

MANHOLES

PART 1 GENERAL

1.1 DESCRIPTION

A. This section provides for the construction of manholes complete in place.

1.2 REFERENCE STANDARD

A. City of Houston, Texas, Department of Public Work and Engineering's "Standard Construction Specifications for Wastewater Collection Systems, Water Lines, Storm Drainage and Street Paving," dated October 2002 and "Standard Construction Details for Wastewater Collection Systems, Water Lines, Storm Drainage, and Street Paving," dated October 2002 and all applicable amendments.

B. In using the aforementioned specifications, it shall be understood that whenever the terms "City of Houston" and "Director of Public Works" are used, the interpretation shall be "Owner" and "Engineer," respectively.

C. Measurement and payment paragraphs in the current City of Houston Standard Specifications will not apply, see the section entitled "MEASUREMENT AND PAYMENT" for measurement and payment.

1.3 QUALITY ASSURANCE

A. Vacuum Test (Applicable to Sanitary Sewer Manholes Only)

1. To perform a vacuum test, Contractor shall plug all lift holes and exterior joints with a non-shrink grout and plug all pipes entering a manhole.

2. No grout shall be placed in horizontal joints before testing.

3. Stub-outs, manhole boots, and pipe plugs must be secured to prevent movement while a vacuum is drawn.

4. Contractor shall use a minimum 60 inch/lb torque wrench to tighten the external clamps that secure a test cover to the top of a manhole.

5. A test head must be placed at the inside of the top of a cone section, and the seal inflated in accordance with the manufacture's recommendation.

6 There must be a vacuum of 10 inches of mercury inside a manhole to perform a valid test.

7. A test does not begin until after the vacuum pump is off.

8. A manhole passes the test if after 2.0 minutes and with all valves closed, the vacuum is at least 9.0 inches of mercury.

PART 2 PRODUCTS

2.1 MATERIALS FOR SEWER MANHOLES

A. Furnish materials according to the requirements of the referenced standard.

B Sanitary sewer manholes shall not be constructed or adjusted using any type of brick construction.

C. Cast in place concrete sanitary sewer manholes are not acceptable unless otherwise indicated on the Construction Plans.

2.2 PRECAST CONCRETE MANHOLES

A. Provide precast concrete rings conforming to the requirements of ASTM C 478.

B. Provide risers and cones with dimensions specified by the referenced standard.

2.3 CONCRETE FOR PRECAST CONCRETE SANITARY MANHOLES

A. Cement shall meet the requirements of Type I or Type IP ASTM C-595.

B. The minimum cement content shall be 611 pounds per cubic yard.

C. The maximum water cement ratio shall be 0.36 where the cement content represents the total amount of cementitious material (cement or fly ash) contained in the mix per unit weight.

D. Admixtures shall be added to improve workability and maintain the water cement ratio within the said requirements.

E. The slump of the concrete shall range from 5 to 7 inches by using a high range water reducing admixture as specified below.

F. Concrete shall have a minimum 28 day compressive strength of 5,000 psi.

G. Microsilica (Silica Fume)

1. Concrete for precast concrete sanitary manholes shall contain a microsilica corrosion resistant admixture **WHEN AND ONLY IF IT IS INDICATED ON THE CONSTRUCTION PLANS.**

2. Concrete shall contain 20% microsilica by weight of cement and fly ash per cubic yard.

3. Microsilica shall be added in slurry form at a rate ranging from 11.4 to 11.6 pounds per gallon.

4. Powder from microsilica may be substituted for slurry only if certified test reports substantiate that the powdered form is an equal to the slurry, and quality control measures approved by the Engineer are adopted.

5. Silica fume material shall be force 10,000 microsilica as manufactured by W.R. Grace Company or approved equal.

H. Polypropylene Fibers

1. Concrete for precast concrete sanitary manholes shall contain polypropylene fibers **WHEN AND ONLY IF IT IS INDICATED ON THE CONSTRUCTION PLANS.**

2. Polypropylene fibers shall be added at a rate of 1.5 pounds of fibers per cubic yard of concrete.

3. Fibers shall be 1/4 inch in length as manufactured by W.R. Grace Company or approved equal.

I. Air Entraining Admixtures

1. Air content of concrete when tested shall range from 1.5% to 2.5%.

2. Air entraining admixtures shall meet the requirements of ASTM C-260.

J. Chemical Admixtures

1. Water reducing admixtures shall meet the requirements of ASTM C-494, type A.

2. Water reducing set retarders shall meet the requirements of ASTM C-494, type D

3. High range water reducers (superplasticizers) shall meet the requirements of ASTM C-494, types A, F, or G.

K. Admixtures containing calcium chloride, thiocyanate or materials that contribute free chloride ions in excess of 0.1% by weight of cement shall not be used.

L. Fly Ash

1. Fly ash shall meet the requirements of ASTM C-618, sulfate resistant class C or F.

2. Submit the manufacturer's certificate of compliance when requested by the Engineer.

3. Fly ash used shall be produced from coal and from a single consistent source

4. The content of fly ash shall not exceed 20% by weight of cement.

M. Maximum nominal size of coarse aggregate shall be 1-1/4 inches and shall meet the requirements specified in the section entitled, "PORTLAND CEMENT CONCRETE."

N. Concrete containing microsilica is subject to plastic and drying shrinkage cracks during warm, dry and windy weather and shall be handled, finished and cured as specified in ACI 302 and 308.

PART 3 EXECUTION

3.1 INSTALLATION

A. Except as otherwise specified or as indicated on the Construction Plans workmanship, methods of installation, construction procedures and materials furnished shall be in strict accordance with the Specifications for Sewer Construction, of the Department of Public Works, City of Houston, Texas, and all applicable amendments.

3.2 CONCRETE MANHOLES

A. Excavate the pit for a manhole no wider than is necessary to compact the backfill material around the manhole.

B. The bottom or floor of precast base sections shall have a minimum thickness of 12 inches which shall project not less than 6 inches beyond the outside walls of the base to form a flange intended to resist uplift unless otherwise shown on the Construction Plans.

C. Place and compact at least 6 inches of cement stabilized sand under all precast concrete manhole base sections.

D. The precast concrete base shall have suitable cutouts or holes to receive all pipe and connections.

E. The lowest edge of holes or cutouts shall be no less than 6 inches above the inside surface of the floor of the base.

F. Manhole barrel sections shall have 0-ring joints. Joints shall be sealed with Neenah Foundry Company Manhole Sealant, Sylvax or approved equal.

G Where pipes are connected to the manhole base or barrel, the space between pipe and hole shall be sealed with an assembly consisting of rubber gaskets or links mechanically compressed to form a watertight barrier ("Press-Wedge", "Res-Seal" or approved equal).

H. At least one foot of adjustment (either up or down), shall be available for all manholes after final lot grading and paving is completed for any future adjustments.

3.3 BACKFILL

A. Place and compact cement stabilized sand backfill around all manholes as specified in the section entitled, "CEMENT STABILIZED SAND" to a point 6 inches above highest pipe entering (or leaving) the manhole unless indicated otherwise on the Construction Plans.

B. Above this point backfill with excavated material in loose lifts 8 inches thick and compact to 95% Standard Proctor Density, ASTM D-698, unless indicated otherwise on the Construction Plans.

* END *

SPECIAL PROVISION TO ITEM 1

"DEFINITION OF TERMS"

For this project, Item 1 of the Texas Standard Specifications is hereby amended with respect to the clauses cited below and no other clauses or requirements of this Item are waived or changed hereby:

THE TERM "DEPARTMENT," "STATE," "STATE HIGHWAY DEPARTMENT OF TEXAS", "TxDOT", "TEXAS DEPARTMENT OF TRANSPORTATION", STATE DEPARTMENT OF HIGHWAYS AND PUBLIC TRANSPORTATION," "STATE DEPARTMENT OF HIGHWAYS AND PUBLIC TRANSPORTATION COMMISSION," "COMMISSION," AND "STATE HIGHWAY COMMISSION," SHALL, IN THE USE OF THE STANDARD SPECIFICATIONS FOR ALL WORK IN CONNECTION WITH THIS PROJECT, BE DEEMED TO MEAN GALVESTON COUNTY, PARTY OF THE FIRST PART IN ACCOMPANYING CONTRACT OR CONTRACTS. ANY REFERENCE IN THE TEXAS STANDARD SPECIFICATIONS TO THE STATE OF TEXAS, ITS OFFICIALS, EMPLOYEES, OR AGENTS SHALL BE DEEMED TO MEAN GALVESTON COUNTY, ITS OFFICIALS, EMPLOYEES, OR AGENTS.

Articles 1.26, "Certificate of Insurance" ; 1.28, "Commission", 1.47, "Department", 1.70 "Letting Offical " and 1.124 "State" are deleted.

Article 1.53, "ENGINEER", is revised to read in its entirety as follows:

1.53 ENGINEER. Galveston County Engineer or his authorized representatives. If a representative is authorized to function as the ENGINEER'S representative with respect to certain of the ENGINEER'S activities, that representative's responsibilities and obligations shall be limited as provided in Article 1 148.

Article 1.64, "INSPECTOR," is revised to read in its entirety as follows:

1.64 INSPECTOR. The representative of the ENGINEER assigned and authorized to observe or inspect any or all parts of the work and the material to be used therein. A representative is authorized to function as the ENGINEER'S representative with respect to certain of the activities, and that representative's responsibilities and obligations shall be limited as provided in Article 1.148.

Special Provisions to Item 1

"DEFINITION OF TERMS"

ADDITIONAL ARTICLES ARE ADDED AS FOLLOWS:

1.148 CONSULTING ENGINEER. Independent engineering firms contracting with Galveston County for the providing of professional engineering services. The engineering firms are the representatives of Galveston County only to the extent provided in the Contract documents and in such special instances where they are specifically authorized by Galveston County so to act. All powers and rights assigned by Galveston County to the engineering firms with respect to the work are solely and exclusively for the benefit of Galveston County -- and not for the CONTRACTOR. In carrying out of its powers and rights assigned by Galveston County the engineering firms shall function as a representative of Galveston County and shall act by and for Galveston County. Irrespective of what authority may be assigned by Galveston County to the engineering firms, CONTRACTOR remains fully and solely responsible and liable for its obligations to perform the work in accordance with the requirements of the plans and specifications; to insure against failures in safety precautions; to carry out his work pursuant to safe methods of construction; to select and fulfill the proper manner, means, and methods in performing the work in order to meet the plans and specifications; and to complete the work in accordance with the contract documents.

SPECIAL PROVISION TO ITEM 2

INSTRUCTIONS TO BIDDERS

For this project, Item 2 of the Texas Standard Specifications is hereby deleted in it's entirety.

The Instructions To Bidders is included elsewhere in the Contract Documents.

SPECIAL PROVISION TO ITEM 3

AWARD AND EXECUTION OF CONTRACT

For this project, Item 3 of the Texas Standard Specifications is hereby deleted in it's entirety.

The Instructions To Bidders is included elsewhere in the Contract Documents.

SPECIAL PROVISION TO ITEM 4

SCOPE OF WORK

For this project, Item 4 of the Texas Standard Specifications is hereby amended with respect to the clauses cited below and no other clauses or requirements of this Item are waived or changed hereby.

ARTICLE 4.2 "CHANGES IN WORK;" ARTICLE 4.3 "DIFFERING SITE CONDITIONS" and ARTICLE 4.4 "REQUESTS AND CLAIMS FOR ADDITIONAL COMPENSATION" are deleted in their entirety and replaced by Article 38 "CHANGES and ALTERATIONS" and ARTICLE 39 "EXTRA WORK" of Section IV, "General Terms and Conditions".

SPECIAL PROVISION TO ITEM 5

CONTROL OF THE WORK

For this project, Item 5 of the Texas Standard Specifications is hereby amended with respect to the clauses cited below and no other clauses or requirements of this Item are waived or changed hereby.

ARTICLE 5.2 "PLANS AND WORKING DRAWINGS." The first sentence of the first paragraph is hereby revised to read as follows:

When required, the Contractor shall provide working drawings to supplement the plans with all necessary details not included on the Contract plans.

ARTICLE 5.5 "COOPERATION OF CONTRACTOR." The last sentence of the first paragraph is hereby revised to read as follows:

The Contractor will be supplied with three (3) copies of the plans, specifications and special provisions and he shall have one (1) copy of each available on the project at all times.

ARTICLE 5.6 "CONSTRUCTION SURVEYING," is hereby deleted in its entirety.

ARTICLE 5.7 "INSPECTION." The sixth sentence of the second paragraph is hereby revised to read as follows:

If the uncovered work is acceptable, the costs to uncover, remove and replace or make good the parts removed will be paid for in accordance with Article 38. "Changes And Alterations" of Section IV, "General Terms And Conditions".

ARTICLE 5.8 "FINAL ACCEPTANCE," is hereby deleted in its entirety. It is replaced by Article 34. "Final Completion And Acceptance" of Section IV, "General Terms And Conditions".

SPECIAL PROVISION TO ITEM 6

CONTROL OF MATERIALS

For this project, Item 6 of the Texas Standard Specifications is hereby amended with respect to the clauses cited below and no other clauses or requirements of this Item are waived or changed hereby.

Mike,

Attached is the Bid Tabulation for the Melody Lane Reconstruction project for your review The Low Bidder, Conrad Construction, had one error in their bid Their total of the Base Bid was low $20,000, but that did not change the order of the bids There were a few other errors, and each of the errors is highlighted in yellow.

At the far right side of the bid tabulation is the Engineers Estimate In addition, I calculated the price difference and percent difference between the Low Bidder and the Engineers Estimate and the Average of the 12 Bids and the Engineers Estimate

If plan rooms call to request the bid tabulation, do you want us to distribute it?

This proposal consists of a Base Bid, one Additive Alternate Bid and Supplemental Unit Price Items. For a bid to be considered responsive, all sections must be completed.
The County reserves the right to award the base bid without the alternate or the base bid with the alternate, and the lowest responsible bidder will be determined based on which option the County selects.
Either the Base Bid alone or the Base Bid with the Additive Alternate may be awarded for contract; however, in no case will the Additive Alternate only be awarded. The award of the contract will be based on the combination considered to be in the best interest of Galveston County.

All items of work required under this contract not specifically called for in the proposal as pay items shall be considered incidental to the various bid items and no separate payment shall be made for same.

An authorized person from the submitting firm must sign all bids. This signature acknowledges that the bidder has read the bid documents thoroughly before submitting a bid and will fulfill the obligations in accordance to the terms, conditions, and specifications

Please carefully review this Invitation to Bid It provides specific information necessary to aid participating firms in formulating a thorough response

3. TIME FOR RECEIVING BIDS

Bids received prior to the submission deadline will be maintained unopened until the specified time for opening If the bidder fails to identify the Bid Number on the outside of the envelope as required, the Purchasing Agent will open the envelope for the sole purpose of identifying the bid number for which the submission was made The envelope will then be resealed No liability will attach to a County office or employee for the premature opening of a bid If you do not submit a bid, return this Invitation to Bid and state reason, otherwise your name may be removed from our mailing list

4. BID OPENING

The names of the bidders and the pricing will be read aloud at the bid opening Sealed bids will be received in the office of the County Purchasing Agent and opened immediately in that office in the presence of the County Auditor and the Purchasing Agent No bid may be withdrawn for a period of sixty (60) calendar days of the bid opening date

GENERAL PROVISIONS
MELODY LANE RECONSTRUCTION
GALVESTON COUNTY, TEXAS

5. **REJECTION OF BIDS**
The County, acting through its Commissioners' Court reserves the right to (1) reject any and all bids and waive any informality in the bids received, (2) disregard the bid of any bidder determined to be non responsive to the provisions contained herein

6. ***RESTRICTIVE OR AMBIGUOUS SPECIFICATIONS***
It is the responsibility of the prospective bidder to review the entire invitation to bid packet and to notify the Purchasing Department if the specifications are formulated in a manner that would restrict competition or appear ambiguous Any such protest or question(s) regarding the specifications or bid procedures must be received in the Purchasing Department not less than seventy-two (72) hours prior to the time set for bid opening Vendors are to bid as specified herein or bid an approved equal The mention of any brand name in the specifications is not intended to be restrictive, but is intended to describe the general features and requirements (or equivalent) that Galveston County is seeking

7. **SUBSTITUTES**
It is not the County's intent to discriminate against any materials of equal merit to those specified, however, no substitutions are allowed for this bid unless specific instructions are included in the Special Provision section that allow alternate substitutions Should the bidder desire to use any substitutions, prior written approval shall be obtained from the County Purchasing Agent sufficiently in advance in order that an addendum might be issued

8. **EXCEPTIONS TO BID**
No exceptions to this bid are allowed unless specific instructions are included in the Special Provision section that allow exceptions to the bid conditions Otherwise, Bidders must adhere to the specifications when completing their submittals

9. **PRICING**
Bids will be either lump sum or unit prices as shown on the bid sheet The net price will be delivered to Galveston County, including all freight or shipping charges The County is tax exempt and no taxes should be included in your bid

Cash discount must be shown on bid, otherwise prices will be considered net Unless prices and all information requested are complete, bid may be disregarded and given no consideration

In case of default by the contractor, the County of Galveston may procure the articles or services from other sources and may deduct from any monies due, or that may thereafter become due to the contractor, the difference between the price named in the contract of purchase order and the actual cost thereof to the County of Galveston Prices paid by the County of Galveston shall be considered the prevailing market price at the time such purchase is made. Periods or performance may be extended if the facts as to the cause of delay justify such extension in the opinion of the Purchasing Agent and the Commissioners' Court

10. **PROCUREMENT CARD PROGRAM**
The County of Galveston participates in a Procurement Card (P-Card) program that allows payments made to the vendor by credit card This method normally results in substantially faster bill payments sometimes within three (3) to five (5) days of the actual transaction date If your company will accept payment via credit card (Visa, MasterCard), please notate this in you bid submittal

11. **TAX EXEMPTION**
Any resultant purchase orders are issued by a political subdivision of the State of Texas which qualifies for exemption from sales, excise, and use taxes pursuant to sections 151 309 – 151 311, of the Texas Tax Code The contractor performing this contract may purchase all materials, and supplies, used or consumed in the performance of this contract by issuing to his supplier an exemption certificate complying with State Comptroller's Ruling #95-9307 in lieu of tax Any such exemption certificate issued by the Contractor in lieu of tax shall be subject to the provisions of the State Comptroller's ruling #95 05 (effective October 2, 1968) or as hereafter amended As a general rule, a vendor is not required to pay state sales tax on goods purchased that are totally incorporated into or consumed by the public improvements Certificates may be issued upon request

GENERAL PROVISIONS
MELODY LANE RECONSTRUCTION
GALVESTON COUNTY, TEXAS

12. PASS THROUGH COST ADJUSTMENTS

Except in instances of extreme extenuating circumstances Vendor prices shall remain firm throughout the Contract period and any renewals Examples of extreme extenuating circumstances include such situations as a nationwide rail strike, oil shortage, or oil embargos

In extreme extenuating circumstances Vendors may be allowed to temporarily "pass through" additional costs they are forced to incur through no fault of their own A request for a pass through cost increase will not be considered unless a Vendor's cost for his product exceeds 10% over the original cost for the product Also, the increase in cost must be nationwide and consistent for a minimum period of sixty (60) days If a Vendor thinks he will be asking for a pass through cost adjustment during the term of his contract the original cost of his product to him must be stated in Vendor's original bid

A request for a pass through cost does not guarantee that one will be granted Vendors must submit such information on each request as is required by the County Purchasing Agent The County Purchasing Agent will review each request on a case by case basis and determine the appropriateness of each request as well as amount and duration of increase Vendors will not be permitted any additional compensation for mark-ups or profits based on the increase in price Rather, such additional compensation will be limited to the actual increase in original cost to the Vendor as such increase is reflected by the original cost stated in the bid But in no event will the amount of additional compensation exceed 25% increase in

Vendor's original cost for his product as such cost is reflected in Vendor's original bid or the duration exceed a period of sixty (60) days In addition, should, during the period of the pass through, cost return to normal or decrease to below pre pass through prices, appropriate downward adjustments will be made No more than one pass through adjustment will be permitted per year

13. MODIFICATION OF BIDS

A bidder may modify a bid by letter at any time prior to the submission deadline for receipt of bids Modification requests must be received prior to the submission deadline Modifications made before opening time must be initialed by bidder guaranteeing authenticity Bids may not be amended or altered after the official opening with the single exception that any product literature and/or supporting data required by the actual specifications, if any, will be accepted at any time prior to the Commissioners' Court consideration of same

14. AWARD OF BIDS

The award will be made to the bidder who is determined to be the lowest bidder demonstrating the best value and ability to fulfill the requirements of the bid The prices proposed will be considered firm and cannot be altered after the submission deadline

The criteria utilized for determining responsibility of bidder(s) includes, but is not limited to, the bidder's experience, skill, ability, business judgment, financial capacity, integrity, honesty, possession of the necessary facilities or equipment, previous performance, reputation, promptness, and any other factor deemed relevant by the County. The bidder shall furnish any information requested by the County in order for the County to determine whether a bidder is responsible

In determining and evaluating the best bid, the pricing may not necessarily be controlling, but quality, equality, efficiency, utility, general terms, delivery, suitability of the service offered, and the reputation of the service in general use will also be considered with any other relevant items The Commissioners' Court shall be the sole judge in the determination of these matters

Each bidder, by submitting a bid, agrees that if their bid is accepted by the Commissioners' Court, such bidder will furnish all items and services upon which prices have been tendered and upon the terms and conditions in this bid and contract

The contractor shall commence work only after the transmittal of a fully executed purchase order, or contract, and after receiving written notification to proceed from Galveston County The contractor will perform all services indicated in the

GENERAL PROVISIONS
MELODY LANE RECONSTRUCTION
GALVESTON COUNTY, TEXAS

bid in compliance with this contract

Neither department heads nor elected officials are authorized to sign any binding contracts or agreements prior to being properly placed on the Commissioners' Court agenda and approved in open court. Department heads and other elected officials are not authorized to enter into any type of agreement or contract on behalf of Galveston County Only the Commissioners' Court, acting as a body, may enter into a contract on behalf of Galveston County Additionally, department heads and other elected officials are not authorized to agree to any type of supplemental agreements or contracts for goods or services Supplemental agreements are subject to review by the Galveston County Legal Department prior to being signed by the County's authorized representative.

