Introduction

The Internal Audit Division conducted an internal audit of the County Engineer's Office as required by the Local Government Code §115.0035 The internal audit covered the period from February 1, 2010 through January 31, 2011. The audit was performed from March 17, 2011 through March 23, 2011

The primary objectives of the internal audit were to provide reasonable assurance concerning

- The reliability and integrity of the information.
- The safeguarding of assets
- Compliance with laws, regulations, contracts, policies, plans, and procedures.
- The economic and efficient use of resources

The scope of the internal audit encompassed the financial records and administrative procedures related to the County Engineer's Office The internal audit included, but was not limited to, the books, accounts, reports, and records of the County Engineer's Office.

The internal audit included examining transactions on a test basis, and required exercising judgment in the selection of such tests As the internal audit was not a detailed examination of all transactions, there is a risk that errors or fraud were not detected during the internal audit The official therefore retains the responsibility for the accuracy and completeness of the financial information.

Because of certain statutory duties required of the County Auditor, we are not independent with regard to the Galveston County Engineer's Office as defined by the AICPA professional standards However, our internal audit was performed with objectivity and due professional care.

Lon McWhirter, Auditor I, performed the audit

Reliability and Integrity of Information

Reliable information is accurate, timely, complete, and useful In order to achieve this, controls over record keeping and reporting must be adequate and effective.

One of the most important controls is to have proper separation of duties No one person should authorize a transaction, record the transaction, and have custody of the assets The office has implemented procedures to separate the custody of the assets from the recording and authorization functions The office has an effective separation of duties

Transaction Accuracy

The Galveston County Engineer's Office collects fees for building permits and various engineering services provided by the department Building Permit fees are determined by the estimated cost of construction and each type of engineering service has a set fee

The auditor tested the accuracy of assessed fees and no material discrepancies were detected

Voided Receipts

Without proper controls over the voiding of receipted fees, there is an increased risk of loss from theft The County Engineer, Mike Fitzgerald, must approve all voids, after which, the original voided receipt is attached to the corresponding copies in the receipt book

The County Engineer's Office has controls in place to adequately control voided receipts

Financial Data Accuracy

As part of their responsibilities, the engineering department collects building permit fees and engineering fees for services rendered. A pre-numbered, County-issued receipt is used for each payment transaction. Twice a week the receipts are totaled and all payments (checks and money orders) are entered on a deposit warrant and turned in to the County Treasurer. Each receipt tested had a corresponding deposit warrant number and was recorded in IFAS

The financial data is accurate and no discrepancies were detected during testing.

Safeguarding of Assets

Physical Security - Collections

Depositing daily is one of the best safeguards of collections as well as providing the County with maximum benefit of the collections.

As part of the audit, the auditor conducted a surprise cash count at the beginning of the audit All cash was accounted for at the time of the audit

The County Engineer's Office puts collections in an envelope and secures it in a drawer in the front desk Each afternoon the envelope containing the collections is delivered to the County Treasurer's Office and placed in a safe. Twice a week, the Administrative Coordinator of the Engineer's Office gathers the envelopes from the safe and the one containing the current day's collections and delivers them to the Treasurer's Office, along with a deposit warrant

Finding: When the daily collections are turned over to the Treasurer's Office for safekeeping, no one is providing a signature validating the date and the amount of the funds changing custody

Recommendation ENG-11-01: When the Engineer's Office delivers collections to the Treasurer's Office for safekeeping, both parties should sign off on the date of the change of custody and the amount

Cash Management

The County Engineer's Office no longer accepts cash payments for building and engineering fees. Any payments made to the County Engineer's Office must be made in the form of a check or money order Checks and money orders are restrictively endorsed immediately upon receipt

Physical Security – Receipts

A pre-numbered, County-issued receipt is used for each payment transaction. The receipt book is kept at the front counter The receipts are filled out in triplicate with the original going to the customer and the copies remaining in the receipt book. When the deposit warrant is filled out, the checks to be deposited are compared to the receipt book to make sure that a receipt wasn't skipped or overlooked

All receipts were issued in sequential order and no receipt numbers were skipped

Compliance with Statutes, Policies, and Procedures

Deposit Statutes

LGC § 113 022 allows a maximum of seven business days to deposit cash, checks or money orders received by County departments.

The County Engineer's Office was in compliance with LGC §113 022 Money collected by the County Engineer's Office is deposited twice a week

Court-Ordered Fees

All fees collected by the County Engineer's Office are contingent upon the floodplain regulations as required by the National Flood Insurance Act (Title 42) of the Commissioners' Court. The County Engineer's Office can only collect fees that are court-ordered and may not collect any amount that exceeds what is required.

The auditor tested receipts to validate the amounts collected to the court-ordered fee amounts and did not find any material discrepancies

Economic and Efficient Use of Resources

Economy is defined as minimizing the cost of resources for an activity Efficiency is defined as performing tasks with reasonable effort

System Functionality

The current system that is being used to manage building permits is an in-house Access database that was originally developed by Information Technology.

The database system has a 'Sort and Find' (look-up) feature that appears to offer options to look up and retrieve building permits by permit number, panel number, address, type of improvement, ownership, or structure The only look-up options that are actually functional are searches by permit number or address. This lack of functionality causes the County Engineer's Office staff to spend additional time to locate needed information.

The Auditor's Office worked with Information Technology (IT) in FY2009 to escalate the delivery of the additional 'Sort and Find' features. Information Technology did not activate the additional look-up options in the Building Permit Database, however they did improve the speed at which the system runs.