The County of Galveston reserves the right to accept bids on individual items listed, or group items, or on the bid as a whole, to reject any and all bids, to waive any informality in the bids, and to accept the bid that appears to be in the best interest of the County

Notice of contract award will be made within ninety (90) days of opening of bids to the lowest responsive and responsible contractor, whose bid complies with all the requirements in this Invitation to Bid unless special consideration is granted by the Commissioners' Court

Contractor shall submit to the County, for approval, within ten (10) days from notice of contract award, all Certificates of Insurance evidencing the required coverage as described under insurance in the schedule of the Invitation to Bid, item 29, page 7, Proof of Insurance.

The contractor shall not commence work under these terms and conditions of the contract until all applicable Certificates of Insurance, Performance and Payment Bonds, and Irrevocable Letter of Credit (if required) have been approved by the County of Galveston and he/she has received notice to proceed in writing and an executed copy of the contract from the County of Galveston Purchasing Agent

15. RESULTANT CONTRACT

The resultant contract if applicable, shall become effective upon the Commissioners' Court execution of the same The contract documents shall consist of the contract, the general and special provisions, the drawings, bid package, any addenda issued, and any change orders issued during the work If applicable to the attached bid, bidder must sign three (3) original contracts and return with their bid submittal

16. CONTRACT TERM

The term of the resultant contract will begin on the date of execution by the Commissioners' Court and will terminate on the date specified in the resultant contract unless terminated earlier as herein set forth

17. TERMINATION FOR DEFAULT

Failure of either party in the performance of any of the provisions of this contract shall constitute a breach of contract, in which case, either party may require corrective action within ten (10) days from date of receipt of written notice citing the exact nature of such breach Failure of the party being notified to take corrective action within the prescribed ten (10) days, or failure to provide written reply of why no breach has occurred, shall constitute a Default of Contract

All notices relating to default by Bidder of the provisions of the contract shall be issued by County by its Legal Department, and all replies shall be made in writing to the Galveston County Legal Department Notices issued by or issued to anyone other than the Galveston County Legal Department shall be null and void and shall be considered as not having been issued or received

Galveston County reserves the right to enforce the performance of this contract in any manner prescribed by law in the event of breach or default of this contract, and may contract with another party, with or without solicitation of bids or bids or further negotiations At a minimum, bidder shall be required to pay any difference in service or

materials, should it become necessary to contract with another source, plus reasonable administrative costs and attorney fees

In the event of Termination for Default, Galveston County, its agents or representatives shall not be liable for loss of any profits anticipated to be made by bidder

No waiver by either party of any event of default under this agreement shall operate as a waiver of any subsequent default under the terms of this agreement.

County reserves the right to terminate this contract immediately in the event bidder

- Fails to meet delivery or completion schedules,
- Fails to otherwise perform in accordance with the accepted bid and the contract

18. TERMINATION FOR CONVENIENCE

County may terminate this contract upon at least thirty (30) days prior written notice for its' convenience or for any reason deemed by the County to serve the public interest County may terminate this contract upon thirty (30) days prior written notice for any reason resulting from any governmental law, order, ordinance, regulations, or court order In no event shall County be liable for loss of any profits anticipated to be made hereunder by bidder should this contract be terminated early

19. FORCE MAJEURE

If by reason of Force Majeure either Party shall be rendered unable, wholly or in part, to carry out its responsibilities under this contract by any occurrence by reason of Force Majeure, then the Party unable to carry out its responsibility shall give the other Party notice and full particulars of such Force Majeure in writing within a reasonable time after the occurrence of the event, and such notice shall suspend the Party's responsibility for the continuance of the Forced Majeure claimed, but for no longer period

Force Majeure means acts of God, floods, hurricanes, tropical storms, tornadoes, earthquakes, or other natural disasters, acts of a public enemy, acts of terrorism, sovereign conduct, riots, civil commotion, strikes or lockouts, and other causes that are not occasioned by either Party's conduct which by the exercise of due diligence the Party is unable to overcome and which substantially interferes with operations

20. ESTIMATED QUANTITIES

Any reference to quantities shown in the Invitation to Bid are an estimate only. Since the exact quantities cannot be predetermined, the County reserves the right to adjust quantities as deemed necessary to meet its' requirements

21. CONTRACTOR INVESTIGATION

Before submitting a bid, each contractor shall make all investigations and examinations necessary to ascertain all site conditions and requirements affecting the full performance of the contract and to verify any representations made by the County upon which the contractor will rely If the contractor receives an award as a result of its bid submission, failure to have made such investigations and examinations will in no way relieve the contractor from its obligation to comply in every detail with all provisions and requirements of the contract, nor will a plea of ignorance of such conditions and requirements be accepted as a basis for any claim whatsoever by the contractor for additional compensation

22. NO COMMITMENT BY COUNTY OF GALVESTON

This Invitation to Bid does not commit the County of Galveston to award any costs or pay any costs, or to award any contract, or to pay any costs associated with or incurred in the preparation of a bid to this request, or to procure or contract for services or supplies

23. SINGLE BID RESPONSE

Certificate(s) of Insurance: **If the person or entity seeking qualified vendor status with the County will be performing work at or on any County owned facility and/or property, Certificate(s) of Insurance are required to be submitted prior to performing any work.**

Insurance requirements are as follows·

Public Liability and Property Damage Insurance:

Successful vendor agrees to keep in full force and effect, a policy of public liability and property damage insurance issued by a casualty company authorized to do business in the State of Texas, and in standard form approved by the Board of Insurance Commissioners of the State of Texas, with coverage provisions insuring the public from any loss or damage that may arise to any person or property by reason of services rendered by vendor. Vendor shall at its own expense be required to carry the following minimum insurance coverages

- For damages arising out of bodily injury to or death of one person in any one occurrence – one hundred thousand and no/100 dollars ($100,000 00),
- For damages arising out of bodily injury to or death of two or more persons in any one occurrence – three hundred thousand and no/100 dollars ($300,000 00), and
- For injury to or destruction of property in any one occurrence – one hundred thousand and no/100 dollars ($100,000 00).

16

This insurance shall be either on an occurrence basis or on a claims made basis Provided however, that if the coverage is on a claims made basis, then the vendor shall be required to purchase, at the termination of this agreement, tail coverage for the County for the period of the County's relationship with the vendor under this agreement Such coverage shall be in the amounts set forth in subparagraphs (1), (2), and (3) above

Worker's Compensation Insurance:

Successful vendor shall also carry in full force Workers' Compensation Insurance policy(ies), if there is more than one employee, for all employees, including but not limited to full time, part time, and emergency employees employed by the vendor Current insurance certificates certifying that such policies as specified above are in full force and effect shall be furnished by the vendor to the County

The County of Galveston shall be named as additional insured on policies listed in subparagraphs above and shall be notified of any changes to the policy(ies) during the contractual period. Insurance is to be placed with insurers having a Best rating of no less than A The vendor shall furnish the County with certificates of insurance and original endorsements affecting coverage required by these insurance clauses The certificates and endorsements for each insurance policy are to be signed by a person authorized by the insurer to bind coverage on its behalf The vendor shall be required to submit annual renewals for the term of any contractual agreement, purchase order or term contract, with Galveston County prior to expiration of any policy

In addition to the remedies stated herein, the County has the right to pursue other remedies permitted by law or in equity

The County agrees to provide vendor with reasonable and timely notice of any claim, demand, or cause of action made or brought against the County arising out of or related to utilization of the property Vendor shall have the right to defend any such claim, demand, or cause of action at its sole cost and expense and within its sole and exclusive discretion. The County agrees not to compromise or settle any claim or cause of action arising out of or related to the utilization of the property without the prior written consent of the vendor

In no event shall the County be liable for any damage to or destruction of any property belonging to the vendor unless specified in writing and agreed upon by both parties

Procurement Policy - Special Note:

Understand that it is, according to Texas Local Government Code, Section 262.011, Purchasing Agents, subsections (d), (e), and (f), the sole responsibility of the Purchasing Agent to supervise all procurement transactions

Therefore, be advised that all procurement transactions require proper authorization in the form of a Galveston County purchase order from the Purchasing Agent's office prior to commitment to deliver supplies, materials, equipment, including contracts for repair, service, and maintenance agreements. Any commitments made without proper authorization from the Purchasing Agent's office, pending Commissioners' Court approval, may become the sole responsibility of the individual making the commitment including the obligation of payment

Code of Ethics - Statement of Purchasing Policy:

Public employment is a public trust It is the policy of Galveston County to promote and balance the objective of protecting the County's integrity and the objective of facilitating the recruitment and

retention of personnel needed by Galveston County Such policy is implemented by prescribing essential standards of ethical conduct without creating unnecessary obstacles to entering public office

Public employees must discharge their duties impartially so as to assure fair competitive access to governmental procurement by responsible contractors Moreover, they should conduct themselves in such a manner as to foster public confidence in the integrity of the Galveston County procurement organization.

To achieve the purpose of these instructions, it is essential that those doing business with Galveston County also observe the ethical standards prescribed here.

General Ethical Standards: It shall be a breach of ethics to attempt to realize personal gain through public employment with Galveston County by any conduct inconsistent with the proper discharge of the employee's duties

It shall be a breach of ethics to attempt to influence any public employee of Galveston County to breach the standards of ethical conduct set forth in this code

It shall be a breach of ethics for any employee of Galveston County to participate directly or indirectly in procurement when the employee knows that

- The employee or any member of the employee's immediate family has a financial interest pertaining to the procurement
- A business or organization in which the employee, or any member of the employee's immediate family, has a financial interest pertaining to the procurement
- Any other person, business or organization with which the employee or any member of the employee's immediate family is negotiating or has an arrangement concerning prospective employment is involved in the procurement.

Gratuities: It shall be a breach of ethics to offer, give or agree to give any employee of Galveston County, or for any employee or former employee of Galveston County to solicit, demand, accept or agree to accept from another person, a gratuity or an offer of employment in connection with any decision, approval, disapproval, recommendation, preparation of any part of a program requirement or purchase request, influencing the content of any specification or procurement standard, rendering of advice, investigation, auditing, or in any other advisory capacity in any program requirement or a contract or subcontract, or to any solicitation or proposal therefore pending before this government

CONFLICT OF INTEREST DISCLOSURE REPORTING

Proposer may be required under Chapter 176 of the Texas Local Government Code to complete and file a conflict of interest questionnaire (CIQ Form) If so, the completed CIQ Form must be filed with the County Clerk of Galveston County, Texas

If Proposer has an employment or other business relationship with an officer of Galveston County or with a family member of an officer of Galveston County that results in the officer or family member of the officer receiving taxable income that exceeds $2,500 00 during the preceding 12-month period, then Proposer **MUST** complete a CIQ Form and file the original of the CIQ Form with the County Clerk of Galveston County

If Proposer has given an officer of Galveston County or a family member of an officer of Galveston County one or more gifts with an aggregate value of more than $250 00 during the preceding 12-months, then Proposer **MUST** complete a CIQ Form and file the original of the CIQ Form with the County Clerk of Galveston County

The Galveston County Clerk has offices at the following locations

Galveston County Clerk
Galveston County Justice Center, Suite 2001
600 59th Street
Galveston, Texas 77551

Galveston County Clerk
North County Annex, 1st Floor
174 Calder Road
League City, Texas 77573

Again, if Proposer is required to file a CIQ Form, the original completed form is filed with the Galveston County Clerk (not the Purchasing Agent)

For Proposer's convenience, a blank CIQ Form is enclosed with this proposal Blank CIQ Forms may also be obtained by visiting the Galveston County Clerk's website and/or the Purchasing Agent's website – both of these web sites are linked to the Galveston County homepage, at http //www co galveston tx us

As well, blank CIQ Forms may be obtained by visiting the Texas Ethics Commission website, specifically at http //www ethics state tx us/whatsnew/conflict forms htm

Chapter 176 specifies deadlines for the filing of CIQ Forms (both initial filings and updated filings)

It is Proposer's sole responsibility to file a true and complete CIQ Form with the Galveston County Clerk if Proposer is required to file by the requirements of Chapter 176 Proposer is advised that it is an offense to fail to comply with the disclosure reporting requirements dictated under Chapter 176 of the Texas Local Government Code

If you have questions about compliance with Chapter 176, please consult your own legal counsel Compliance is the individual responsibility of each person, business, and agent who is subject to Chapter 176 of the Texas Local Government Code

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA

Use Form W-9 only if you are a U S person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to

1 Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),

2 Certify that you are not subject to backup withholding, or

3 Claim exemption from backup withholding if you are a U S exempt payee If applicable, you are also certifying that as a U S person, your allocable share of any partnership income from a U S trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9

Definition of a U.S. person. For federal tax purposes, you are considered a U S person if you are

- An individual who is a U S citizen or U S resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301 7701-7)

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax Therefore, if you are a U S person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U S status and avoid withholding on your share of partnership income

The person who gives Form W-9 to the partnership for purposes of establishing its U S status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States is in the following cases

- The U S owner of a disregarded entity and not the entity,

21

- The U S grantor or other owner of a grantor trust and not the trust, and
- The U S trust (other than a grantor trust) and not the beneficiaries of the trust

Foreign person. If you are a foreign person, do not use Form W-9 Instead, use the appropriate Form W-8 (see Publication 515, Withholding of Tax on Nonresident Aliens and Foreign Entities)

Nonresident alien who becomes a resident alien. Generally, only a nonresident alien individual may use the terms of a tax treaty to reduce or eliminate U S tax on certain types of income However, most tax treaties contain a provision known as a "saving clause " Exceptions specified in the saving clause may permit an exemption from tax to continue for certain types of income even after the payee has otherwise become a U S resident alien for tax purposes

If you are a U S resident alien who is relying on an exception contained in the saving clause of a tax treaty to claim an exemption from U S tax on certain types of income, you must attach a statement to Form W-9 that specifies the following five items

1 The treaty country Generally, this must be the same treaty under which you claimed exemption from tax as a nonresident alien

2 The treaty article addressing the income

3 The article number (or location) in the tax treaty that contains the saving clause and its exceptions

4 The type and amount of income that qualifies for the exemption from tax

5 Sufficient facts to justify the exemption from tax under the terms of the treaty article

Example. Article 20 of the U S -China income tax treaty allows an exemption from tax for scholarship income received by a Chinese student temporarily present in the United States Under U S law, this student will become a resident alien for tax purposes if his or her stay in the United States exceeds 5 calendar years However, paragraph 2 of the first Protocol to the U S -China treaty (dated April 30, 1984) allows the provisions of Article 20 to continue to apply even after the Chinese student becomes a resident alien of the United States A Chinese student who qualifies for this exception (under paragraph 2 of the first protocol) and is relying on this exception to claim an exemption from tax on his or her scholarship or fellowship income would attach to Form W-9 a statement that includes the information described above to support that exemption

If you are a nonresident alien or a foreign entity not subject to backup withholding, give the requester the appropriate completed Form W-8

What is backup withholding? Persons making certain payments to you must under certain conditions withhold and pay to the IRS 28% of such payments This is called "backup withholding " Payments that may be subject to backup withholding include interest, tax-exempt interest, dividends, broker and barter exchange transactions, rents, royalties, nonemployee pay, and certain payments from fishing boat operators Real estate transactions are not subject to backup withholding

You will not be subject to backup withholding on payments you receive if you give the requester your correct TIN, make the proper certifications, and report all your taxable interest and dividends on your tax return

Payments you receive will be subject to backup withholding if:

1 You do not furnish your TIN to the requester,

2 You do not certify your TIN when required (see the Part II instructions on page 3 for details),

3 The IRS tells the requester that you furnished an incorrect TIN,

4 The IRS tells you that you are subject to backup withholding because you did not report all your interest and dividends on your tax return (for reportable interest and dividends only), or

5 You do not certify to the requester that you are not subject to backup withholding under 4 above (for reportable interest and dividend accounts opened after 1983 only)

Certain payees and payments are exempt from backup withholding See the instructions below and the separate instructions for the Requester of Form W-9

Also see *Special rules for partnerships* on page 1

Penalties

Failure to furnish TIN. If you fail to furnish your correct TIN to a requester, you are subject to a penalty of $50 for each such failure unless your failure is due to reasonable cause and not to willful neglect

Civil penalty for false information with respect to withholding If you make a false statement with no reasonable basis that results in no backup withholding, you are subject to a $500 penalty

Criminal penalty for falsifying information. Willfully falsifying certifications or affirmations may subject you to criminal penalties including fines and/or imprisonment

Misuse of TINs. If the requester discloses or uses TINs in violation of federal law, the requester may be subject to civil and criminal penalties

Specific Instructions

Name

If you are an individual, you must generally enter the name shown on your income tax return However, if you have changed your last name, for instance, due to marriage without informing the Social Security Administration of the name change, enter your first name, the last name shown on your social security card, and your new last name

If the account is in joint names, list first, and then circle, the name of the person or entity whose number you entered in Part I of the form

Sole proprietor. Enter your individual name as shown on your income tax return on the "Name" line You may enter your business, trade, or "doing business as (DBA)" name on the "Business name" line

Limited liability company (LLC). Check the "Limited liability company" box only and enter the appropriate code for the tax classification ("D" for disregarded entity, "C" for corporation, "P" for partnership) in the space provided

For a single-member LLC (including a foreign LLC with a domestic owner) that is disregarded as an entity separate from its owner under Regulations section 301 7701-3, enter the owner's name on the "Name" line Enter the LLC's name on the "Business name" line

For an LLC classified as a partnership or a corporation, enter the LLC's name on the "Name" line and any business, trade, or DBA name on the "Business name" line

Other entities. Enter your business name as shown on required federal tax documents on the "Name" line This name should match the name shown on the charter or other legal document creating the entity You may enter any business, trade, or DBA name on the "Business name" line

Note. You are requested to check the appropriate box for your status (individual/sole proprietor, corporation, etc)

Exempt Payee

If you are exempt from backup withholding, enter your name as described above and check the appropriate box for your status, then check the "Exempt payee" box in the line following the business name, sign and date the form

Generally, individuals (including sole proprietors) are not exempt from backup withholding Corporations are exempt from backup withholding for certain payments, such as interest and dividends

Note. If you are exempt from backup withholding, you should still complete this form to avoid possible erroneous backup withholding

The following payees are exempt from backup withholding

1 An organization exempt from tax under section 501(a), any IRA, or a custodial account under section 403(b)(7) if the account satisfies the requirements of section 401(f)(2),

2 The United States or any of its agencies or instrumentalities,

3 A state, the District of Columbia, a possession of the United States, or any of their political subdivisions or instrumentalities,

4 A foreign government or any of its political subdivisions, agencies, or instrumentalities, or

5 An international organization or any of its agencies or instrumentalities

Other payees that may be exempt from backup withholding include

6 A corporation,

7 A foreign central bank of issue,

8 A dealer in securities or commodities required to register in the United States, the District of Columbia, or a possession of the United States,

9 A futures commission merchant registered with the Commodity Futures Trading Commission,

10 A real estate investment trust,

11 An entity registered at all times during the tax year under the Investment Company Act of 1940,

12 A common trust fund operated by a bank under section 584(a),

13 A financial institution,

14 A middleman known in the investment community as a nominee or custodian, or

15 A trust exempt from tax under section 664 or described in section 4947

The chart below shows types of payments that may be exempt from backup withholding The chart applies to the exempt payees listed above, 1 through 15

IF the payment is for . . .	THEN the payment is exempt for .
Interest and dividend payments	All exempt payees except for 9
Broker transactions	Exempt payees 1 through 13 Also, a person registered under the Investment Advisers Act of 1940 who regularly acts as a broker
Barter exchange transactions and patronage dividends	Exempt payees 1 through 5
Payments over $600 required to be reported and direct sales over $5,000[1]	Generally, exempt payees 1 through 7[2]

[1]See Form 1099-MISC, Miscellaneous Income, and its instructions

[2]However, the following payments made to a corporation (including gross proceeds paid to an attorney under section 6045(f), even if the attorney is a corporation) and reportable on Form 1099-MISC are not exempt from backup withholding medical and health care payments, attorneys' fees, and payments for services paid by a federal executive agency

Part I. Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. If you are a resident alien and you do not have and are not eligible to get an SSN, your TIN is your IRS individual taxpayer identification number (ITIN) Enter it in the social security number box If you do not have an ITIN, see *How to get a TIN* below

If you are a sole proprietor and you have an EIN, you may enter either your SSN or EIN However, the IRS prefers that you use your SSN

If you are a single-member LLC that is disregarded as an entity separate from its owner (see *Limited liability company (LLC)* on page 2), enter the owner's SSN (or EIN, if the owner has one) Do not enter the disregarded entity's EIN If the LLC is classified as a corporation or partnership, enter the entity's EIN

Note. See the chart on page 4 for further clarification of name and TIN combinations

How to get a TIN. If you do not have a TIN, apply for one immediately To apply for an SSN, get Form SS-5, Application for a Social Security Card, from your local Social Security Administration office or get this form online at *www ssa gov* You may also get this form by calling 1-800-772-1213 Use Form W-7, Application for IRS Individual Taxpayer Identification Number, to apply for an ITIN, or Form SS-4, Application for Employer Identification Number, to apply for an EIN You can apply for an EIN online by accessing the IRS website at *www irs gov/businesses* and clicking on Employer Identification Number (EIN) under Starting a Business You can get Forms W-7 and SS-4 from the IRS by visiting *www irs gov* or by calling 1-800-TAX-FORM (1-800-829-3676)

If you are asked to complete Form W-9 but do not have a TIN, write "Applied For" in the space for the TIN, sign and date the form, and give it to the requester For interest and dividend payments, and certain payments made with respect to readily tradable instruments, generally you will have 60 days to get a TIN and give it to the requester before you are subject to backup withholding on payments The 60-day rule does not apply to other types of payments You will be subject to backup withholding on all such payments until you provide your TIN to the requester

Note. Entering "Applied For" means that you have already applied for a TIN or that you intend to apply for one soon

Caution: *A disregarded domestic entity that has a foreign owner must use the appropriate Form W-8*

Part II. Certification

To establish to the withholding agent that you are a U S person, or resident alien, sign Form W-9 You may be requested to sign by the withholding agent even if items 1, 4, and 5 below indicate otherwise

For a joint account, only the person whose TIN is shown in Part I should sign (when required) Exempt payees, see *Exempt Payee* on page 2

Signature requirements. Complete the certification as indicated in 1 through 5 below

1. Interest, dividend, and barter exchange accounts opened before 1984 and broker accounts considered active during 1983. You must give your correct TIN, but you do not have to sign the certification

2. Interest, dividend, broker, and barter exchange accounts opened after 1983 and broker accounts considered inactive during 1983. You must sign the certification or backup withholding will apply If you are subject to backup withholding and you are merely providing your correct TIN to the requester, you must cross out item 2 in the certification before signing the form

3 Real estate transactions. You must sign the certification You may cross out item 2 of the certification

4. Other payments. You must give your correct TIN, but you do not have to sign the certification unless you have been notified that you have previously given an incorrect TIN "Other payments" include payments made in the course of the requester's trade or business for rents, royalties, goods (other than bills for merchandise), medical and health care services (including payments to corporations), payments to a nonemployee for services, payments to certain fishing boat crew members and fishermen, and gross proceeds paid to attorneys (including payments to corporations)

5 Mortgage interest paid by you, acquisition or abandonment of secured property, cancellation of debt, qualified tuition program payments (under section 529), IRA, Coverdell ESA, Archer MSA or HSA contributions or distributions, and pension distributions. WAGE DETERMINATION APPEALS PROCESS

1) Has there been an initial decision in the matter? This can be

* an existing published wage determination
* a survey underlying a wage determination
* a Wage and Hour Division letter setting forth a position on a wage determination matter
* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2) and 3) should be followed

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations Write to

SECTION IV

General Terms and Conditions

GENERAL TERMS AND CONDITIONS

1 COUNTY AS OWNER

The word "County" in this contract refers to the County of Galveston

2 CONTRACTOR

The word "Contractor" refers to the person or entity agreeing to perform the work in this contract

3 PROGRAM ADMINISTRATOR

The term "Program Administrator" refers to the person designated by County to act on its behalf in administering this contract

4 STATUS OF CONTRACTOR

The Contractor shall at all times be considered to be an independent contractor, and will not hold itself or its employees out to be employees or agents of the County of Galveston

The Contractor shall provide, at the Contractor's expense, competent, full-time supervision of the work while actually in progress

5 ASSIGNMENT AND SUBLETTING

The Contractor will retain full control over this contract and will not assign or subcontract said contract without the prior written consent of the County. The Contractor further agrees that the subcontracting any portion or feature of the work shall not relieve the Contractor from its full obligations under this contract

6 EQUAL OPPORTUNITY

The Contractor and all Subcontractors shall not discriminate against any employee or applicant for employment because of race, religion, color, sex, or national origin

The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices setting forth the policies of non-discrimination

7 **CONTRACT**

This contract consists of the following documents, Invitation to Bid, Instructions to Bidders, Bid Proposal, Contract Award, Special Terms and Conditions (including specifications, drawings and addenda), General Terms and Conditions, and any other documents referenced herein or attached hereto for the work Collectively these documents may also be referred to as the Plans and Specifications

8 **DISCREPANCIES AND OMISSIONS**

In the event of any discrepancy between the Plans and Specifications, or otherwise, or in the event of any doubt as to the meaning and intent of any portion of the Plans and Specifications, the Program Administrator shall define which is intended to apply to the work Such definition shall be final and binding on Contractor

9 **COLLATERAL CONTRACT**

The County reserves the rights to provide by separate contract or otherwise, in such manner as not to delay its programs or damage said Contractor, all labor and material essential to the completion of the work that is not included in this contract

10 **TIME**

The Contractor is advised that time for completion will consist of the number of calendar days set out in the Contract Award

The time for completion will begin to run on the day after the issuance of a notice to proceed by the Program Administrator The Contractor is required to start work no later than ten (10) working days after the issuance of the written notice to proceed Failure to timely commence operations may be deemed by the County to be a default The Contractor will complete the work at that site within the time period specified If there is more than one site listed on the notice to proceed, work for all sites must be completed not later than is specified for each site by the Program Administrator

11 **TIME AND ORDER OF COMPLETION**

The Contractor will commence work within ten (10) working days after the issuance of the notice to proceed and will substantially complete it within the time specified in the Contract Award

By the term "substantially completed" is meant that work shall be fully completed with the exception of minor miscellaneous work and adjustment

12 **EXTENSION OF TIME**

Should the Contractor be delayed in the completion of the work by an act or neglect of the County or Program Administrator, or by any employee of either, or by other Contractors employed by the County, or by changes ordered in the work, or by strikes, lockouts, fire, or unusual delays by common carriers, or unavoidable cause or causes beyond the Contractor's control or by any cause which the Program Administrator shall decide justifies the delay, then an extension of time shall be allowed for completing the work sufficient to compensate for the delay The Contractor shall give the Program Administrator prompt notice in writing of the cause of such delay The amount of the extension will be determined by the Program Administrator

13 **LOSSES FROM NATURAL CAUSES**

All damage to the work from the action of the elements, or from any unforeseen circumstances in the prosecution of the work shall be repaired by the Contractor at his own cost

14 **KEEPING OF PLANS AND SPECIFICATIONS ACCESSIBLE**

The Contractor shall keep one (1) copy of all Plans and Specifications constantly accessible at the work site and available for inspection at all times

15. **PERFORMANCE OF WORK**

All work shall be performed and completed in a thorough, workmanlike manner and in accordance with the latest proven practices of the trade by thoroughly skilled and experienced workers

16. **STORAGE AND CLEANUP**

The County does not assume responsibility for any materials, tools, or equipment stored on or about the worksite The worksite shall be cleared of debris by the Contractor continuously through the progress of the work and also upon final completion of the work

17 **WORKING HOURS**

Contractor may perform work twenty four hours a day, seven days a week, unless otherwise restricted by the Special Conditions of this contract

18 **WORKSITE SECURITY**

Contractor shall maintain the security of the worksite and shall restrict access to the site to the following

a) its employees,
b) employees of subcontractors,
c) representatives of manufacturers whose goods are utilized in the work and are called to the site by either the Contractor or the Program Administrator, and
d) agents and/or employees of the County

Contractor shall provide adequate protection to persons on the worksite, adjacent properties, and utilities as is necessary to keep each free of damage or injury Contractor shall furnish all barricades, warning lights and other safety devices necessary for the safety and protection of the public and shall remove them upon completion of the work performed on those premises under the terms of this contract

Contractor will have complete control over the work site and shall be fully responsible for any loss of or damage to any County property from any cause and will reimburse County in the event of any loss or damage to County's property from any cause

Contractor shall take proper means to protect adjacent or adjoining properties which might be injured or seriously effected by construction undertaken under this Agreement from any damage or injury by reason of said process of construction Contractor shall be liable for any and all claims for such damage on account of its failure to fully protect all adjoining properties

19 **ALCOHOL/DRUG FREE WORKPLACE**

The County is committed to maintaining an alcohol and drug free workplace Possession, use or being under the influence of alcohol or controlled substances by the Contractor's employees while in the performance of this Contract is prohibited Violation of this requirement shall constitute grounds for immediate termination of the contract

20 **LABOR**

Contractor is encouraged to use local labor, but not at the expense of poor workmanship and higher cost

Contractor will not discriminate against any employee or applicant for employment because of race, religion, creed, color or national origin. Contractor agrees to post in a conspicuous place a notice setting forth provisions of this non-discrimination clause

In the event of Contractor's non-compliance with the non-discrimination

clause of this contract, the contract entered into may be canceled in whole or in part

21 **WAGE RATES**

This Contract is a Public Works Contract governed by V T C A , Government Code, Chapter 2258 That Act requires Contractor to pay workers not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the work is performed and not less than the general prevailing rate of per diem wages for legal holiday and overtime work

Prevailing wage rates determined by the United States Department of Labor in accordance with the Davis-Bacon Act (40 U.S.C Section 276a et seq) are used in this contract and are incorporated and made a part hereof

In the event other crafts or types of workers are required than are listed therein, such workers shall be paid at a rate not less than the prevailing rate for similar workers in the Galveston County area

Contractor acknowledges that

A) Pursuant to V T C A , Government Code §2258 022, a violation of the obligation to pay workers the prevailing wages shall result in Contractor paying the County the amount of $60 00 for each worker employed for each calendar day or part of the day that the worker is paid less than the wage rates stipulated in the Contract, and

B) Contractors and Subcontractors shall be required to keep a record showing the name and occupation of each worker employed by Contractor or Subcontractor in the construction of the work called for in the contract and the actual per diem wages paid to each worker. The record shall be open at all reasonable hours to inspection by the officers and agents of the County

Contractor represents it has read this law and the penalties provided prior to entering into this agreement

22 **UTILITIES**

Contractor shall be responsible for any charges which may be made by any city or utility companies for the work to be performed by Contractor.

23 **PARKING**

Contractor shall be responsible for the expense of parking the Contractor's vehicle(s) in a legal manner and at no expense or inconvenience to the County

24 **FIRE AND SAFETY**

Contractor is completely responsible for fire protection at the job site as well as the safety of its own employees as well as those entering onto the job site

25 **CONTRACTOR'S BUILDINGS**

The building of structures for housing men, or the erection of tents or other forms of protection will be permitted only at such places as the Program Administrator shall permit, and the sanitary conditions of the grounds in or about such structures shall at all times be maintained in the manner satisfactory to the Program Administrator

26 **INSURANCE**

Contractor shall obtain and pay for insurance set forth below prior to commencing work, and shall file with the Program Administrator certificates or copies of policies for approval and as proof of coverage

The above requirements do not establish limits of Contractor's liability

Contractor shall at all times during the term of this contract and any extensions thereof maintain such insurance coverage

Such insurance is to be provided at the sole cost of Contractor

All policies of insurance shall waive all rights of subrogation against County **and the City of Friendswood**, its officers, employees and agents.

The County **and the City of Friendswood** shall be named as "additional insured" on such policies as are specified above

The County **and the City of Friendswood** reserves the right to require additional insurance should it be deemed necessary

27. **SANITATION**

Necessary sanitary conveniences for the use of laborers at the worksite, properly secluded from the public observation, shall be constructed and maintained by Contractor in such manner at such points as shall be approved by the Program Administrator, and their use shall be strictly enforced

28 **DAILY CLEANUP**

Contractor shall confine to the work site all materials and refuse generated by Contractor's operations Materials which are stored on-site shall be stored in an orderly manner Materials or refuse from demolition and/or removal operations which become

scattered in adjacent areas shall be collected and returned to the work site and satisfactorily removed Truck hauling materials must be covered to keep materials from littering streets

29 **FINAL GRADING**

If grading is required, when work is complete, Contractor shall grade the site to fill in holes and make a presentable appearance without disturbing trees and add fill dirt if needed Contractor may not leave voids in the grading and compaction of the property The land shall have a smooth appearance without concrete, bricks, building materials, and other debris on the surface

30 **RIGHT OF ENTRY**

County reserves the right to enter the property or location at which the work is being conducted, by such agents as it may elect, for the purpose of inspecting the work, or for the purpose of constructing or installing such collateral work as County may desire, or for any other purpose deemed necessary by County

31 **INSPECTION**

County reserves the right to inspect the work done by Contractor at any time.

The inspection may include examination of the material furnished and the work done under this agreement to ensure compliance with the plans and specifications

Contractor shall furnish all reasonable aid and assistance required by the inspector(s) for the proper inspection and examination of the work The inspector(s) may make any order requiring remedy of deficient performance at any time Should Contractor object to any order by any inspector, Contractor may, within 24 hours, make written appeal to the Program Administrator for his decision, which decision shall be final and binding on Contractor

The approval or failure of an inspector to reject non complying work or materials shall not relieve Contractor of his obligation to perform the work in full compliance with the plans and specifications for the work

Contractor shall be responsible for the costs associated by the exposing and covering of any item of concealed work for which an inspection is performed

32 **DEFECTS AND THEIR REMEDIES**

It is further agreed that if the work or any part thereof, or any material brought on the ground for use in the work or selected for the same, shall be deemed by the Program Administrator as unsuitable or not in conformity with the specifications

Contractor shall, after receipt of written notice thereof from the Program Administrator, forthwith remove such material and rebuild or otherwise remedy such work so that it shall be in full accordance with this contract

33 **SUBSTANTIAL COMPLETION**

When the Contractor determines that the work is substantially complete, he shall advise the Program Administrator of such and schedule a time for the Program Administrator to inspect the work Contractor shall have all systems fully functional and operational for the inspection of the Program Administrator All phases of the work will be examined by the Program Administrator, who will note any deficiencies in the work and notify Contractor of the same

The Program Administrator may acknowledge that the project is substantially complete if the work has been completed to the point where the work can be utilized for the general purpose for which it was undertaken, however, if the project is found not to be substantially complete, the Program Administrator will so advise the contractor

34 **FINAL COMPLETION AND ACCEPTANCE**

Within ten (10) days after Contractor has given the Program Administrator written notice that the work has been completed, or substantially completed, the Program Administrator shall inspect the work and, within said time, if the work be found to be completed or substantially completed in accordance with the plans and specifications, the Program Administrator shall issue a substantial completion certificate

Should such inspection reveal deficiencies on the work, the Program Administrator will deliver a list of deficiencies to Contractor for immediate repair No final payment will be made until all deficiencies have been remedied

35 **PARAGRAPH 35 HAS BEEN DELETED**

36 **PROGRESS PAYMENTS AND RETAINAGE**

If this contract provides for the making of progress payments, Contractor shall make application to County for payment utilizing forms provided by County for that purpose Contractor shall state the percentage or the limits of the work performed and request payment for the amount of acceptable work performed Applications for payment shall be made monthly by Contractor

The County shall then pay the Contractor per the provisions of Texas Government Code, Chapter 2251, on or before 30 days thereafter, the total amount of the request, less 5% of the amount thereof, which 5% shall be retained until final payments, and further less all previous payments, and further less all further sums that may be retained by the County under the terms of this agreement

Upon the attainment of substantial completion, payment will be made so that the sum of all payments made under the contact equals Ninety Five Percent (95%) of the total contract amount

37 **ESTIMATED QUANTITIES**

This Contract, including the specifications, plans and estimates, is intended to show clearly all the work to be done and material to be furnished hereunder The estimated quantities of the various classes of work to be done and material to be furnished under this contract are approximate and are to be used as a basis for estimating the probable cost of the work and for comparing the proposals offered for the work It is understood and agreed that the actual amount of work to be done and material to be furnished under this contract may differ somewhat from these estimates, and that the basis for payment under this contract shall be the plan quantity or actual amount of such work done whichever is specified It is further understood that the County does not guarantee any minimum amount of work under this Contract.

Contractor agrees that it will make no claim for damages, anticipated profits or otherwise on account of any differences which may be found between the quantities of work actually done, the material actually furnished under this Contract and the estimated quantities contemplated and contained in the proposals

38 **CHANGES AND ALTERATIONS**

Contractor further agrees that Program Administrator may make such changes and alterations as County may see fit, in the line, grade, form dimensions, plans or materials for the work herein contemplated, or any part thereof, either before or after the beginning of the contract construction, without affecting the validity of this Contract and the accompanying bonds

If such changes or alterations diminish the quantity of the work to be done, they shall not constitute the basis for a claim for damages, or anticipated profits on the work that may be dispensed with If they increase the amount of the work, and the increased work can fairly be classified under the specifications, such increase shall be paid for according to the quantity actually done and at the unit price established for such work under this contract, otherwise such additional work shall be paid for as provided under the paragraph entitled "EXTRA WORK" In case Program Administrator shall make such changes or alterations as shall make useless any work already done or material already furnished or used in said work, then County shall recompense Contractor for any material or labor so used, and for any actual loss occasioned by such change due to actual expenses incurred in preparation for the work as originally planned

39 **EXTRA WORK**

The term "Extra Work" as used in this contract shall be understood to mean

and include all work that may be required by the Program Administrator to be done by Contractor to accomplish any change, alteration or addition to the work shown in the plans and specifications

It is agreed that Contractor shall perform all Extra Work under the direction of the Program Administrator when presented with a Written Work Order signed by the Program Administrator subject, however, to the right of Contractor to require a written confirmation of such Extra Work Order by the County Commissioners' Court It is also agreed that the compensation to be paid Contractor for performing said Extra Work shall be determined by one or more of the following methods

Method (a) - By agreed unit prices, or
Method (b) - By agreed lump sum or
Method (c) - If Neither Method (a) nor Method (b) can be agreed upon before the Extra Work is commenced, then Contractor shall be paid the "Actual field cost" of the work plus fifteen (15) percent

In the event said Extra Work be performed and paid for under Method (c), then the provisions of this paragraph shall apply and the "actual field cost" is hereby defined to include the cost of all workmen, such as foremen, timekeepers, merchants, and laborers, and materials, supplies, teams, trucks, rentals on machinery and equipment for time actually employed or used on such Extra Work plus actual transportation charges necessarily incurred, if the kind of equipment or machinery is not already on the job, together with all power, fuel, lubricants, water and similar operating expenses, also all necessary incidental expenses incurred directly on account of such Extra Work including Social Security, Old Age Benefits and other payroll taxes, and a ratable proportion of premiums on Construction and Maintenance Bonds, Public Liability and Property Damage and Workmen's Compensation, and all other insurance as may be required by any law or ordinance, or directed by the Program Administrator or by him agreed The Program Administrator may direct the form in which accounts of the "actual field cost" shall be kept and may also specify in writing, before the work commences, the method of doing the work and the type and kind of machinery and equipment to be used, otherwise these matters shall be determined by Contractor Unless otherwise agreed upon, the prices for the use of machinery and equipment shall be determined by using the one hundred (100) percent of the actual hourly or daily rate (for the time used plus time in moving to and from Job) of the latest schedule of Equipment Ownership Expense adopted by the Association General Contractors of America Where practicable the terms and prices for the use of Machinery and Equipment shall be incorporated in the Written Extra Work Order The fifteen (15) percent of the "Actual Field Cost" to be paid Contractor shall cover and compensate him for his profit, overhead, general superintendence and field office expense, and all other elements of cost and expense not embraced within the 'actual field cost" as herein defined, save that where the Contractor's Camp or Field Office must be maintained primarily on account of such extra work, then the cost to maintain and operate same shall be included in the "actual field cost"

No claim for extra work of any kind will be allowed unless ordered in writing

by the Program Administrator In case any orders or instructions, either oral or written appear to Contractor to involve extra work for which he should receive compensation, it shall make written request to the Program Administrator for written order authorizing Extra Work Should a difference of opinion arise as to what does or does not constitute extra work, or as to the payment therefor, and the Program Administrator insists upon its performance, Contractor shall proceed with the work after making written order and shall keep an accurate account of the "actual field cost" thereof, as provided under Method (c) and by this action Contractor will thereby preserve the right to submit the matter of payment to litigation

40 **FINAL PAYMENT**

Upon the issuance of the approval for payment, the Program Administrator shall certify same to County, who shall pay to Contractor the balance due Contractor under the terms of this agreement, provided it has fully performed its contractual obligations under the terms of this contract, and has provided County with a release of liens from all materialmen, suppliers and subcontractors utilized in the work

41 **HINDRANCES AND DELAYS**

No charge shall be made by Contractor for hindrances or delays from any cause (except when work is stopped by order of the County) during the progress of any portion of the work embraced in this contract In case said work shall be stopped by the act of Program Administrator then such expense as in the judgment of the Program Administrator is caused by stopping of said work shall be paid by County to Contractor

42 **TIME OF FILING CLAIMS**

It is further agreed by both parties hereto that all questions of dispute or adjustment presented by Contractor shall be in writing and filed with the Program Administrator within a reasonable time after the Program Administrator has given any directions, order, or instruction to which Contractor desires to take exception The Program Administrator shall reply to such written exceptions by Contractor and render his final decision in writing

43 **LIQUIDATED DAMAGES FOR DELAY**

Contractor agrees that time is of the essence of this contract and that for each day of a delay of a day beyond the number of working days or calendar days herein agreed upon the completion of the work herein specified and contracted for (after due allowance for such extension of time as is provided for under Extension of Time hereinabove) County may withhold permanently from Contractor's total compensation the sum specified in the special conditions as liquidated damages for such delay

44 **ABANDONMENT BY CONTRACTOR**

Should Contractor fail to start or resume work within ten (10) days after written notification from the Program Administrator or if Contractor fails to comply with a change order or instruction of the Program Administrator, Contractor shall be declared to be in default and the Surety on the bonds shall be notified in writing and directed to complete the work, and a copy of said notice shall be delivered to Contractor

In case the Surety should fail to commence compliance with the notice for completion hereinbefore provided for within ten (10) days after services of such notice, or in the event there is no Surety, then County may provide for completion of the work in any manner it deems appropriate

45 **TERMINATION**

County may terminate this Contract

i immediately by giving written notice, if Contractor breaches its obligation under the Contract, or
ii with or without cause, after giving 30 days written notice of termination to Contractor

In the event this Contract is terminated Contractor will be paid for work satisfactorily completed The amount of such payment will be determined by the Program Administrator

46 **SALVAGE**

Any materials, equipment and fixtures specifically ordered to be salvaged under these specifications shall remain the property of County and will be delivered to the site designated by the Program Administrator. All other items shall be disposed of by Contractor in compliance with all applicable laws and regulations

47 **COMPLIANCE WITH CODES**

Contractor shall comply with all city, county, and state codes, laws, and ordinances in force at the time of award of contract and applicable to such work Contractor shall obtain, at Contractor's own expense such permits, certificates, and licenses as may be required in the performance of the specified work

48 **INDEMNITY**

Contractor shall defend, indemnify, and save whole and harmless Galveston County **and the City of Friendswood**, and it officers, agents, and employees from and against all claims and suits of whatever character, arising from the performance of this contract

49 **PROTECTION AGAINST CLAIMS OF SUBCONTRACTORS, LABORERS, MATERIALMEN AND FURNISHERS OF MACHINERY EQUIPMENT AND SUPPLIES**

Contractor agrees to indemnify and hold County harmless from all claims of subcontractors, laborers, workmen, mechanics, materialmen and furnishers of equipment, and all supplies incurred in the performance of this contract Contractor shall furnish satisfactory evidence that all obligations of the nature hereinabove designated have been paid, discharged or waived If Contractor fails to do so, then County reserves the right to pay unpaid bills of which County has written notice direct and withhold from Contractor's unpaid compensation a sum of money reasonably sufficient to liquidate any and all such lawful claims

50 **PROTECTION AGAINST ROYALTIES, PATENTED INVENTIONS OR PROCESS, OR PATENT INFRINGEMENT**

Contractor shall, at its own expense, settle or defend any claim, suit or action brought against County and shall protect and save harmless County from all and every demand for damages, royalties or fees for any patented invention or process used by it in connection with the work done, process used or material furnished under this Contract, and shall pay any final judgement for damages, attorneys fees and costs which may be awarded against County

51 **LAWS AND ORDINANCES**

Contractor shall at all times observe and comply with all Federal, State and Local Laws, ordinances and regulations which in any manner effect the contract or the work, and shall indemnify and save harmless the County against any claim arising from the violation of any such laws and ordinances, whether by Contractor or its employees

52. **WARRANTY**

Contractor and/or its Surety will be required by County to repair, replace, restore, and/or to make such corrections as are required of it to comply strictly in all things with this contract and the Plans and Specifications and any and all of said work and/or materials, which, within a period of one year from and after the date of the passing, approval, and/or acceptance of any such work or materials, are found to be defective or to fail in any way to comply with this contract or with the Plans and Specifications

53 **PERMITS AND LICENSES**

Contractor shall be responsible for obtaining and furnishing all necessary permits and licenses, City, County, State or Federal as are required for the performance of this contract

54 **NOTICE**

Any notice required or permitted between the parties under this contract must be in writing and shall be delivered in person or mailed, certified mail, return receipt requested, or may be transmitted by fax as follows
to County at

Hon Mark Henry, County Judge
Galveston County Courthouse, 2nd floor
Galveston, TX 77550
Fax (409) 765-2653

and to Contractor at the address listed in Contractor's Bid Proposal

55 **FORCE MAJEURE**

If the performance by County of any of its obligations under this contract is delayed by any occurrence not of its own conduct, whether an act of God or the common enemy or the result of war, riot, civil commotion, sovereign conduct, or the act or conduct of any person not a party or privy to this contract, the County is excused from its performance for a period of time as is reasonably necessary after the occurrence to remedy the effects of the occurrence

56 **APPLICABLE LAWS**

Contractor acknowledges that County is a governmental entity and this Agreement is an open record under the Open Records Act and will be discussed and voted upon in a public meeting

57 **ENTIRETY OF AGREEMENT AND MODIFICATION**

This contract contains the entire agreement between the parties A prior agreement, promise, negotiation or representation not expressly set forth in this contract has no force or effect. A subsequent modification to this contract must be in writing, signed by both parties.

An official representative, employee, or agent of the County does not have authority to modify or amend this contract except pursuant to specific authority to do so granted by the Commissioners' Court

58 **SEVERABILITY; CONFORMITY WITH LEGAL LIMITATIONS**

If a provision contained in this contract is held invalid for any reason, the invalidity does not affect other provisions of the contract that can be given effect without the invalid provision, and to this end the provisions of this contract are severable

59 **GOVERNING LAW; VENUE**

This contract shall be governed by the laws of the State of Texas Venue for an action arising under this contract shall be exclusively in Galveston County

60 **LINES AND GRADES**

The Engineer will furnish points for horizontal and vertical control Any additional stakes required by the Contractor shall be set at his expense Whenever necessary, work shall be suspended to permit this work, but such suspension will be as brief as practicable and the Contractor shall be allowed no extra compensation therefor The Contractor shall give the Engineer ample notice of the time and place where control lines and bench marks will be needed All control stakes, marks, etc shall be carefully preserved by the Contractor, and in case of careless destruction or removal by him or his employees, such control stakes, marks, etc shall be replaced by the Engineer at the Contractor's expense

The following questions have been submitted, and the responses are below

Question The notes on the plans call for full body C110 fittings, but the City of Friendswood PVC spec calls for compact C153 or C110 Is it ok to use the compact C153?
Response Either C110 or C153 may be used

Question Drawing # 87 has details for restrained joint fittings and also a detail for concrete thrust block Do we have to use restrained joint mega lugs on all fittings or only at fire hydrants?
Response Restrained joint mega lugs must be used on all fittings, not just fire hydrants

Question Are water filled barriers acceptable to use in lieu of concrete traffic barriers?
Response No

Question Are there any construction easements along the outfall pipes?
Response No

Question. Addendum #1 changed the 8" Concrete Pavement bid item from CRCP (continuously reinforced concrete pavement) to jointed reinforced concrete pavement Plan Sheet #63 references City of Friendswood Paving Details Plan Sheets #64 & 65 reference TXDOT Jointed Reinforced Concrete Pavement Details Please advise as to which detail sheet will be required on this project
Response The City of Friendswood detail applies to the roadway construction in the Friendswood ROW The TxDOT detail applies to the roadway construction in the TxDOT ROW

Question Will trenchless construction be allowed to install the outfall pipes?
Response Alternative construction methods will be considered and discussed with the low bidder

Mr. Dennis J. Harris
Galveston County
4102 Main Street (FM 519)
La Marque, Texas 77568

Dear Mr Harris.

Enclosed, please find two sets of construction agreements for the 61st Street Boat Ramp renovation project. Please sign both sets of agreements and mail one of the originals back to me We have received the grant agreement with the U S. Fish & Wildlife Service and you are now eligible for reimbursement for the project under the terms of the agreement and program rules. In the near future, I will make arrangements to come to Galveston to see the project site and review the reimbursement procedures with your fiscal staff.

Also enclosed is a copy of our reimbursement procedures. Remember that this is a reimbursement type grant. You complete portions of the project, pay your contractors and submit billings, including proof of payment, to TPWD for reimbursement. Please submit a list and pay rate of any employees that will work on the project for future reimbursement requests.

Call me at 512-389-8128 if you have any questions or concerns.

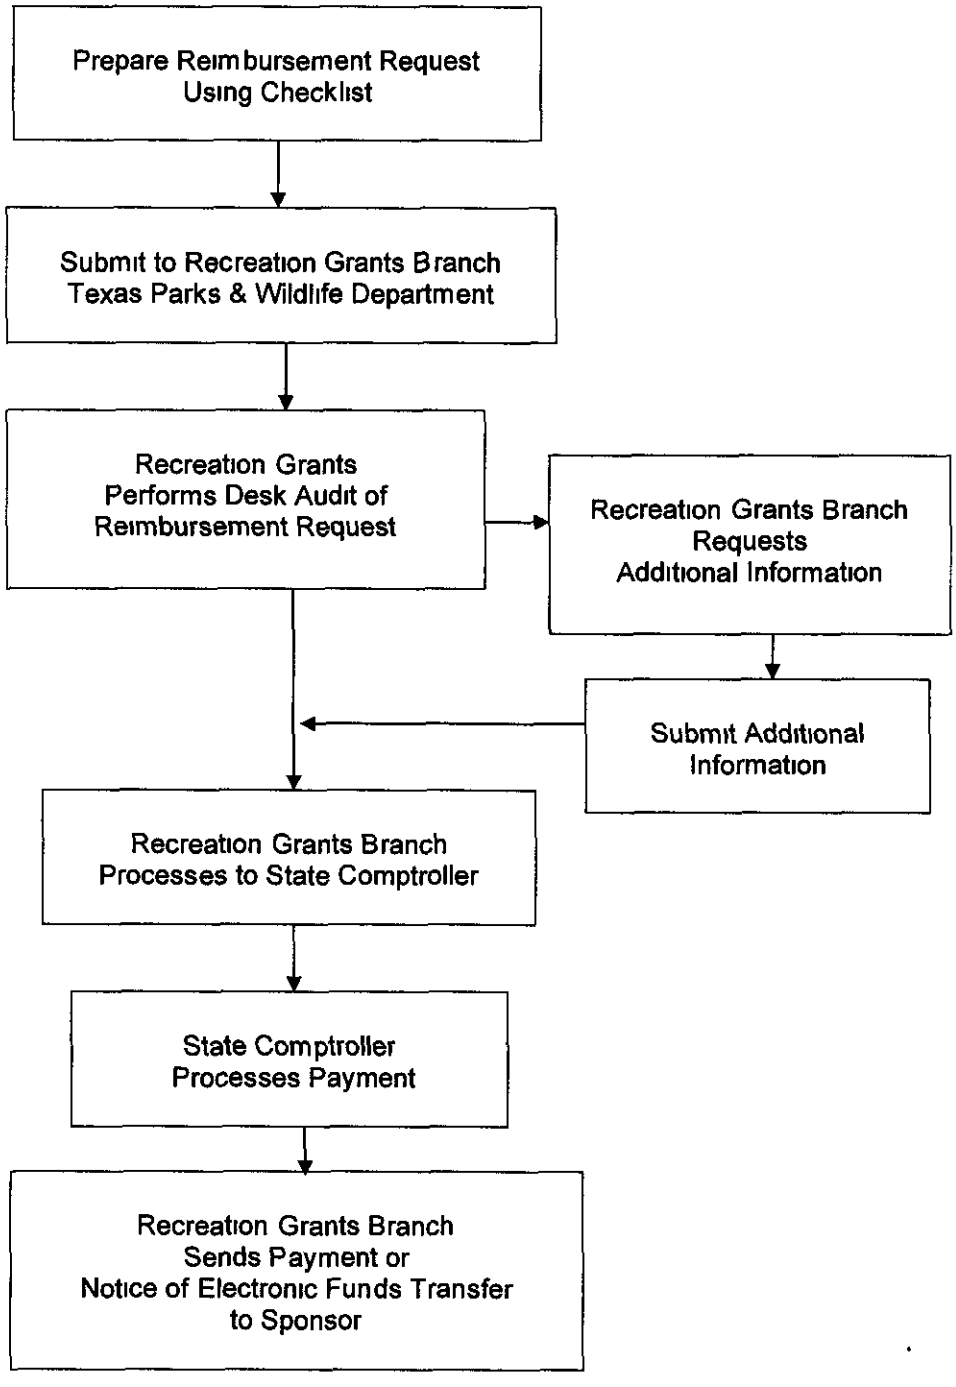
Section 5

REIMBURSEMENT PROCESS

REIMBURSEMENT FLOW CHART



GRANT REIMBURSEMENT PROCEDURES

The following information is a general outline of the procedures for requesting reimbursement under the recreation grant programs Reimbursement is made only after the sponsor has accomplished the work and made the expenditure

It is requested that sponsors submit reimbursement requests on a regular basis, quarterly if possible, to prevent large outstanding grant balances The minimum reimbursement request amount is $10,000 for construction projects

Project sponsors should be aware of their project agreement expiration date Expenses incurred after the expiration date are not eligible for reimbursement Adherence to these procedures will be considered in evaluating your eligibility for future grants

IF ASSISTANCE IS REQUIRED, PLEASE CONTACT THE FISCAL SECTION OF THE RECREATION GRANTS BRANCH

GENERAL REIMBURSEMENT INFORMATION

Since projects differ in scope, the information contained herein can only be of a general nature These procedures are for sponsor use in submitting reimbursement requests for work completed.

A Reimbursement Request Checklist is included for review when submitting reimbursement requests If the eligibility of an expenditure item is not addressed in these guidelines, please contact the Recreation Grants Fiscal Section

In general, the Department will reimburse up to 95% of grant funds before the final inspection Please advise the Recreation Grants Branch, in writing, at the time the final reimbursement request is submitted so that the Department can schedule the final inspection Please refer to the Project Closeout Checklist for further guidance

The sponsor is required to retain financial records for three (3) years after the final reimbursement The sponsor's records are subject to audit

SINGLE AUDIT

It is the responsibility of the grant sponsor to have a Single Audit done annually according to the Texas Single Audit Circular for state funded projects and according to OMB Circular A-133 for federally funded projects A copy of this audit must be furnished to the Department when completed Contact Recreation Grants for any questions regarding this audit

ALLOWABLE EXPENDITURES

Costs must be necessary and reasonable for proper and efficient operation of the grant project, be an allowable expense toward project construction, and not be a general operating expense required to carry out the overall responsibilities of state or local government

Expenditures must be authorized (or not prohibited) under state or local laws and regulations

Expenditures must conform to the limitations of manuals, state law, federal law, or other governing limitations in the agreement as to type or amount of costs

Matching reimbursement of Professional Services is limited to 12% of the total grant construction estimate amount This allows the Department to allocate more funds to recreational facilities Environmental survey costs may be considered above the 12% professional services limit on a case-by-case basis Design fees will not be reimbursed until project construction plans and specifications have been reviewed and accepted by the Department

Appraisal costs are allowable up to 5% of appraisal value or maximum of $10,000 00, whichever is less Appraisal costs are not reimbursable for Land and Water Conservation Fund projects

The sponsor will be notified if eligible expenses are disallowed Items disallowed may be paid on the next reimbursement request if the sponsor provides the information requested and if expenses are justified

NON-ALLOWABLE EXPENDITURES

Expenditures must not be charged or eligible to be charged to any other grant-financed program unless permitted by guidelines administering that particular program

Ceremonial or entertainment expenses

Expenses for publicity (except for competitive bid advertisement)

Charges in excess of the lowest bid, when competitive bidding is required by law, unless the Department agrees in advance to the higher bid

Charges for deficits or overdrafts

Taxes for which the sponsor is not liable to pay

Interest expenses

Damage judgments arising out of the acquisition, construction, or equipping of a facility, whether determined by judicial decision, arbitration, or otherwise

Incidental costs relating to acquisition of real property and of interests in real property, such as the cost of legal fees and relocation costs

Operation and maintenance costs of recreation areas and facilities

The value of personal properties, unless specifically approved in advance by the Department

Cost of discounts not taken and finance charges

Equipment to be used for the maintenance of outdoor recreation areas and facilities, including but not limited to automotive equipment, tractors, mowers, other machinery, and tools

Employee facilities, including residences, appliances, office equipment, furniture, and utensils

Donations or contributions made by the sponsor, such as to a charitable organization

Salaries and expenses and other administrative costs of a political subdivision, not related to project construction

Fines and penalties

Appraisal Costs (for Land and Water Conservation funded projects)

Any costs related to the collection of an unpaid debt

Any indirect costs

SUPPORTING DOCUMENTS

1. **Bid Advertisement and Tabulation**
   A copy of the published bid advertisement and the tabulation of all bids received are required

2. **Contract Documents**
   A copy of the executed contract(s), and all change orders issued on the contract must be submitted

3. **Invoices**
   The invoice must identify the project element for which materials or services are being used For example, if a portion of the invoice is for water system and the other portion for electrical system, a break out of each element must be noted

4. **Contractor's Application for Payment**
   A copy of the contractor's application for payment or voucher must be submitted

5. **Proof of Payment**
   Adequate proof of payment, such as cancelled checks, bank statements, or wire transfers are required for proof of payment The amount charged to the grant project must be clearly defined

6. **Force Account Records**
   When force account costs are reported, the sponsor may use either the Department's Work Record form or their local work records, including computer information, providing required data is submitted with each reimbursement request (It is recommended that the sponsor receive prior format approval) Copies of payroll checks are not necessary, provided all time sheets are certified by the foreman or responsible official Payroll records are subject to audit at the Department's discretion

   A) **Personnel:** The disbursements for this section of the form will be obtained from the sponsor's payroll records Total work hours consolidated weekly or monthly will not be accepted Work records must define actual days and hours worked Daily Work Records are for the sponsor's use, only submit the Weekly Work Record designating days worked to the Department

   B) **Equipment:** A brief description of the equipment, including costs code number assigned, hours/miles used, the established average rate, and total cost is needed

   C) **Recapitulation:** Recapitulation section as shown on the Daily Work Record is to be used for totals of each item The "Miscellaneous" column may be used for fringe benefit percentage

   D) **Certification:** The work record must be certified by the sponsor (Individuals donating labor must sign the work record form as certification)

7. **Certification of Donated Labor or Service**
   When an individual is donating labor or service in their specialized trade such as electrician, brick layer, carpenter, etc , a "Certification of Donated Labor or Service" must be completed and submitted with the signed work record for reimbursement

8. **Spreadsheet**
An accounting spreadsheet prepared by the sponsor is required with each reimbursement request The purpose of this spreadsheet is to disburse project expenditure costs for the billing period to the appropriate project element The spreadsheet will aid the Department in expediting payments

9. **Budget Summary**
A copy of the Budget Summary will be provided by the Department The reported costs of the Budget Summary are the actual project costs to date The total of the "Construction" section will show actual costs, and retainage should be deducted from this total, if it applies, on each summary report The summary will be used for reconciliation of reimbursement requests between the sponsor and the Department The amounts listed in the "Estimate" column for each construction element item are estimates only and are not the limits that may be expended per line item However, reimbursement will not exceed total project agreement cost

   Because a contractor's bid seldom identifies all the construction elements, consultation with the contractor or architect-engineer is usually necessary for proper allocation of costs to the project elements If bids contain work items not in the grant project, they must be identified for audit purposes On a unit price bid, it is requested that the sponsor identify the Budget Summary construction elements for each bid item

10. **Materials Purchasing:** Copies of the Purchase Order or Requisition for materials and equipment will be provided with the cancelled check and invoice when requesting reimbursement

    Purchases made to one vendor over a short period of time, and which exceed the minimum bidding requirement amount, will be considered as falling under competitive bidding laws and will not be reimbursed unless proper bid procedures are followed When a purchase is made under competitive bidding guidelines, submit a copy of the specifications, advertisement for bid, bid tabulation, and executed purchase order for Department review and approval Prior to awarding a contract to other than the lowest bidder, the sponsor must submit in writing, for Department approval, justification as to why the purchase should not be awarded to the lowest bidder

11. **Equipment Use:** The rates established by the Department are derived from the Federal Emergency Management Agency (FEMA) "Schedule of Equipment Rates" available at

    http //www fema gov/government/grant/pa/eqrates shtm

12. **Equipment Rental:** Lease or rental charges on equipment are allowable when it is determined that such an arrangement is the most efficient and economical Equipment that is rented to the sponsor by private contractors may be charged to the grant fund program on an actual cost basis, provided that these rates are equal to those charged to all other users Adequate cost records must be maintained to support these rates

13. **In-Stock Materials:** If the sponsor uses materials from warehouse stock, a list must be furnished to the Department giving description of materials, cost of material, and for what construction element the materials were used Materials must be at actual cost, less discounts, rebates, etc , with no profit to the sponsor The sponsor must maintain inventory, and auditable cost accounting records or confirmation of material cost must be furnished to the Department

CONSTRUCTION METHODS

CONTRACT BID CONSTRUCTION

The sponsor must comply with the Local Government Code Chapters 252, 262, and 375 requirements governing advertisement of bids. It is the responsibility of the sponsor to adhere to all local, state, and federal laws and regulations regarding bidding procedures These procedures generally require award of a construction contract to the lowest qualified bidder Prior to awarding a contract to other than the lowest bidder, the sponsor must submit in writing, for Department approval, justification as to why the contract should not be awarded to the lowest bidder Contract change orders must be forwarded to the Department for review and approval

FORCE ACCOUNT CONSTRUCTION

Construction performed by the sponsor's own work force including work provided by other governments must be recorded and certified on work record forms

The sponsor must ensure that the employee is not being paid from ineligible sources of funding

Fringe benefits paid by the sponsor such as FICA, insurance, and retirement, are allowable expenses, but the method of determination must be documented Fringe benefits may be computed on a percentage of total payroll, provided the method of determination is approved The sponsor's payroll records may be verified at the final audit/inspection

CONSTRUCTION BY DONATION

Labor or Services: The value of donations may be used only to meet cost sharing or matching requirements The Department must be assured that the donation is at actual cost The sponsor may not make a profit from any donation claimed on the grant

Donated labor or services will be recognized for matching purposes at the local common laborer wage, minimum wage or wage the sponsor pays that type of employee or service The force account work record form may be used for documenting donated labor provided the individual donating the labor or service certifies by signature that the hours worked are correct The sponsor's project officer or supervisor is also required to certify the work record

If an individual is donating labor or services in their trade such as an electrician, brick layer, carpenter, etc , reimbursement will be based on the prevailing wage paid in the locality for that specialized trade The "Certification of Donated Labor or Service" form must be completed and submitted with a signed force account work record

Labor performed by individuals from correctional institutions must be documented in writing by an officer of the correctional institution

Materials: Donated materials will be recognized for matching purposes at the actual cost or at the normal price charged by a vendor All vendors donating materials must submit an invoice and a signed letter stating that they are making a donation and that the invoiced amount is the actual price of goods or services normally charged all customers

Equipment: Donated equipment use will be recognized for matching purposes at rates established by the Department, providing that the firm is not in the equipment rental business If equipment is donated from a rental agency, the donor must submit an invoice and signed letter stating that the invoiced amount is the normal price charged all customers

LOCAL GOVERNMENT PURCHASING COOPERATIVE

The Local Government Purchasing Cooperative is an administrative agency created in accordance with Texas Government Code Chapter 791 (Inter-local Cooperation Contracts) "A local government that purchases goods and services under this section satisfies the requirement of the local government to seek competitive bids for the purchase of the goods and services " Its purpose is to obtain the benefits and efficiencies that can accrue to members or a cooperative, to comply with state bidding requirements, and to identify qualified vendors of commodities, goods, and services Membership is free and open to all local governments, non-profits, and other political subdivisions of the state of Texas

LAND ACQUISITION REIMBURSEMENT CHECKLIST

After grant approval and Recreation Grants Branch approval of an independent appraisal prepared in accordance with the program procedures, the following information is required before payment can be made to the sponsor for acquisition projects

____ 1 Project Construction Plans and Specifications must be accepted by the Department before reimbursement will be made for land donations

____ 2 Statement of Just Compensation/Waiver for land purchases and/or,

____ 3 Statement of Donor/Waiver for land donations

____ 4 Proof of ownership and legal rights obtained One photocopy of the executed, recorded deed

____ 5 Title Policy (if obtained)

____ 6 Proof of payment

____ 7 Budget Summary showing acquisition value of the land

____ 8 A current status report must be on file

Treatment of Land Donation Reimbursement after Expenditures Submitted

Sponsors may not make a profit from donations Land donations will be recognized for matching purposes after the sponsor has made other cash payments for the project The matchable amount for land donation equals the amount of the cash expenditures or the value of the land donation as approved by the Department, whichever is less

REIMBURSEMENT REQUEST CHECKLIST

The sponsor should review this checklist carefully before submitting each request Reimbursement requests not meeting the prescribed format will be returned to the sponsor

____ 1 **Plans and Permits:** Construction plans must be accepted by the Department and on file for each construction element of the project for which reimbursement is requested Registration of the project with TDLR is required before reimbursement All other required permits and clearances should be on file with TPWD

____ 2 **Bid Advertisement and Tabulation of All Bids Received:** For expenditures requiring competitive bidding, a copy of the bid advertisement and a copy of the bid tabulation listing all bidders and bid amounts are requested

____ 3 **Contract Documents:** A copy of the executed contract(s) and all change orders issued on the contract(s) must be filed with the Department

____ 4 **Invoices:** All invoices must be legible and must identify the project element for which materials or services are being used A copy of each invoice must be submitted with proof of payment

____ 5 **Contractor's Payment Voucher:** A copy of the contractor's estimate must be furnished to the Department supporting the proof of payment

____ 6 **Proof of Payment:** Adequate proof of payment is required, such as cancelled checks, bank statement, or wire transfers

____ 7 **Force Account Work Record:** The sponsor may use either the Department's Daily or Weekly Work Record, or their own Include the supervisor's signature Submit copies of Weekly Work Record only

____ 8 **Certification of Donated Labor or Service:** A completed Certification of Donated Labor or Service must be submitted when requesting reimbursement for donations of a specialized trade or profession

____ 9 **Spreadsheet:** A spreadsheet that ties all expenditures, including force account, to project elements must be provided with each reimbursement request

____ 10 **Budget Summary:** The sponsor should submit one completed copy of the Budget Summary with each reimbursement request

____ 11 **Certification for Reimbursement Request:**
A completed "Certification for Reimbursement Request" form must be submitted with each reimbursement request to insure that each period reimbursement is true and correct

____ 12 **Quarterly Status Report**
A current quarterly status report must be on file at the time of reimbursement request

PROJECT CLOSEOUT CHECKLIST

Before requesting a final inspection of a completed grant project, the following must be accomplished

____ 1 All facilities must be complete and usable for recreation as specified in the Agreement If facilities differ significantly from the original site plan, an as-built site plan must be provided to the Department

____ 2 The sponsor must have all construction bills paid and furnish cancelled checks and invoices to the Department

____ 3 A permanent grant program recognition sign must be installed in a visible location The temporary recognition sign should be removed when the permanent sign has been installed

____ 4 Project must be registered with Texas Department of Licensing and Regulation

BOATING ACCESS GRANT PROGRAM AGREEMENT

Project Number **F-230-B**

Project Name **GALVESTON COUNTY 61st STREET BOAT RAMP RENOVATION**

Project Period **DATE OF AGREEMENT TO 9-01-2013**

Total Project Cost **$666,667.00** Approved Federal Funds **$500,000.00** (75%)

PROJECT SCOPE AND LOCATION

Galveston County (sponsor) will renovate the 61st Street boat ramp and parking area, construct a new bulkhead to better protect the site from tidal action, courtesy dock and improve lighting and signing in accordance with approved plans and U S Corps of Engineers permit The project is funded by federal pass-through funds from the Boating Access Grant Program to provide boating access for recreational boaters The boat ramp is located on 61st Street in the City of Galveston in Galveston County and provides boating access to West Bay, the Intracoastal Waterway, and Gulf of Mexico Pre-agreement costs for permitting, planning and design up to $70,000 are eligible for reimbursement retroactively to September 1, 2006

This project is being funded with federal funds generated by recreational boaters As such, charging a fee to utilize this facility is discouraged If a fee is charged to utilize the boat ramp, all revenue collected must be used to maintain and operate the boating access facility

****

For and in consideration of the mutual covenants and benefits hereof, the Texas Parks and Wildlife Department ("Department") and **Galveston County** ("Sponsor") hereby contract with respect to the above described project ("Project") as follows

1 No work shall commence until this agreement is signed by both parties

2 The Sponsor shall submit complete construction plans and specifications (including site map) for the Project to the Department for approval prior to any construction The Sponsor agrees to construct the Project according to the approved plans and specifications

3 All construction shall be in compliance with all laws and regulations duly adopted by governmental agencies of competent jurisdiction including meeting current ADA compliance for boating access facilities

4 After completion and final payment by the Department, the Sponsor shall assume sole responsibility for facility operation including area surveillance, maintenance and repairs for a minimum of twenty-five years

5 Local regulations may be adopted by the Sponsor pursuant to Parks Section 31 092 of the Parks and Wildlife Code It is understood and agreed that the Sponsor shall not designate public water served by the Project as areas restricted from use by registered motorboats without Department approval Violation of this covenant by the Sponsor shall require 100% reimbursement to the Department of the costs of the Project

6 The Department will assist the Sponsor with only advisory assistance within its capabilities

7 The Department will perform a completion and acceptance inspection Progress inspections may be performed at the discretion of the Department

8 The Sponsor will maintain adequate records to support all claims for reimbursement and submit to the Department copies of all expenditures to be charged against the Project

9 Sponsor understands that acceptance of funds under this contract acts as acceptance of the authority of the State Auditor's Office, or any successor agency, to conduct an audit or investigation in connection with those funds Sponsor further agrees to cooperate fully with the State Auditor's Office or its successor in the conduct of the audit or investigation, including providing all records requested Sponsor will ensure that this clause concerning the authority to audit funds received indirectly by subcontractors through Sponsor and the requirement to cooperate is include in any subcontract it awards

10 In the event the cost of construction is below the maximum amount authorized, the Sponsor may, at its discretion, include additional improvements or appurtenances on each designated site as long as the project total contract cost figures are not exceeded, provided, however, such improvements or appurtenances are first approved in writing by the Department

11 Upon completion of a satisfactory acceptance inspection by the Department, the Sponsor will furnish the Department with a certificate of completion and the required cost records The Department shall remit to the Sponsor the amount of approved State funds within reasonable time from the date the Department approves such documentation as adequate

12 The Sponsor agrees to comply with U S Fish & Wildlife Service Division of Federal Aid Assurances and U S Department of Interior Civil Rights Assurance which are attached and made part of this Agreement

13 The Sponsor agrees that an independent audit will be conducted in accordance with federal circular A-133 Copies of the report will be furnished to the Department

14 The Agreement is effective upon execution by the Department

AGENDA ITEM #7

Galveston County
2010 - 2011 Federal Legislative Agenda with Rationale

Issue: **Coastal Impact Assistance Program – (CIAP)**

Support passage of a new off-shore oil drilling revenue sharing program to replace the Coastal Impact Assistance Program, whose royalty collection ended September 30, 2010. ***Support*** reforms to any new revenue sharing program to streamline the delivery of funds to local governments by directing the responsible Federal agency to release funds to local government entities without further application once a State Plan has been approved. Also, ***support*** an increase in royalty percentage to equalize off-shore royalty programs with on-shore royalty programs

Rationale:

The current CIAP program has stopped collecting revenue from outer-continental shelf oil and gas production activities as of September 30, 2010. The program authorized by the Energy Policy Act of 2005 collected royalties from Federal fiscal year 2007 through 2010. However, the initiative (basis of need) behind the creation of CIAP did not end in September 2010, if anything, it has increased.

Issue: **Transportation Authorization**

Support passage of a multi-year transportation authorization bill ***Monitor*** the potential raising of gas taxes to replenish the Highway Trust Fund. ***Support*** opportunities to secure funding for Galveston County priorities via this legislation, including:

- $10,798,000 for the section of FM 646 between I-45 and SH 3, Congressional District 14
- $31,800,000 for the section of Hwy 87 between Rollover Pass and High, Island; also District 14
- $13,900,000 for the section of FM 646 between FM 1764 and SH 6, Congressional District 22

Rationale:

Reauthorization of federal surface transportation programs was supposed to have occurred before the end of Fiscal Year 2009, but Congress failed to meet that deadline. Since then, Congress has continued transportation programs via short-term reauthorizations.

The most difficult issue to be considered during reauthorization is how to finance it. The highway trust fund and the revenue sources that feed it have been a reliable mechanism for financing highway and transit programs for five decades, but no more. Almost all transportation industry observers see a need for a larger Federal contribution to national infrastructure creation in the years ahead Fuel taxes, which provide most of the money for surface transportation, are unlikely to provide a solid long-term foundation for this desired growth, even if Congress were to raise them modestly The choice then becomes finding new sources of income for an expanded program, or alternately, to settle for a smaller program that might look very different than the one currently in place

Meanwhile, Galveston County experiences traffic flow problems in the northern part of the County especially along the FM 646 corridor, and has experienced rapid growth that is out pacing infrastructure Our specific road project requests will facilitate improvements in public health and safety by allowing emergency response personnel the ability to reduce their response time that is currently hindered by traffic congestion. Furthermore, the decrease in traffic will also improve the daily commute for County residents and enhance the livability of the Galveston area

Highway 87, between Rollover Pass and High Island located on the eastern portion of the Bolivar Peninsula, is under constant threat of overtopping, even by those tides not associated with any tropical weather event. This highway is the only evacuation route for residents and visitors to the peninsula Due to its low elevation this section of the highway was impassable over 24 hours ahead of Hurricane Ike's landfall, trapping many residents in a life threatening situation, whose only escape was to attempt to "walk / swim" out or be rescued by Coast Guard helicopter. An evacuation route at a higher elevation and protected from the tides would provide residents and visitors a greater window of opportunity to evacuate and eliminate or greatly reduce those other overtopping events.

Issue: **National Flood Insurance Program**

Monitor Federal Emergency Management Agency (FEMA) local flood map modernization efforts that could significantly impact Galveston County residents ***Monitor*** reauthorization efforts of the National Flood Insurance Program

Rationale:

FEMA is currently updating flood maps around the country, and in the process is often decertifying flood protection levees that have been presumed to offer protection from a one hundred year flood event This map modernization process whose original intent was to digitize flood maps, has greatly expanded the floodplain in other communities where the mapping is complete. The de-certification of insufficient levees has frequently resulted in the addition of new properties into the 100 year flood plain and greatly increased the cost to obtain flood insurance, even though the levees in question remain in place. A recent letter signed by Senator Hutchison and 26 other Senators to FEMA Administrator W. Craig Fugate serves to highlight this issue. Example- If the Texas City / La Marque hurricane protection levee were to be decertified during this process, it would in effect "remove" the levee from the new flood maps (as if it was not there) and place those areas formerly behind (protected) by the levee firmly in the 100 year flood plain. This includes the greater majority of the cities of Texas City and La Marque and would force residents who have Federally-backed mortgages to secure flood insurance, which often costs more than $1,000 per year per home.

Issue: **Community Development Block Grant (CDBG) Disaster Recovery Funding**

Support efforts to alter the low-income and public housing requirements of Community Development Block Grant funding when used as a method for delivering disaster recovery funding to communities impacted by natural disaster This should also include transitioning administrative responsibility for the funding to the Federal Emergency Management Agency as opposed to the Department of Housing and Urban Development

Rationale:

Currently apart from FEMA, CDBG funding is the primary Federal source of funding for post disaster recovery assistance to jurisdictions impacted by a disaster Because the CDBG program is administered by the Department of Housing and Urban Development (HUD) on behalf of the Federal government, a low to moderate income component is also part of the guidance requirements Additionally, subsequent rounds of CDBG funding have received another layer of requirements mandating that projects / applications "affirmatively further fair housing", making some needed projects all but impossible to accomplish or the development time necessary for a project too long to be completed in the timeframe allowed. FEMA is the disaster response arm of the federal government, with existing procedures and policies to provide assistance following

a disaster. It is counter-intuitive to overlap emergency response / recovery operations with social welfare programs Such overlap dilutes the response and hinders recovery.

Issue: **Water Resources Development Act**

Support passage of a Water Resources Development Act (WRDA), including language allowing the Sabine Pass to Galveston Bay Feasibility Study (Study) to be completed at 100 percent Federal expense, with local expenses repaid during construction, due to impacts from Hurricane Ike.

Rationale:

Both Galveston County and Jefferson County requested a brief hiatus of the Sabine Pass to Galveston Bay Feasibility Study to allow local jurisdictions the opportunity to recover from Hurricane Ike before incurring additional expense related to the continuation of the Study Galveston and Jefferson Counties have requested the Study be completed at full Federal expense with local partners repaying the local expense at the time a Federal project starts construction. The historic impacts from Hurricane Ike and the drastic changes to the coastal environment will force the recollection of extensive amounts of data for the Study, thereby costing significantly increased investments in the Study Without the Corps' long history of mismanagement, the Study would have likely been completed prior to Ike, thereby making the additional data collection efforts, and their requisite costs, a moot point.

Issue: **Texas City/La Marque Hurricane Flood Protection Levee**

Support $150,000 in Federal funding via the Corps of Engineers for the initiation of a restudy of the Texas City/La Marque Hurricane Flood Protection Levee

Rationale:

Hurricane Ike tested the Texas City / La Marque Hurricane Protection levee like it had not been tested before, and the levee system was very nearly overtopped during the storm. Population and infrastructure behind the levee has grown tremendously since the time of construction, including the petro-chemical industry in Texas City. The next significant weather impact to the region could have a disastrous effect on the economy of the local area and the nation as a whole. It is in the best interest of the nation to study the present condition of the levee and determine what activities need to occur to ensure the protection of the citizens and petro-chemical facilities located behind the levee.

Issue: **Coastal Barrier Resource Act- (CBRA)**

Monitor Coastal Barrier Resource Act changes in Congress. ***Facilitate*** discussions with the U.S Fish and Wildlife Service to allow particular projects using Federal Emergency Management Agency and Department of Housing and Urban Development CDBG Ike disaster recovery funding to be undertaken by the County.

Rationale:

Galveston County is attempting to recover from Hurricane Ike in the quickest, most efficient manner possible. Federal agencies participating in these efforts with Galveston County each have their own interpretation of the regulations / guidelines associated with CBRA zones Galveston County is not seeking to promote development within or cause negative impacts to CBRA units It would be helpful to Galveston County if Federal agencies could make uniform decisions based on the content of the Federal regulations rather than being stricter than the intent of those guidelines

Issue: **Emergency Management Funding**

Support funding for emergency management, including the Emergency Management Performance Grant Program (EMPG), retain funding for the program at Fiscal Year 2010 levels of $329.8 million. The program was authorized at $815 million for Fiscal Year 2011 through the *Implementing the Recommendations of the 9/11 Commission Act of 2007*

Rationale:

The EMPG program administered by the Department of Homeland Security (DHS) is a vital component of the local emergency management program, providing assistance to offset salary, administrative, and planning costs. State wide, EMPG provides a significant amount of support to the State of Texas and its emergency staffing. This program provides training through the State for local jurisdictions that enable local responders to do a better job in the local community.

Issue: **Hotel Occupancy Taxes**

Oppose legislation that would exempt Internet travel brokers from paying taxes on the full room rate paid by the consumer, thereby costing Galveston County and its political jurisdictions the opportunity to collect the appropriate Hotel Occupancy Taxes (HOT) from visitors to the region.

Rationale:

In the 111th Congress, there were discussions of attempts by senior Senators to insert language into various pieces of legislation that would have exempted online travel brokers (Expedia, Travelocity, etc.) from remitting the full HOT tax collected from consumers to the appropriate local government. For instance, if Expedia were to pay $60 for a room at the Galveston Hilton and then sell that room to a consumer for $100, they would only remit $6 dollars to the local government instead of $10 (using a 10 percent HOT tax for illustrative purposes)

AGREEMENT BETWEEN THE UNIVERSITY OF TEXAS MEDICAL BRANCH AT GALVESTON, THE GALVESTON COUNTY CHILDREN'S SERVICES BOARD, AND GALVESTON COUNTY FOR SERVICES TO BE PROVIDED FOR THE TEXAS DEPARTMENT OF FAMILY AND PROTECTIVE SERVICES

This Agreement is entered into pursuant to Texas Family Code, Chapter 264, by and between **The University of Texas Medical Branch at Galveston** ("UTMB"), an institution of The University of Texas System which is an agency of the State of Texas, on behalf of its Department of Pediatrics, **The Galveston County Children's Services Board** ("Board"), acting on behalf of the Texas Department of Family and Protective Services ("CPS"), and **Galveston County** ("County"), the Board's financial conduit for this Agreement.

RECITALS

WHEREAS, Board is authorized by Texas Family Code § 264 005(d) to provide coordinated state and local public welfare services for children and their families on behalf of CPS, and

WHEREAS, Board desires the professional services of a UTMB Physician Assistant ("PA") or Pediatric Nurse Practitioner ("PNP"), as designated by UTMB, to assist Board in addressing such health care needs of CPS clientele as described herein; and

WHEREAS, Board desires to pay for said professional services for the children of Galveston County utilizing funds provided by County; and

WHEREAS, UTMB desires to provide the professional services described herein;

NOW THEREFORE, for and in consideration of the mutual promises and covenants set forth herein, UTMB, Board and County (collectively, the "Parties") agree as follows:

I. RESPONSIBILITIES OF UTMB

1 1 Services Provided. UTMB shall provide a PA/PNP, as designated by UTMB, from UTMB's Department of Pediatrics to perform the services contained in *Exhibit A, entitled "Services Provided"*, attached hereto and incorporated herein for all purposes.

1 2 Availability UTMB shall provide the services of a PA/PNP in accordance with the terms and conditions provided in *Exhibit B, entitled "Availability"*, attached hereto and incorporated herein for all purposes.

1 3 Reporting. UTMB will report on a monthly basis to CPS, Board and County's Director of Community Services as provided in *Exhibit A, Item (j)*

1 4 Financial Recordkeeping. UTMB shall maintain all necessary financial records to support the expenditure of all funds paid by Board utilizing County funds pursuant to Section III of this Agreement.

1.4 1 The Board, through the offices of the Galveston County Auditor, shall have the unfettered right to audit these financial records for up to three (3) years after the expiration or early termination of the initial term of this Agreement. In addition, should this Agreement be renewed on an annual basis as provided in Article 4 14 below, the Galveston County Auditor shall have the unfettered right to audit these financial records for up to three (3) years after the expiration or early termination of each annual renewal period.

1 4 2 Upon written request, UTMB shall make these financial records available for examination by the Galveston County Auditor at either UTMB's primary business location or any other location in Galveston County that is mutually agreeable to the parties. The County Auditor may receive copies of any records he deems necessary immediately upon request and at no cost to Board or to County.

1 4 3 UTMB shall respond to any discrepancies noted by the Galveston County Auditor in its examination of these financial records within ninety (90) days of receiving written notice of such discrepancies. UTMB and the Galveston County Auditor will work together in an attempt to resolve such discrepancies.

II. RESPONSIBILITIES OF CPS

2 1 Consent for Examination and Treatment. Although it is not a signatory to this Agreement, in accordance with the authority granted Board pursuant to Texas Family Code §264 005(d), the Parties anticipate that CPS shall provide or obtain any legal consent in writing necessary to conduct a physical examination and diagnostic assessment of a child's medical problem, grant UTMB access to information found in CPS's records; allow children or their parents, guardians, or family members to be interviewed by UTMB for the purpose of obtaining a medical or forensic history; and allow UTMB to share any information obtained during such assessments and/or interviews with CPS representatives In the event CPS cannot provide or obtain consent, the Parties acknowledge a child may be treated by UTMB pursuant to Chapter 264 of the Texas Family Code or other applicable state law

2 2 Notice of Meetings. The parties also anticipate that CPS will give UTMB reasonable notice of all meetings, consultations, training sessions, orientation sessions, workshops, or any other events requiring the presence of a representative of UTMB

2.3 Payment. The Board, utilizing County funds, shall compensate UTMB as provided in Section III of this Agreement.

III. TERMS FOR PAYMENT

3 1 Compensation

3 1 1 Salary and Benefits Portion. The Board shall compensate UTMB for sixty-four percent (64%) of the PA/PNP's salary and benefits. That amount, SIXTY THOUSAND, TWO HUNDRED SEVENTY DOLLARS AND NO CENTS ($60,270.00), shall be payable in twelve (12) equal installments of FIVE THOUSAND TWENTY-TWO DOLLARS AND FIFTY CENTS ($5,022.50) per month commencing October 1, 2010, with each installment to be paid on or before the 10th day of each month during the term of this Agreement.

3.1 2 Maintenance and Operations Portion. In addition to the Salary and Benefits described in Article 3.1 1 above, Board shall provide UTMB TWO THOUSAND FIVE HUNDRED DOLLARS AND NO CENTS ($2,500.00) for Maintenance and Operations Costs. This payment will be paid in twelve (12) equal installments of TWO HUNDRED EIGHT DOLLARS AND THIRTY-THREE CENTS ($208.33) per month commencing October 1, 2010

3 1 3 Maintenance and Operations Costs. The Maintenance and Operations amount described in Section 3.1 2 above shall be used to pay

(a) dues, subscriptions and travel expenses of the PA/PNP, and

(b) colposcope maintenance.

3.1 4 Total. The total amount of compensation to be received per year by UTMB shall not exceed SIXTY-TWO THOUSAND, SEVEN HUNDRED SEVENTY DOLLARS AND NO CENTS ($62,770.00)

3.2 CPS, Board and County shall not be invoiced or billed for any services rendered by UTMB as all medical provider bills owed by CPS or Board for all services provided under this Agreement are included and covered by the payments set forth in Articles 3 1 1 and 3 1 2 above.

IV. MUTUAL AGREEMENTS

4.1 Indemnification.

4.1.1 To the extent authorized by the Constitution and laws of the State of Texas, Board, to the extent it can bind CPS pursuant to Texas Family Code §264.005(d), and County agree to hold the State of Texas, the Board of Regents of The University of Texas System, UTMB, and their respective officers, employees, and agents harmless from and indemnify each of them against any and all claims, actions, damages, suits, proceedings, judgments, and liabilities, excluding attorney's fees, for personal injury, death, or property damage

resulting from the acts or omissions of CPS, Board, or County or resulting from the acts or omissions of others under the supervision or control of CPS, Board or County.

4.1.2 To the extent authorized by the Constitution and laws of the State of Texas, UTMB agrees to hold CPS, Board, County and their respective officers, employees, and agents harmless from and indemnify each against any and all claims, actions, damages, suits, proceedings, judgments, and liabilities, excluding attorney's fees, for personal injury, death, or property damage resulting from the acts or omissions of UTMB, UTMB's PA/PNP, or the acts or omissions of others under UTMB's supervision or control.

4 2 Self Insurance As an agency of the State of Texas, liability for the tortious conduct of all other agents and employees of UTMB, including house staff, is provided for solely by the provisions of Chapters 101, 104 and 108 of the Texas Civil Practice and Remedies Code. As a governmental unit established pursuant to Chapter 264 of the Texas Family Code, Board's liability for its tortuous conduct as well as the tortuous conduct of its agents and employees is provided solely by the provisions of Chapter 101 of the Texas Civil Practice and Remedies Code. As a political subdivision of the State of Texas, County's liability for its tortuous conduct as well as the tortuous conduct of its agents and employees is similarly provided solely by the provisions of Chapter 101 of the Texas Civil Practice and Remedies Code. All parties are self insured

4 3 Force Majeure. No party shall be required to perform any term, condition, or covenant of this Agreement so long as such performance is delayed or prevented by an Act of God, material or labor restrictions imposed by any governmental authority, civil riot, flood, hurricane, or other natural disaster, or any other cause not reasonably within the control of the party failing to perform.

4.4 Entire Agreement. This Agreement constitutes the entire Agreement between the Parties. No agreements, amendments, or modifications, implied or otherwise, shall be binding on any of the parties unless set forth in writing and signed by Parties.

4 5 Governing Law, Venue. Board and UTMB agree that this Agreement shall be construed in accordance with the Constitution and laws of the State of Texas and venue shall lie in Galveston County.

4 6 Severability If one or more of the provisions of this Agreement, or the application of any provision to any Party or circumstance, is held invalid, unenforceable, or illegal in any respect, the remainder of this Agreement and the application of the provision to other Parties or circumstances shall remain valid and enforceable

4 7 Nondiscrimination. The Parties agree that in the performance of this Agreement there will be no discrimination against any person or persons on account of race, color, sex, sexual orientation, religion, age, disability, national origin, or veteran status, and that the Parties shall comply with all applicable requirements of the Civil Rights Act of 1964, as amended, the Civil Rights Act of 1991, Executive Order 11246, the Vietnam Era Veterans' Readjustment Act of 1974, the Rehabilitation Act of 1973, as amended, the Age Discrimination Act of 1975, the Americans with Disabilities Act of 1990, and all other federal rules and regulations, state laws, and executive orders as applicable.

4 8 Notice. Any notice required to be given pursuant to the terms and provisions of this Agreement shall be in writing, and shall be mailed by certified or registered mail, return receipt requested, addressed as set forth below or at such other address as may be specified by written notice:

4 9 Termination. Any Party may terminate this Agreement for any reason or no reason or for convenience by giving the other Parties thirty (30) days prior written notice of such intent to terminate

4 10 Waiver. The waiver by a Party of a breach of any provision of this Agreement shall not constitute a waiver of any subsequent breach of this Agreement.

4.11 Compliance. The Parties shall at all times comply with all applicable ordinances, laws, rules and regulations of local, state and federal governments, or any political subdivision of agency, authority or commission thereof, which may have jurisdiction to pass laws, ordinances, or make and enforce rules and regulations with respect to either Party

4 12 Headings. Headings have been included in this Agreement for convenience only and shall not affect the interpretation of any terms found herein.

4.13 Independent Contractor Each Party is acting herein as an independent contractor. Except to the extent that Board is an entity of CPS as permitted by Texas Family Code §264.005(d), nothing contained herein shall constitute or designate any Party or their employees or agents to act on behalf of any other Party

4 14 Effective Dates This initial term of this Agreement shall become effective October 1, 2010, regardless of the date of execution and, unless terminated sooner as provided in Article 4.9 above, shall remain in effect until September 30, 2011. This Agreement may be extended annually by a letter of extension signed by the Parties. Such letter of extension must include the amount of funds budgeted by Board in support of each renewal term.

V. HIPAA

5.1 Acknowledgment of HIPAA Obligation. To the extent UTMB comes into contact with information considered Individually Identifiable Health Information as defined by the Health Insurance Portability and Accountability Act of 1996, 42 U.S C. § 1320(d), ("HIPAA") as amended by the Health Information Technology for Economic and Clinical Health Act of 2009 ("HITECH Act") and any pertinent regulations issued by the Department of Health and Human Services ("HHS"), Protected Health Information or Electronic Protected Health Information (collectively, "Protected Information") as regulated by HHS through the adoption of standards, 45 C.F R. Parts 160 and 164 (Privacy Rule) and 45 C.F R Parts 160, 162 and 164 (Security Rule), (collectively, "the HIPAA Rules"), UTMB agrees to keep private and to secure any information considered Protected Information in accordance with federal law

5 2 UTMB agrees to use and disclose Protected Information only as required to perform the services outlined in this Agreement UTMB may use and disclose Protected Information for the proper management and administration of UTMB's operations and for data aggregation services to the extent permitted by the HIPAA Rules

5 3 UTMB will not use or further disclose Protected Information other than as permitted or required under this Agreement or by law.

5.4 UTMB will use appropriate safeguards to prevent the use or disclosure of Protected Information for any reason other than as provided by this Agreement. UTMB shall implement administrative, physical, and technical safeguards that reasonably and appropriately protect the confidentiality, integrity, and availability of any Electronic Protected Information UTMB creates, receives, maintains or transmits on behalf of CPS or The Galveston County Children's Services Board.

5.5 UTMB agrees to promptly notify CPS and Board of any use or disclosure of Protected Information not provided for in this Agreement of which UTMB becomes aware. UTMB shall report to CPS and Board any instances, including security incidents, of which it is aware in which Protected Information is used or disclosed for a purpose that is not otherwise provided for by this Agreement or for a purpose not expressly permitted by the HIPAA Rules.

5 6 UTMB shall require any agents or subcontractors who receive Protected Information to be bound by the same restrictions and conditions outlined in this Agreement. Additionally, UTMB shall ensure that any agent, including a subcontractor, agrees to implement reasonable and appropriate safeguards to protect the confidentiality, integrity, and availability of Electronic Protected Information that UTMB creates, receives, maintains, or transmits on behalf of CPS or Board.

5 7 To the extent it is determined UTMB maintains a Designated Record Set, UTMB agrees to follow 45 C F R. §§ 164 524 (Access of Individuals to Protected Health Information (PHI), 164 526 (Amendment of PHI), and 164 528 (Accounting of Disclosures of PHI) of the HIPAA Rules.

5 8 UTMB agrees to make its internal practices, books, and records relating to the use and disclosure of PHI received from CPS or Board available to the Secretary of Health and Human Services or the Secretary's designee for the purpose of determining CPS and Board's compliance with the HIPAA Privacy Regulations.

5.9 After termination of this Agreement, UTMB agrees to return or destroy all Protected Information if feasible, and, if not feasible, UTMB agrees to continue to protect the Protected Information from wrongful use and disclosure

5 10 UTMB understands that Board, on its own initiative or at the request of CPS, may terminate this Agreement immediately if CPS or Board determines UTMB violated a material term of this Agreement and UTMB's actions are not successful in remedying the breach If termination is not feasible, Board on its own initiative or at the request of CPS may report the problem to the Secretary of Health and Human Services.

5 11 UTMB may use and disclose de-identified Protected Information if the use is disclosed to CPS or Board and CPS advises Board and UTMB it approves of the use of the de-identified Protected Information, and the Protected Information is de-identified in compliance with the HIPAA Rules.

5 12 UTMB shall ensure that all uses and disclosures of Protected Information are subject to the principle of "minimum necessary use and disclosure,"—i e., that only Protected Information that is the minimum necessary to accomplish the intended purpose of the use or disclosure is used or disclosed

5.13 UTMB understands that Board has no way of accessing PHI save through the Texas Department of Family and Protective Services ("CPS") in an executive session as provided for in Section 264.005(g) of the Texas Family Code.

SERVICES PROVIDED

Services to be provided by the PA/PNP to Board as an entity of CPS in Galveston County and the children of Galveston County are as follows:

(a) Provide or assist with child abuse forensic medical evaluations during the seven (7) half-day Child Protective Clinic times at either the UTMB ABC Center or the medical facility at the Advocacy Center for Children of Galveston County to facilitate, coordinate, and standardize the work of faculty, residents, nurses, UTMB social workers, and CPS case workers.

(b) Prepare supplies and equipment, including the use of a colposcope for photographs.

(c) Assure that cultures and other laboratory studies are handled correctly.

(d) Assure that UTMB ABC Center child abuse protocols are filled out correctly and reporting letters are submitted in a timely fashion to the police and CPS

(e) Meet weekly with the Multidisciplinary Case Review Team of the Advocacy Center for Children of Galveston County to review cases seen at UTMB, discuss policies and procedures, and plan educational interventions

(f) Testify in court, when called, as to the presence or absence of medical findings

(g) Participate with professionals and community agencies to assure safe, timely, and complete evaluation of child abuse cases at UTMB.

(h) Assist medical personnel in the evaluation of CPS cases that are sent to UTMB during times that the UTMB ABC Center is not officially in session, when time is available in the schedule.

(i) Not spend any time during the sixty-four percent (64%) paid by Board utilizing County funds on behalf of CPS seeing victims for evaluation of sexual or physical assault in cases in which CPS is not involved.

(j) Send monthly reports to CPS, Board and County's Director of Community Services containing information detailing the number of children seen, type of abuse noted (physical or sexual), and type of exam each patient was given At the end of the contract year, the PA/PNP will send a final report to CPS, Board and County's Director of Community Services.

EXHIBIT B
AVAILABILITY

For each five-day work week (Monday through Friday) devoted to CPS pursuant to this Agreement, the hours of the PA/PNP per week are to be divided as follows:

(a) Seven (7) half-days per week at the ABC Center operated by UTMB's Children's Hospital at The Primary Care Pavilion, conducting the following Primary Activities performing forensic medical evaluations, meeting with the Multidisciplinary Case Review Team of the Advocacy Center for Children of Galveston County, and conducting patient follow-up activities, chart reviews, phone calls, or making presentations at court.

(b) Should the PA/PNP employed under this Agreement resign or be terminated, the ABC Clinic Medical Director/Faculty Physician in charge of supervising the PA/PNP will continue to provide the services described in *Exhibit A, Services Provided, Items (d)-(g)* of this Agreement, pending the recruitment of a replacement PA/PNP.

In exchange, The Galveston County Children's Services Board shall continue to compensate UTMB both the Salary and Benefits Portion of FIVE THOUSAND TWENTY-TWO DOLLARS AND FIFTY CENTS ($5,022.50) per month and the Maintenance & Operations Portion of TWO HUNDRED EIGHT DOLLARS AND THIRTY-THREE CENTS ($208.33) per month, as provided in Section III of this Agreement.

Reports should be submitted for all months even if funds were not distributed. The monthly reports should be submitted to the Reliant Energy Agency Desk before the 10th of each month. All funds that are not utilized or pledged to provide assistance to qualifying Reliant customers by December 31, 2011, can rollover to the following year. *Galveston County Social Services* must also comply with the CARE Program Guidelines outlined in Attachment A. *Galveston County Social Services* will keep records of all transactions relating to the distribution of Reliant Energy CARE contributions for a period of 2 year(s) and will allow Reliant Energy full access during normal business hours to inspect, audit or reproduce any and all such records and books of *Galveston County Social Services* related to this agreement.

Reliant Energy can terminate this agreement at any time during the year by providing 30 days advance written notice to *Galveston County Social Services* In the event this agreement is terminated, *Galveston County Social Services* must comply with the directions contained in the notice and take any necessary action to terminate the work under this agreement. To acknowledge your agreement to and acceptance of the terms and conditions outlined in this letter and Attachment A, please sign below on both letters. Keep one copy of your records and return one letter to Reliant Energy. If you have any questions, you can contact Grenda Monroe at 713-537-2811 or Misty White 713-537-2164.

Sincerely,

Karen Jones

AGENDA ITEM #14

Houston-Galveston Area Council Office of the Executive Director

November 4, 2010

The Honorable Jim Yarbrough
County Judge, Galveston County
County Courthouse
722 Moody Avenue, Suite 200
Galveston, TX 77550

Dear Judge Yarbrough:

I am writing to request that Galveston County Commissioners Court take action concerning your 2011 representation on the Houston-Galveston Area Council's General Assembly and Board of Directors

H-GAC's Bylaws provide that you may designate two elected officials as representatives and two elected officials as alternates to the General Assembly, all of whom must be members of the Commissioners Court. Of the two representatives to the General Assembly, one shall be appointed to serve as the county's delegate to the Board of Directors, while the other representative shall be named as the alternate to the Board of Directors

A form is enclosed for your use in completing the County's designation actions.

The 2011 Board representative and alternate begin their terms of office at the first of January 2011

If more information concerning General Assembly and Board of Directors membership would be useful, please contact me or Mary Spain of the staff at 713-993-4598 Thanks for your help in selecting H-GAC's 2011 General Assembly and Board of Directors

Sincerely,

Jack Steele

RE Cause No 61,268, Janessa Brown and Shynna Brown v Galveston County, et al, In the County Court at Law No 3, Galveston County, Texas

Gentlemen

I write to recommend for consideration and approval the proposed settlement for the bodily injury damage claims of Janessa Brown and Shynna Brown.

The facts underlying this suit are that on March 4, 2009, the Browns were in a vehicle involved in an auto collision with a Galveston County Sheriff's Office vehicle at the intersection of FM 1765 and 31st Street The Sheriff's vehicle rear-ended the Brown's vehicle at a high rate of speed Both vehicles were totaled in the collision

Janessa Brown was transported by helicopter to a Level 1 trauma center She sustained head and back injuries, along with a knee injury, and has claimed medical expenses in the amount of $53,573 81 Shynna Brown sustained neck and back injuries, including herniated and bulging discs She has claimed medical expenses in the amount of $68,583 36 Through their attorney they have sent a demand for settlement in the amount of $100,000 00 for each claimant This amount is the limit of liability for the County under the Texas Tort Claims Act

Janessa and Shynna Brown have agreed to accept $85,800 00 (eighty-five thousand, eight hundred dollars) and $89,200 00 (eighty-nine thousand, two hundred dollars), respectively, as settlement for their bodily injury claims, including all claims for pain and suffering, medical treatment, lost wages and any future claims they may have resulting from this accident The necessary releases will be obtained before disbursement of the funds The suit for property damage relating to this accident was settled in October 2009

By copy hereof, I am forwarding the County Purchasing Agent the necessary paperwork to begin preparation of the check Should you have any questions, please call

Sincerely,

Barry C. Willey

TERMS AND CONDITIONS

Parties to Sub-recipient Agreement

This Sub-recipient agreement is made and entered into by and between the Texas Division of Emergency Management/State Administrative Agency, an agency of the State of Texas, hereinafter referred to as "TDEM," and the funds recipient, hereinafter referred to as the "Sub-recipient " Furthermore, TDEM and the Sub-recipient are collectively hereinafter referred to as the "Parties " By this Sub-recipient agreement's execution, the Parties have severally and collectively agreed to be bound to the mutual obligations and to the performance and accomplishment of the tasks described in this Sub-recipient agreement The Sub-recipient Agreement is only an offer until the Sub-recipient returns the signed copy of the 2008 Sub-recipient Agreement in accordance with the date provided in the transmittal letter and in the agreement

Sub-recipient Purpose and Overview

A Purpose and Overview Sub-grant funds provided shall be used to provide law enforcement and emergency response communities with enhanced capabilities for detecting, deterring, disrupting, preventing, and responding to potential threats of manmade, natural disasters and acts of terrorism The Sub-recipient agrees that all allocations and use of funds under this grant will be in accordance with the Homeland Security Grant Program Guidelines and Application Kit for that fiscal year and must support the goals and objectives included in the State Homeland Security Strategic Plan and the Urban Area Homeland Security (UASI) Strategies The funds must be used to conform with the State Homeland Security Strategic Plan, follow the projects outlined in the approved investment justifications used to make the FY 2008 grant application and as described in the federal program guidelines found at www.fema.gov/pdf/government/grant/hsgp/fy08_hsgp_guide.pdf Further, as outlined in the 2008 grant guidance, 2008 HSGP will focus on three objectives as the highest priorities These three objectives are 1 Measuring progress toward achieving the National Preparedness Guidelines, 2 Strengthening improvised explosive device (IED) attack deterrence, prevention, and protection capabilities, and 3 Strengthening preparedness planning At least 25 percent of the total FY 2008 HSGP funding must be dedicated toward enhancing capabilities related to objectives 2 and 3 as identified above The 25 percent requirement applies to the total award amount for each State across all four programs, not individual awards for SHSP, UASI, MMRS, and CCP

B Standard of Performance. The Sub-recipient shall perform all activities and projects entered into the SAA web-based grants management system approved by its Council of Governments (COG) and by the State Administrative Agency (SAA) The Sub-recipient shall perform all activities in accordance with all terms, provisions and requirements set forth in this Sub-recipient agreement and the

1 Applicable Laws and Regulations, hereinafter referred to as "Exhibit A",
2 Certifications, hereinafter referred to as "Exhibit B", and
3 Certification Regarding Lobbying for Sub-recipient Agreements, Grants, Loans, and Cooperative Agreements, hereinafter referred to as "Exhibit C"

C Failure to Perform In the event the Sub-recipient fails to implement the project(s) entered into The SAA web-based grants management system, or comply with any of this Sub-recipient agreement's provisions, in addition to the remedies specified in this Sub-recipient agreement, the Sub-recipient is liable to TDEM for an amount not to exceed the award amount of this Sub-recipient agreement and may be barred from applying for or receiving additional Homeland Security Grant Program funds or any other federal program funds administered by TDEM until repayment to TDEM is made and any other compliance or audit finding is satisfactorily resolved

TDEM Obligations

A Measure of Liability TDEM shall be liable for actual and reasonable costs incurred by the Sub-recipient during the Sub-recipient agreement period for performances rendered under this Sub-recipient agreement by the Sub-recipient, subject to the limitations set forth in this Section TDEM shall not be liable to the Sub-recipient for any costs incurred by the Sub-recipient that are not allowable costs

B Sub-recipient Agreement Funds Defined and Limit of Liability The term "Sub-recipient agreement funds" as used in this Sub-recipient agreement means funds provided by TDEM under the HSGP program The term "Sub-recipient's funds" or match funds as used in this Sub-recipient agreement means funds provided by the Sub-recipient

Notwithstanding any other provision of this Sub-recipient agreement, the total of all payments and other obligations

incurred by TDEM under this Sub-recipient agreement shall not exceed the Total Award Amount listed on the cover page of the Sub-recipient agreement

C Excess Payments The Sub-recipient shall refund to TDEM any sum of Sub-recipient agreement funds that has been paid to the Sub-recipient by TDEM or that TDEM determines has resulted in overpayment to the Sub-recipient that TDEM determines has not been spent by the Sub-recipient in accordance with this Sub-recipient agreement No refund payment(s) may be made from local, state or federal grant funds unless repayment with grant funds is specifically permitted by statute or regulation The Sub-recipient shall make such refund to TDEM within thirty (30) days after TDEM requests such refund

Suspension

Notwithstanding the provisions of Chapter 2251, Texas Government Code, in the event the Sub-recipient fails to comply with any of this Sub-recipient Agreement's terms, TDEM may, upon written notification to the Sub-recipient, suspend this Sub-recipient agreement in whole or in part, withhold payments to the Sub-recipient and prohibit the Sub-recipient from incurring additional obligations of Sub-recipient agreement funds

Termination

A TDEM's Right to Terminate TDEM shall have the right to terminate this Sub-recipient agreement, in whole or in part, at any time before the end of the Performance Period, whenever TDEM determines that the Sub-recipient has failed to comply with any of this Sub-recipient agreement's terms TDEM shall notify the Sub-recipient in writing prior to the thirtieth (30th) day preceding the termination of such determination and include

1 the reasons for such termination,

2 the effective date of such termination, and
3 in the case of partial termination, the portion of the Sub-recipient agreement to be terminated

B Parties' Right to Terminate In addition to TDEM's right to terminate specified in Subsection A of this section, both Parties shall have the right to terminate this Sub-recipient agreement, in whole or in part, when the Parties agree that the continuation of the activities funded under this Sub-recipient agreement would not produce beneficial results commensurate with the further expenditure of Sub-recipient agreement funds The Parties shall agree, in writing, upon the termination conditions, including the effective date of termination and in the case of partial termination, the portion of the Sub-recipient agreement to be terminated

Conflict of Interest

A Financial Interest Prohibited A conflict of interest may arise when the employee, officer or agent, any member of his or her immediate family, his or her partner, or, any organization that employs, or is about to employ any of the above, has a financial or other interest in the firm or person selected to perform a subcontract pursuant to this Sub-recipient agreement The Sub-recipient shall ensure that no employee, officer, or agent of the Sub-recipient shall participate in the selection, in the award or administration of a subcontract supported by Sub-recipient agreement funds pursuant to this Sub-recipient agreement and comply with Chapter 171, Texas Local Government Code

B Other Prohibited Interests In all cases not governed by Subsection A of this Section and except for eligible administrative or personnel costs, no person who is an employee, agent, consultant, officer, elected official, appointed official of the Sub-recipient or of a subcontractor of the Sub-recipient, in Subsection C of this Section who exercises or have exercised any functions or responsibilities with respect to the activities assisted under this Sub-recipient agreement or any other HSGP Sub-recipient agreement who are in a position to participate in a decision making process or gain inside information with regard to such activities, may obtain a financial interest or benefit from the activity, have an interest in or benefit from the activity or have any interest in any Sub-recipient agreement, subcontract or agreement with respect to the activities or the proceeds either for themselves or those with whom they have family or business ties during their tenure or for one year thereafter

C Inclusion in Subcontracts The Sub-recipient shall include the substance of this Section in all subcontracts

Monitoring

TDEM reserves the right to perform periodic on-site monitoring of the Sub-recipient's compliance with this Sub-recipient agreement's terms and conditions and of the adequacy and timeliness of the Sub-recipient's performance

pursuant to this Sub-recipient agreement After each monitoring visit, TDEM shall provide the Sub-recipient with a written report of the monitor's findings If the monitoring report notes deficiencies in the Sub-recipient's performance under this Sub-recipient agreement's terms, the monitoring report shall include requirements for the timely correction of such deficiencies by the Sub-recipient Failure by the Sub-recipient to take action specified in the monitoring report may be cause for this Sub-recipient agreement's suspension or termination pursuant to Sections on the Suspension and/or Termination above

Audit

A Audit of Federal and State Funds The Sub-recipient shall arrange for the performance of an annual financial and compliance audit of Sub-recipient agreement funds received and performances rendered under this Sub-recipient agreement under the Single Audit Act (OMB Circular A – 133, 44 C F R 13 26) and as outlined in Exhibit A The Sub-recipient will also comply with Texas Government Code, Chapter 783, 1 TAC 5 141 et seq and the Uniform Grant Management Standards (UGMS), State Uniform Administrative Requirements for Grants and Cooperative Agreements

B TDEM's Right to Audit. Notwithstanding Subsection A of this Section, TDEM reserves the right to conduct a financial and compliance audit of Sub-recipient agreement funds received and performances rendered under this Sub-recipient agreement The Sub-recipient agrees to permit TDEM or its authorized representative to audit the Sub-recipient's records and to obtain any documents, materials or information necessary to facilitate such audit

C Sub-recipient's Liability for Disallowed Costs The Sub-recipient understands and agrees that it shall be liable to TDEM for any costs disallowed pursuant to financial and compliance audit(s) of Sub-recipient agreement funds The Sub-recipient further understands and agrees that reimbursement to TDEM of such disallowed costs shall be paid by the Sub-recipient from funds that were not provided or otherwise made available to the Sub-recipient pursuant to this Sub-recipient agreement or any other federal contract

D Sub-recipient's Facilitation of Audit The Sub-recipient shall take such action to facilitate the performance of such audit(s) conducted pursuant to this Section as TDEM may require of the Sub-recipient

E State Auditor's Office The Sub-recipient understands that acceptance of Sub-recipient agreement funds acts as acceptance of the authority of the State Auditor's Office or any successor agency to conduct an audit or investigation in connection with these funds The Sub-recipient further agrees to cooperate fully with the State Auditor's Office or its successor in the conduct of the audit or investigation, including providing all records requested The Sub-recipient shall ensure that this clause concerning the authority to audit funds received indirectly by subcontractors through the Sub-recipient and the requirement to cooperate is included in any subcontract it awards

For FY 2008, the NIMSCAST will be the required means to report NIMS compliance for FY 2009 preparedness award eligibility All State and Territory direct preparedness Sub-recipients will be required to submit their compliance assessment via the NIMSCAST by September 30, 2008 The State or Territory department/agency awardee reserves the right to determine compliance reporting requirement of their sub-awardees (locals) in order to disperse funds at the local level

Reimbursement

Sub-recipient agrees to make no request for reimbursement prior to return of this agreement signed by the authorized Sub-recipient representative Sub-recipient also agrees to make no request for reimbursement for goods or services procured by Sub-recipient prior to the performance period start date of this agreement

A Request for Advance or Reimbursement The Sub-recipient shall submit to TDEM, a properly completed Local Purchase Submission Cover Sheet as often as actually needed TDEM retains the authority to approve or deny amount requested and shall not make disbursement of any such payment until TDEM has reviewed and approved such a request The Local Purchase Submission Cover Sheet shall be supported by documentation as referenced by the SAA web-based grants management system and subsequent policy updates

B Request for Advance Funds and Transfer of Funds The Sub-recipient's requests for an advance of Sub-recipient agreement funds shall be limited to the minimum amounts needed for effective operation of their project(s) under this Sub-recipient agreement and shall be timed as closely as possible to be in accord with actual cash requirements The Sub-recipient shall establish procedures to minimize the time elapsing between the transfer of funds from TDEM to the Sub-recipient and shall ensure that such funds are disbursed within fifteen (15) days or as soon as administratively possible

C Payment Contingent. Notwithstanding the provisions of Subsection A of this Section, payments under this Sub-recipient agreement are contingent upon the Sub-recipient's performance of its contractual obligations

Urban Areas Security Initiative (UASI) Grants

A If the Sub-recipient is a participant in a UASI program, during the performance period of this grant, Sub-recipient agrees to adhere to the UASI strategy, goals, objectives, and implementation steps

B Sub-recipient agrees that, during the performance period of this grant, all communications equipment purchases must be reviewed and approved by the Regional Interoperable Communications Committee and the UASI points of contact (voting members), if applicable

UASI Non-Profit Security Grant Program (NSGP)

A The Sub-recipient agrees that all allocations, uses of funds, and other associated program and administrative requirements under this grant will be in accordance with the Fiscal Year (FY) 2008 UASI Non-Profit Security Grant Program (NSGP) Program Guidance and Application Kit, Information Bulletin number 252, and the FY 2008 UASI NSGP Frequently Asked Questions (FAQs) Parts 1 and 2 All grant Sub-recipients are assumed to have read, understood, and accepted the FY 2008 UASI NSGP Program Guidance and Application Kit, Information Bulletin Number 252 and the FAQs as binding

B Sub-recipients must meet a 75 percent Federal-25 percent Sub-recipient soft match requirement Sub-recipient contributions must be from non-Federal sources For all costs other than training, the Sub-recipients match may be met through cash, training investments related to use of allowable equipment purchased with the grant, or training investments related to general purpose security and emergency preparedness for staff In the case of training projects, awardees must meet the matching requirement through cash In no event can regular personnel costs such as salary, overtime, or other operational costs unrelated to training be used to satisfy the matching requirement

C Non-governmental organization Sub-recipients are required to meet certain National Incident Management System (NIMS) compliance requirements All emergency preparedness, response, and/or security personnel in the non-profit organization participating in the development, implementation, and/or operation of resources and/or activities awarded through this grant are compelled to complete training programs consistent with the NIMS National Standard Curriculum Development Guide Minimum training includes IS-700 NIMS An Introduction

D Sub-recipients are responsible for keeping a copy of the 501(c)(3) registration number or IRS Letter of Recognition of Sub-grantees on file Those Sub-recipients who submitted investment justifications, subsequently selected for award, by non-profit organizations which do not hold or have not formally applied for a 501(c)(3) registration number, are responsible for maintaining an affidavit and/or other indicia certifying or verifying their 501(c)(3) compliance on file for review by DHS, in accordance with the FY 2008 UASI NSGP Q&A Part 2

E FY 2008 UASI NSGP allowable equipment costs include only the two Authorized Equipment List (AEL) categories identified in the FY 2008 UASI HSGP Program Guidance and Application Kit These categories are 1) Physical Security Enhancement Equipment, and 2) Inspection and Screening Systems All allowable equipment costs must fall within these two categories Interoperable communications equipment, aesthetic enhancement, including business, shrubs, or flowers, general-use vehicles, or related general-use equipment is prohibited under this grant program if it does not fall within one of the two previously identified AEL categories Additionally, any costs associated with exercises are strictly prohibited All other training and management and administrative (M&A) costs must be in accordance with the FY 2008 UASI NSGP Program Guidance and Application Kit, Information Bulletin Number 252, and the FY 2008 NSGP FAQs, Parts 1 and 2

F The Sub-recipient also agrees that, when practicable, any equipment purchased with grant funding shall be prominently marked as follows "Purchased with funds provided by the U S Department of Homeland Security "

Interoperable Communication Project Compliance

1 Before a local jurisdiction may submit a project for consideration by the State, a preliminary review must be done at the regional level by the Communications Committee or some similar group of the appropriate Council of Governments, Development Council or Planning Council (Where possible, reviewers should represent a cross-section of the communications community and include representatives from cities, counties and Tribes where appropriate, conventional and trunked systems, and VHF, UHF, 700 MHz, 800 MHz and 900 MHz systems) Jurisdictions must have baseline information (towers and POC/name) entered into CASM to show the jurisdictions' commitment to adhere to the SCIP Projects that are deemed to

satisfactorily meet the State's Plan will be submitted to the State for formal review

National Incident Management System (NIMS) and the Incident Command System (ICS)

Sub-recipients must have adopted and be implementing the National Incident Management System (NIMS) and the Incident Command System (ICS) at the local level NIMS compliance for 2008 must be achieved by completing actions outlined in the NIMS Implementation Matrix.

A Adoption The jurisdiction or organization must have formally adopted NIMS as its incident management system through ordinance, court order, or resolution A copy of the adoption document should be provided to the Preparedness Section of the Division of Emergency Management

B Implementation The jurisdiction or organization must be implementing the principles and policies of NIMS/ICS, including these major requirements

1 Identifying specific NIMS training requirements for local emergency responder and emergency management positions, then obtaining or providing required training, and documenting it For further information on NIMS training, see http //www fema gov/emergency/nims/nims_training.shtm
2 Updating jurisdiction or organization emergency plans and procedures to address the NIMS/ICS organizational structure, major functions, concepts, policies, and procedures
3 Utilizing NIMS/ICS for day-to-day all-hazard emergency response and during exercises
4 Participating in local, regional, or intrastate mutual aid programs
5 Maintaining an inventory of emergency response assets (Texas Regional Resource Network), and identifying key assets by resource typing standards developed by FEMA to facilitate multi-agency response For resource typing information, see http //www fema gov/emergency/nims/rm/rt.shtm This is accomplished by registering with the Texas Regional Resource Network (TRRN) and updating the information regularly Additionally, a certification form must be on file with TDEM for every county and local jurisdiction
6 Complete the NIMS baseline assessment and develop a local NIMS implementation plan
7 Participate in an all-hazard exercise program based on NIMS that involves responders from multiple disciplines and multiple jurisdictions
8 All Primary jurisdictions must possess an independent NIMSCAST account

For a more detailed description of these requirements, as well as other NIMS implementation requirements, see http //www.fema gov/pdf/emergency/nims/imp_mtrx_states pdf

FY 08 NIMS implementation requirements must be completed by September 30, 2008

Other Requirements (These requirements DO NOT apply to NSGP Sub-recipients)

A During the performance period of this grant, Sub-recipients must maintain an emergency management plan at the Intermediate Level of planning preparedness or higher, as prescribed by TDEM This may be accomplished by a jurisdiction maintaining its own emergency management plan or participating in an inter-jurisdictional emergency management program that meets the required standards If TDEM identifies deficiencies in the Sub-recipient's plan, Sub-recipient will correct deficiencies within 60 days of receiving notice of such deficiencies from TDEM

B Projects identified in the SAA web-based grant management system must identify and relate to the goals and objectives indicated by the applicable 12 approved project investments for the period of performance of the grant

C During the performance period of this grant, Sub-recipient agrees that it will participate in a legally-adopted county and/or regional mutual aid agreement

D During the performance period, the Sub-recipient must register as a user of the Texas Regional Response Network (TRRN) and identify all major resources such as vehicles and trailers, equipment costing $5,000 or more and specialized teams/response units equipped and/or trained using grant funds (i e hazardous material, decontamination, search and rescue, etc) This registration is to ensure jurisdictions or organizations are prepared to make grant funded resources available to other jurisdictions through mutual aid

E Sub-recipients must submit Fiscal Year 2008 Indirect Cost Allocation Plan signed by Cognizant Agency Plan should be forwarded to the SAA along with the Planning and Administration Grant Budget Form

F Council of Governments (COG) will follow guidelines listed in the FY 08 COG Statement of Work

G Up to 15% of the program funds for SHSP, UASI and LETPP may be used to support the hiring of full or part-time personnel to conduct program activities that are allowable under the FY 2007 HSGP (i e , planning, training program management, exercise program management, etc) The ceiling on personnel costs does not apply to contractors, and is in addition to eligible management and administrative (M&A) costs and eligible hiring of intelligence analysts Sub-recipients may hire staff only for program management functions, not operational duties Hiring planners, training program coordinators, exercise managers, and grant administrators fall within the scope of allowable program management functions

H The State's 24 planning regions are voluntary associations of local governments organized pursuant to state law as regional planning commissions, councils of government, development councils, and area councils It is recognized that one of the major functions of state planning regions as homeland security grant Sub-recipients is to perform a wide variety of planning and some program administration for both their region and on behalf of the cities and counties within the region that may also be homeland security grant Sub-recipients

Closing The Grant

A The Sub-recipient must have all equipment ordered by January 14, 2010 The last day for submission of invoices is February 28, 2011

B TDEM/SAA will close a sub-award after receiving Sub-recipient's final performance report indicating that all approved work has been completed and all funds have been disbursed, completing a review to confirm the accuracy of the reported information, and reconciling actual costs to awards modifications and payments If the close out review and reconciliation indicates that the Sub-recipient is owed additional funds, TDEM/SAA will send the final payment automatically to the Sub-recipient If the Sub-recipient did not use all the funds received, TDEM/SAA will issue a Grant Adjustment Notice (GAN) to recover the unused funds

C TDEM/SAA will unilaterally close out this grant if sub recipient does not reconcile account and sign closeout GAN by May 31, 2011

Restrictions, Disclaimers and Notices

A Approval of this award does not indicate approval of any consultant rate in excess of $450 per day A detailed justification must be submitted to and approved by TDEM/SAA prior to obligation or expenditure of such funds

B In cases where local funding is established by COGs, release of funds by TDEM is contingent upon regional funding allocation approval by the Sub-recipient's COG governing board

C Notwithstanding any other agreement provisions, the parties hereto understand and agree that TDEM's obligations under this agreement are contingent upon the receipt of adequate funds to meet TDEM's liabilities hereunder TDEM shall not be liable to the Sub-recipient for costs under this Agreement which exceed the amount specified in the Notice of Sub-recipient Award

D Notice All notices or communication required or permitted to be given by either party hereunder shall be deemed sufficiently given if mailed by registered mail or certified mail, return receipt requested, or sent by overnight courier, such as Federal Express, to the other party at its respective address set forth below or to such other address as one party shall give notice of to the other from time to time hereunder Mailed notices shall be deemed to be received on the third business day following the date of mailing Notices sent by overnight courier shall be deemed received the following business day

FLOOD DAMAGED PROPERTY CONTRACT FOR SALE

THIS AGREEMENT is made and entered into this 7th day of February, 2011, by and between **Galveston County a political subdivision of the State of Texas ("County")**, and **Josephine Drago, ("Seller")**, regardless of the number of signatories

County is acting under a federal grant from the Texas Division of Emergency Management (TDEM) and /or Texas Department of Housing and Community Affairs (TDHCA) desires to purchase from **Seller** all that certain tract or parcel of land together with all improvements located thereon located in Galveston County, Texas ("Premises") more particularly described as follows, to-wit 956 Smith Dr, Gilchrist TX 77617, Legal Description Abstract 31, R Barrow Survey, Lots 23 and 24, Hughes Subdivision, out of Lot 7, Cades Subdivision and ABST 31 R BARROW SUR PT OF LOT 7 (7-6) CADES SUB

Seller represents and understands

- The **Premises** was damaged by flood,
- **Seller** qualifies for the assistance being granted under the federal grant,
- The **Seller** has no obligation to sell the **Premises** under this program and does so voluntarily, and
- That if **Seller** withdraws from this sale, **County** will not exercise its power of eminent domain but will release **Seller** from the terms and conditions of this Contract for Sale

The parties agree as follows

1 **Seller** agrees to sell the **Premises** described above to **County** for the sum of **$180,838 56** and to execute and deliver a good and sufficient General Warranty Deed conveying marketable title to said **Premises** in fee simple, clear of all liens and encumbrances

2 **County** agrees to pay **Seller** for said Premises the sum of **$180,838.56** payable at closing after the acceptance of this Agreement and approval of **Seller's** title

3 **Seller** acknowledges that the price to be paid for the property is seventy-five percent (75%) of the pre-flood value of **$258,000.00** with deductions for any insurance payment received by SELLER for structural damage from flood insurance of and structural damage from wind insurance of **$16,881.92** and **$0.00** for any Disaster Housing Assistance program (DHA) (structural repairs) and/or **$0 00** for Other Needs Assistance (ONA) for which SELLER cannot document as expended on repair of the damaged structure, and a reimbursement of **$0.00** for certain repairs for which receipts were provided have been added

4 **Seller's** proceeds from the sale of the Premises shall first be applied to satisfy all liens on the property, including real estate taxes, which are due and payable to the date of settlement

5 **Seller** understands that **Hazard Mitigation Grant Program** funds being used for the purchase of the Premises cannot and will not duplicate benefits received by **Seller** for the same or from any other funds **Seller** agrees to return any disaster aid monies received if such monies amount to a duplicity of benefits

6 **Seller** will execute all necessary documents to transfer good and marketable fee simple title to the Premises to County **Seller** also agrees to execute now and in the future, any and all documents required by County and/or GDEM to complete this transaction and to comply with County, state or federal regulations relating to the federal grants

7 **Seller** will not, without prior written notification to and written approval received from **County**, remove any improvements on the **Premises** Upon application to remove such improvements **Seller** must provide appraisals of such improvements as is required by **County** The value of the improvements allowed to be removed by **County**, as unilaterally determined by **County**, will be deducted from the purchase price at closing or, if post closing, paid by **Seller** to **County** within ten (10) days after removal

8 **Seller** agrees that no fixtures, materials or improvements to the real estate may be removed by **Seller** or by anyone acting under his direction or with his permission from the **Premises**

9 **Seller** also agrees that due to the price he is paid for the **Premises** and due to third party liability concerns, he will not be permitted by **County** to salvage any materials now or at time of demolition Should such materials be removed, the purchase price for the **Premises** will be reduced to correspond with the fair market value of the **Premises** less the fair market value of the materials removed

10 **Seller** understands this is a voluntary transaction Accordingly, **Seller** further understand that he is not entitled to relocation benefits provided by the **Uniform Relocation Assistance and Real Property Acquisition Policies Act (URA)**, and will not claim any such benefits

FLOOD DAMAGED PROPERTY CONTRACT FOR SALE

THIS AGREEMENT is made and entered into this 1 day of February 2011, by and between **Galveston County a political subdivision of the State of Texas ("County")**, and **Jamie Schlicher**, **("Seller")**, regardless of the number of signatories

County is acting under a federal grant from the Texas Division of Emergency Management (TDEM) and /or Texas Department of Housing and Community Affairs (TDHCA) desires to purchase from **Seller** all that certain tract or parcel of land together with all improvements located thereon located in Galveston County, Texas ("Premises") more particularly described as follows, to-wit 1023 Deens Rd, Gilchrist TX 77617, Legal Description ABST 64 E FRANKS LOT 8 BLK 2 BAYSIDE ADDN REPLAT OF SAM HUGHES 4 69 AC TR.

Seller represents and understands

- The **Premises** was damaged by flood,
- **Seller** qualifies for the assistance being granted under the federal grant,
- The **Seller** has no obligation to sell the **Premises** under this program and does so voluntarily, and
- That if **Seller** withdraws from this sale, **County** will not exercise its power of eminent domain but will release **Seller** from the terms and conditions of this Contract for Sale

The parties agree as follows

1 **Seller** agrees to sell the **Premises** described above to **County** for the sum of **$41,250 00** and to execute and deliver a good and sufficient General Warranty Deed conveying marketable title to said **Premises** in fee simple, clear of all liens and encumbrances

2 **County** agrees to pay **Seller** for said Premises the sum of **$41,250.00** payable at closing after the acceptance of this Agreement and approval of **Seller's** title

3 **Seller** acknowledges that the price to be paid for the property is seventy-five percent (75%) of the pre-flood value of **$55,000.00** with deductions for any insurance payment received by SELLER for structural damage from flood insurance of **$0 00** and structural damage from wind insurance of **$0 00** and **$0 00** for any Disaster Housing Assistance program (DHA) (structural repairs) and/or **$0 00** for Other Needs Assistance (ONA) for which SELLER cannot document as expended on repair of the damaged structure, and a reimbursement of **$0.00** for certain repairs for which receipts were provided have been added

4 **Seller's** proceeds from the sale of the Premises shall first be applied to satisfy all liens on the property including real estate taxes, which are due and payable to the date of settlement

5 **Seller** understands that **Hazard Mitigation Grant Program** funds being used for the purchase of the Premises cannot and will not duplicate benefits received by **Seller** for the same or from any other funds **Seller** agrees to return any disaster aid monies received if such monies amount to a duplicity of benefits

6 **Seller** will execute all necessary documents to transfer good and marketable fee simple title to the Premises to County **Seller** also agrees to execute now and in the future, any and all documents required by County and/or GDEM to complete this transaction and to comply with County, state or federal regulations relating to the federal grants

7 **Seller** will not, without prior written notification to and written approval received from **County**, remove any improvements on the **Premises** Upon application to remove such improvements **Seller** must provide appraisals of such improvements as is required by **County** The value of the improvements allowed to be removed by **County**, as unilaterally determined by **County**, will be deducted from the purchase price at closing or, if post closing, paid by **Seller** to **County** within ten (10) days after removal

8 **Seller** agrees that no fixtures, materials or improvements to the real estate may be removed by **Seller** or by anyone acting under his direction or with his permission from the **Premises**

9 **Seller** also agrees that due to the price he is paid for the **Premises** and due to third party liability concerns, he will not be permitted by **County** to salvage any materials now or at time of demolition Should such materials be removed, the purchase price for the **Premises** will be reduced to correspond with the fair market value of the **Premises** less the fair market value of the materials removed

10 **Seller** understands this is a voluntary transaction Accordingly, **Seller** further understand that he is not entitled to relocation benefits provided by the **Uniform Relocation Assistance and Real Property Acquisition Policies Act (URA)**, and will not claim any such benefits

1976614

11 **Seller** acknowledges that he has had an opportunity to review this **Contract for Sale**, that he has had an opportunity, if he so chose, to engage the services of an attorney of his choice to review this document that he has executed this **Contract for Sale** fully understanding its terms and conditions and the nature thereof and that he **Saves and Holds Harmless County, TDEM** and **TDHCA** incurred by **Seller** as a result of executing this **Contract for Sale**, and/or for selling the **Premises** to **County**

FLOOD DAMAGED PROPERTY CONTRACT FOR SALE

THIS AGREEMENT is made and entered into this 27th day of January, 2010, by and between **Galveston County a political subdivision of the State of Texas ("County")**, and **Estate of Rosa D. Crenshaw, ("Seller")**, regardless of the number of signatories.

County is acting under a federal grant from the Texas Division of Emergency Management (TDEM) and /or Texas Department of Housing and Community Affairs (TDHCA) desires to purchase from **Seller** all that certain tract or parcel of land together with all improvements located thereon located in Galveston County, Texas ("Premises") more particularly described as follows, to-wit: 972 Dolly St Gilchrist TX 77617, Legal Description Abstract 64, E Franks Survey, north 1/2 of west 1/2 of Lot 4 & west 1/2 of Lot 5, Block 2, Birds Gulf Subdivision.

Seller represents and understands

- The **Premises** was damaged by flood,
- **Seller** qualifies for the assistance being granted under the federal grant,
- The **Seller** has no obligation to sell the **Premises** under this program and does so voluntarily; and
- That if **Seller** withdraws from this sale, **County** will not exercise its power of eminent domain but will release **Seller** from the terms and conditions of this Contract for Sale

The parties agree as follows·

1 **Seller** agrees to sell the **Premises** described above to **County** for the sum of **$25,312.50** and to execute and deliver a good and sufficient General Warranty Deed conveying marketable title to said **Premises** in fee simple, clear of all liens and encumbrances

2 **County** agrees to pay **Seller** for said Premises the sum of **$25,312.50** payable at closing after the acceptance of this Agreement and approval of **Seller's** title

3 **Seller** acknowledges that the price to be paid for the property is seventy-five percent (75%) of the pre-flood value of **$164,500.00** with deductions for any insurance payment received by SELLER for structural damage from flood insurance of **$186,000.00** and structural damage from wind insurance of **$86,816.00** and **$0.00** for any Disaster Housing Assistance program (DHA) (structural repairs) and/or **$0.00** for Other Needs Assistance (ONA) for which SELLER cannot document as expended on repair of the damaged structure, and a reimbursement of **$0.00** for certain repairs for which receipts were provided have been added. Note that the above deduction of insurance resulted in a valuation of less than land value Therefore, the valuation was increased to land value of $33,750 00

4 **Seller's** proceeds from the sale of the Premises shall first be applied to satisfy all liens on the property, including real estate taxes, which are due and payable to the date of settlement

5 **Seller** understands that **Hazard Mitigation Grant Program** funds being used for the purchase of the Premises cannot and will not duplicate benefits received by **Seller** for the same or from any other funds **Seller** agrees to return any disaster aid monies received if such monies amount to a duplicity of benefits.

6 **Seller** will execute all necessary documents to transfer good and marketable fee simple title to the Premises to County **Seller** also agrees to execute now and in the future, any and all documents required by County and/or GDEM to complete this transaction and to comply with County, state or federal regulations relating to the federal grants

7 **Seller** will not, without prior written notification to and written approval received from **County**, remove any improvements on the **Premises** Upon application to remove such improvements **Seller** must provide appraisals of such improvements as is required by **County** The value of the improvements allowed to be removed by **County**, as unilaterally determined by **County**, will be deducted from the purchase price at closing or, if post closing, paid by **Seller** to **County** within ten (10) days after removal

8 **Seller** agrees that no fixtures, materials or improvements to the real estate may be removed by **Seller** or by anyone acting under his direction or with his permission from the **Premises**

9 **Seller** also agrees that due to the price he is paid for the **Premises** and due to third party liability concerns, he will not be permitted by **County** to salvage any materials now or at time of demolition Should such materials be removed, the purchase price for the **Premises** will be reduced to correspond with the fair market value of the **Premises** less the fair market value of the materials removed

10 **Seller** understands this is a voluntary transaction Accordingly, **Seller** further understand that he is not entitled to relocation benefits provided by the **Uniform Relocation Assistance and Real Property Acquisition Policies Act (URA)**, and will not claim any such benefits

2176881

2)

11 **Seller** acknowledges that he has had an opportunity to review this **Contract for Sale**, that he has had an opportunity, if he so chose, to engage the services of an attorney of his choice to review this document, that he has executed this **Contract for Sale** fully understanding its terms and conditions and the nature thereof and that he **Saves and Holds Harmless County, TDEM** and **TDHCA** incurred by **Seller** as a result of executing this **Contract for Sale**, and/or for selling the **Premises** to **County.**

FLOOD DAMAGED PROPERTY CONTRACT FOR SALE

THIS AGREEMENT is made and entered into this 20th day of January, 2011, by and between **Galveston County a political subdivision of the State of Texas ("County")**, and **H. Joseph Butler and Pamela B. Butler**, ("Seller"), regardless of the number of signatories

County is acting under a federal grant from the Texas Division of Emergency Management (TDEM) and /or Texas Department of Housing and Community Affairs (TDHCA) desires to purchase from **Seller** all that certain tract or parcel of land together with all improvements located thereon located in Galveston County, Texas ("Premises") more particularly described as follows, to-wit 988 Daigle Dr Gilchrist TX 77617, Legal Description ABST 64, East Franks, Lots 7 Thru 12, Block 19 Leight S-D

Seller represents and understands

- The **Premises** was damaged by flood,
- **Seller** qualifies for the assistance being granted under the federal grant;
- The **Seller** has no obligation to sell the **Premises** under this program and does so voluntarily, and
- That if **Seller** withdraws from this sale, **County** will not exercise its power of eminent domain but will release **Seller** from the terms and conditions of this Contract for Sale

The parties agree as follows

1 **Seller** agrees to sell the **Premises** described above to **County** for the sum of **$110,000.00** and to execute and deliver a good and sufficient General Warranty Deed conveying marketable title to said **Premises** in fee simple, clear of all liens and encumbrances

2 **County** agrees to pay **Seller** for said Premises the sum of **$110,000.00** payable at closing after the acceptance of this Agreement and approval of **Seller's** title

3 **Seller** acknowledges that the price to be paid for the property is seventy-five percent (75%) of the pre-flood value of **$330,000.00** with deductions for any insurance payment received by SELLER for structural damage from flood insurance of **$171,000.00** and structural damage from wind insurance of **$69,129.00** and **$0.00** for any Disaster Housing Assistance program (DHA) (structural repairs) and/or **$0.00** for Other Needs Assistance (ONA) for which SELLER cannot document as expended on repair of the damaged structure, and a reimbursement of **$0.00** for certain repairs for which receipts were provided have been added The Texas General Land office (GLO) is contributing up to $65,000 00 toward the required 25% local match The GLO contribution specific to your offer is $27,500 00 Note that the above deduction of insurance resulted in a valuation of less than land value Therefore, the valuation was increased to land value of $110,000 00

4. **Seller's** proceeds from the sale of the Premises shall first be applied to satisfy all liens on the property, including real estate taxes, which are due and payable to the date of settlement

5 **Seller** understands that **Hazard Mitigation Grant Program** funds being used for the purchase of the Premises cannot and will not duplicate benefits received by **Seller** for the same or from any other funds **Seller** agrees to return any disaster aid monies received if such monies amount to a duplicity of benefits

6 **Seller** will execute all necessary documents to transfer good and marketable fee simple title to the Premises to County **Seller** also agrees to execute now and in the future, any and all documents required by County and/or GDEM to complete this transaction and to comply with County, state or federal regulations relating to the federal grants

7 **Seller** will not, without prior written notification to and written approval received from **County**, remove any improvements on the **Premises** Upon application to remove such improvements **Seller** must provide appraisals of such improvements as is required by **County** The value of the improvements allowed to be removed by **County**, as unilaterally determined by **County**, will be deducted from the purchase price at closing or, if post closing, paid by **Seller** to **County** within ten (10) days after removal

8 **Seller** agrees that no fixtures, materials or improvements to the real estate may be removed by **Seller** or by anyone acting under his direction or with his permission from the **Premises**

9 **Seller** also agrees that due to the price he is paid for the **Premises** and due to third party liability concerns, he will not be permitted by **County** to salvage any materials now or at time of demolition Should such materials be removed, the purchase price for the **Premises** will be reduced to correspond with the fair market value of the **Premises** less the fair market value of the materials removed

10 **Seller** understands this is a voluntary transaction Accordingly, **Seller** further understand that he is not entitled to relocation benefits provided by the **Uniform Relocation Assistance and Real Property Acquisition Policies Act (URA)**, and will not claim any such benefits

THIS AGREEMENT is made and entered into this 19th day of January, 2011, by and between **Galveston County a political subdivision of the State of Texas ("County")**, and **Judy H Kay, ("Seller")**, regardless of the number of signatories.

County is acting under a federal grant from the Texas Division of Emergency Management (TDEM) and /or Texas Department of Housing and Community Affairs (TDHCA) desires to purchase from **Seller** all that certain tract or parcel of land together with all improvements located thereon located in Galveston County, Texas ("Premises") more particularly described as follows, to-wit: 429 Atkinson Crystal Beach TX 77650, Legal Description Lot 10, Ed Miller Unrecorded Sub , Abstract 203, Page 14

Seller represents and understands·

- The **Premises** was damaged by flood,
- **Seller** qualifies for the assistance being granted under the federal grant,
- The **Seller** has no obligation to sell the **Premises** under this program and does so voluntarily, and
- That if **Seller** withdraws from this sale, **County** will not exercise its power of eminent domain but will release **Seller** from the terms and conditions of this Contract for Sale

The parties agree as follows

1 **Seller** agrees to sell the **Premises** described above to **County** for the sum of **$105,000.00** and to execute and deliver a good and sufficient General Warranty Deed conveying marketable title to said **Premises** in fee simple, clear of all liens and encumbrances.

2 **County** agrees to pay **Seller** for said Premises the sum of **$105,000.00** payable at closing after the acceptance of this Agreement and approval of **Seller's** title

3 **Seller** acknowledges that the price to be paid for the property is seventy-five percent (75%) of the pre-flood value of **$330,000.00** with deductions for any insurance payment received by SELLER for structural damage from flood insurance of **$224,700.00** and structural damage from wind insurance of **$65,605.00** and **$0.00** for any Disaster Housing Assistance program (DHA) (structural repairs) and/or **$0.00** for Other Needs Assistance (ONA) for which SELLER cannot document as expended on repair of the damaged structure, and a reimbursement of **$0.00** for certain repairs for which receipts were provided have been added. Note that the above deduction of insurance resulted in a valuation of less than land value Therefore, the valuation was increased to land value of $140,000 00

4 **Seller's** proceeds from the sale of the Premises shall first be applied to satisfy all liens on the property, including real estate taxes, which are due and payable to the date of settlement.

5 **Seller** understands that **Hazard Mitigation Grant Program** funds being used for the purchase of the Premises cannot and will not duplicate benefits received by **Seller** for the same or from any other funds **Seller** agrees to return any disaster aid monies received if such monies amount to a duplicity of benefits

6 **Seller** will execute all necessary documents to transfer good and marketable fee simple title to the Premises to County **Seller** also agrees to execute now and in the future, any and all documents required by County and/or GDEM to complete this transaction and to comply with County, state or federal regulations relating to the federal grants

7 **Seller** will not, without prior written notification to and written approval received from **County**, remove any improvements on the **Premises** Upon application to remove such improvements **Seller** must provide appraisals of such improvements as is required by **County** The value of the improvements allowed to be removed by **County**, as unilaterally determined by **County**, will be deducted from the purchase price at closing or, if post closing, paid by **Seller** to **County** within ten (10) days after removal

8 **Seller** agrees that no fixtures, materials or improvements to the real estate may be removed by **Seller** or by anyone acting under his direction or with his permission from the **Premises**

9 **Seller** also agrees that due to the price he is paid for the **Premises** and due to third party liability concerns, he will not be permitted by **County** to salvage any materials now or at time of demolition. Should such materials be removed, the purchase price for the **Premises** will be reduced to correspond with the fair market value of the **Premises** less the fair market value of the materials removed

10 **Seller** understands this is a voluntary transaction Accordingly, **Seller** further understand that he is not entitled to relocation benefits provided by the **Uniform Relocation Assistance and Real Property Acquisition Policies Act (URA)**, and will not claim any such benefits.

COMMISSIONERS COURT GALVESTON COUNTY

F 12112

FLOOD DAMAGED PROPERTY CONTRACT FOR SALE

THIS AGREEMENT is made and entered into this 18 day of January, 2011, by and between **Galveston County a political subdivision of the State of Texas ("County")**, and **David Fortenberry & Sandy Fortenberry, ("Seller")**, regardless of the number of signatories.

County is acting under a federal grant from the Texas Division of Emergency Management (TDEM) and /or Texas Department of Housing and Community Affairs (TDHCA) desires to purchase from **Seller** all that certain tract or parcel of land together with all improvements located thereon located in Galveston County, Texas ("Premises") more particularly described as follows, to-wit. 2586 Hwy 87 Gilchrist TX 77617, Legal Description: ABST 52 J DUNMAN SUR TR 9 (07) 2 956 ACRS

Seller represents and understands·

- The **Premises** was damaged by flood,
- **Seller** qualifies for the assistance being granted under the federal grant,
- The **Seller** has no obligation to sell the **Premises** under this program and does so voluntarily, and
- That if **Seller** withdraws from this sale, **County** will not exercise its power of eminent domain but will release **Seller** from the terms and conditions of this Contract for Sale.

The parties agree as follows

1 **Seller** agrees to sell the **Premises** described above to **County** for the sum of **$187,500.00** and to execute and deliver a good and sufficient General Warranty Deed conveying marketable title to said **Premises** in fee simple, clear of all liens and encumbrances.

2 **County** agrees to pay **Seller** for said Premises the sum of **$187,500.00** payable at closing after the acceptance of this Agreement and approval of **Seller's** title.

3 **Seller** acknowledges that the price to be paid for the property is seventy-five percent (75%) of the pre-flood value of **$890,000.00** with deductions for any insurance payment received by SELLER for structural damage from flood insurance of **$459,300.00** and structural damage from wind insurance of **$262,276.37** and **$0.00** for any Disaster Housing Assistance program (DHA) (structural repairs) and/or **$0.00** for Other Needs Assistance (ONA) for which SELLER cannot document as expended on repair of the damaged structure, and a reimbursement of **$0.00** for certain repairs for which receipts were provided have been added. Note that the above deduction of insurance resulted in a valuation of less than land value. Therefore, the valuation was increased to land value of $250,000.00.

4 **Seller's** proceeds from the sale of the Premises shall first be applied to satisfy all liens on the property, including real estate taxes, which are due and payable to the date of settlement.

5 **Seller** understands that **Hazard Mitigation Grant Program** funds being used for the purchase of the Premises cannot and will not duplicate benefits received by **Seller** for the same or from any other funds **Seller** agrees to return any disaster aid monies received if such monies amount to a duplicity of benefits

6 **Seller** will execute all necessary documents to transfer good and marketable fee simple title to the Premises to County **Seller** also agrees to execute now and in the future, any and all documents required by County and/or GDEM to complete this transaction and to comply with County, state or federal regulations relating to the federal grants

7 **Seller** will not, without prior written notification to and written approval received from **County**, remove any improvements on the **Premises.** Upon application to remove such improvements **Seller** must provide appraisals of such improvements as is required by **County**. The value of the improvements allowed to be removed by **County**, as unilaterally determined by **County**, will be deducted from the purchase price at closing or, if post closing, paid by **Seller** to **County** within ten (10) days after removal.

8 **Seller** agrees that no fixtures, materials or improvements to the real estate may be removed by **Seller** or by anyone acting under his direction or with his permission from the **Premises.**

9 **Seller** also agrees that due to the price he is paid for the **Premises** and due to third party liability concerns, he will not be permitted by **County** to salvage any materials now or at time of demolition Should such materials be removed, the purchase price for the **Premises** will be reduced to correspond with the fair market value of the **Premises** less the fair market value of the materials removed

10 **Seller** understands this is a voluntary transaction. Accordingly, **Seller** further understand that he is not entitled to relocation benefits provided by the **Uniform Relocation Assistance and Real Property Acquisition Policies Act (URA)**, and will not claim any such benefits

RE. 2010 Racial Profiling Report

Gentlemen

Attached is the statutory racial profiling report for the calendar year 2010, submitted in compliance with Article 2 134(b), Texas Code of Criminal Procedures

During 2010, my office received no complaints of racial profiling, nor did any reviews or investigations reveal any indications of racial profiling Since this type of reporting began nearly ten years ago, this agency has never received any valid complaint or discovered any indications of racial profiling – a fact that speaks volumes of the high level of professionalism displayed by men and women of the Galveston County Sheriff's Office.

The original copy of this document shall be filed with the County Clerk for public review Additionally, information required under statute will timely be filed with the Texas Commission on Law Enforcement Standards and Education. A copy of this report shall also be published to our public website

Should you or any member of the public have any questions or concerns regarding this report, please contact me directly at (409) 766-2301

AGENDA ITEM #20

FREDDIE POOR
Sheriff
Galveston County

February 16, 2011

TO The Honorable Mark Henry, County Judge, and Members of the Commissioner's Court of Galveston County

RE Request to Seek CJD Funding, Child Crimes Investigator

Gentlemen

Please accept this letter and attached documentation related to a proposed application to fund a child crimes investigator within the Sheriff's Office.

Several years ago, the County was a recipient of a sliding-scale grant that funded a position focused toward dealing with crimes against children. When funding expired, the Commissioner's Court then fully realized the importance of this position and decided to continue local funding for this investigator

The steady influx of reported crimes against children – offenses that are often time consuming to thoroughly investigate and prepare for prosecution – continues to tax our detectives, given their caseloads of a broad variety of criminal offenses As our population continues to grow, so our investigative needs grow, especially in dealing with crimes against children.

We are presented with an opportunity to apply for funding through the Governor's Office, Criminal Justice Division (CJD) to implement a program to add a criminal investigator whose job will focus on dealing with crimes against children. This is a three-year funding cycle, with a sliding scale of funding from 80% in year 1 to 40% in year 3

We believe this funding opportunity will provide a necessary staff member to help us focus on dealing with often heart-wrenching and emotionally-charged crimes committed against our children A brief outline of this project is included with this letter, to be followed-up with more detailed information as we, with your approval, proceed with this grant application

I sincerely appreciate your favorable consideration of this matter. Should you have any questions about this proposal, please contact me directly at x2301 or Maj Ray Tuttoilmondo at x2369.

GRANT PROPOSAL – OUTLINE

PROJECT· CRIMES AGAINST CHILDREN INVESTIGATOR, GALVESTON COUNTY SHERIFF'S OFFICE

PROJECT DESCRIPTION

The Galveston County Sheriff's Office (GCSO) is charged with handling criminal investigations in the unincorporated areas of Galveston County, Texas Included in this responsibility is the investigation of some of the more difficult and emotionally-charged criminal offenses – crimes committed against children Physical abuse, sexual abuse, and neglectful supervision investigations are all time-consuming, necessitating the full attention of investigators assigned such cases The steady influx of these cases, with growth as population has grown in unincorporated areas, coupled with the need for existing staff to focus on a multitude of investigations of other criminal activity tends to detract from the necessary focus needed in investigating crimes against children While quality does not suffer, the quantity of cases taxes existing staff. This project proposes to seek grant funding through the Criminal Justice Division of the Governor's Office (CJD) to add a criminal investigator to the Sheriff's Office staff, with the purpose of allowing that investigator to devote his time directly to the investigation of crimes against children

FUNDING SOURCE

CJD grant (precise grant source to be determined by CJD in the grant process)

WHAT WILL BE FUNDED

The proposed funding will be dedicated for salary and benefits for one (1) criminal investigator to be assigned to GCSO Criminal Investigations Division Other personnel-related expenses (i.e , overtime) will be absorbed into existing budgets. This proposal does not call for the purchase of any capital or non-capital equipment or services.

FUNDING DURATION

This is a three-year, sliding scale grant