Recommendation ENG-09-02 The County Engineer should meet with IT to discuss activating the extra look-up options to provide additional functionality to the department

Recommendation ENG-09-03 The County Engineer's Office should consider replacing the existing Access database with a system having more functionality and built-in controls It is preferable to have system-generated receipts instead of manually prepared receipts This is a recommendation from the previous audit.

Re County Engineer's Office
Internal Audit
for period Feb 2010 & Feb 2011

Dear Mr Billingsley,

I am in receipt of the County Engineers Office internal audit for the period Feb 2010 to Feb 2011

Below is how I propose to address the audit recommendations

Recommendation ENG-11-01: When the Engineer's Office delivers collections to the Treasurer's Office for safekeeping, both parties should sign off on the date of the change of custody and the amount

Response In lieu of delivering the collections to the Treasurer's Office each day for safekeeping we will secure them in a lock bag upon receipt and further secure them in a locked cabinet daily until they are permanently transferred to the County Treasurer's Office

Recommendation ENG-09-02: The County Engineer should meet with IT to discuss activating the extra look-up options to provide additional functionality to the department

Response I will meet with the County IT Department to discuss.

Recommendation ENG-09-03: The County Engineer's Office should consider replacing the existing Access database with a system having more functionality and built-in controls It is preferable to have system-generated receipts instead of manually prepared receipts This is a recommendation from the previous audit

Response I will meet with the County IT Department to discuss

Thank you for your assistance

Sincerely,

Mike Fitzgerald
County Engineer

RE: 2605 Ave A, San Leon
Tax Account R147735

To Whom It May Concern:

I have recently become aware that the above address has two different tax statements, one being R147735 which is past due. I have not received statements on this account number before last week when I received your Tax Statement along with an attorney letter.

After much research by several people, it was discovered that my Deed had not been filed correctly or tax statements sent to me on this particular piece of my property. Galveston Central Appraisal District was very kind in helping correct this problem and issuing a letter.

This property is held by Sterling Trust as part a self-directed IRA and they pay expenses relating to my property. I had instructed them last week to pay you $2,240.47 in order to clear my "good name".

I am requesting that the interest and penalties be waived on this property due to the error, my being unaware that there were two tax statements on 2605 Ave A, and that I was only receiving one statement for the past several years. I ask that any funds that you received ($2,240.47) be applied to 2008 and 2009 taxes only with additional funds being applied toward 2010 taxes owing. Please bill me for any difference in the 2010 taxes as I have not received notice on those either. I have also sent you a copy of GCAD's letter and the past due Tax Statement received last week.

Please feel free to call me with any questions as I know this is a bit confusing.

Sincerely,

Pamela J. Fleming

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to

1 Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),

2 Certify that you are not subject to backup withholding, or

3 Claim exemption from backup withholding if you are a U.S exempt payee. If applicable, you are also certifying that as a U S person, your allocable share of any partnership income from a U.S trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9

Definition of a U.S. person. For federal tax purposes, you are considered a U.S person if you are.

- An individual who is a U S citizen or U S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301 7701-7)

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax Therefore, if you are a U.S person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U S. status and avoid withholding on your share of partnership income

The person who gives Form W-9 to the partnership for purposes of establishing its U S status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States is in the following cases

- The U S owner of a disregarded entity and not the entity,

000021

- The U S grantor or other owner of a grantor trust and not the trust, and
- The U S trust (other than a grantor trust) and not the beneficiaries of the trust

Foreign person. If you are a foreign person, do not use Form W-9. Instead, use the appropriate Form W-8 (see Publication 515, Withholding of Tax on Nonresident Aliens and Foreign Entities)

Nonresident alien who becomes a resident alien. Generally, only a nonresident alien individual may use the terms of a tax treaty to reduce or eliminate U S tax on certain types of income However, most tax treaties contain a provision known as a "saving clause." Exceptions specified in the saving clause may permit an exemption from tax to continue for certain types of income even after the payee has otherwise become a U S resident alien for tax purposes

If you are a U S resident alien who is relying on an exception contained in the saving clause of a tax treaty to claim an exemption from U S tax on certain types of income, you must attach a statement to Form W-9 that specifies the following five items

1. The treaty country Generally, this must be the same treaty under which you claimed exemption from tax as a nonresident alien

2 The treaty article addressing the income.

3 The article number (or location) in the tax treaty that contains the saving clause and its exceptions

4 The type and amount of income that qualifies for the exemption from tax

5 Sufficient facts to justify the exemption from tax under the terms of the treaty article.

Example. Article 20 of the U S.-China income tax treaty allows an exemption from tax for scholarship income received by a Chinese student temporarily present in the United States. Under U S law, this student will become a resident alien for tax purposes if his or her stay in the United States exceeds 5 calendar years However, paragraph 2 of the first Protocol to the U S -China treaty (dated April 30, 1984) allows the provisions of Article 20 to continue to apply even after the Chinese student becomes a resident alien of the United States. A Chinese student who qualifies for this exception (under paragraph 2 of the first protocol) and is relying on this exception to claim an exemption from tax on his or her scholarship or fellowship income would attach to Form W-9 a statement that includes the information described above to support that exemption

If you are a nonresident alien or a foreign entity not subject to backup withholding, give the requester the appropriate completed Form W-8

What is backup withholding? Persons making certain payments to you must under certain conditions withhold and pay to the IRS 28% of such payments. This is called "backup withholding." Payments that may be subject to backup withholding include interest, tax-exempt interest, dividends, broker and barter exchange transactions, rents, royalties, nonemployee pay, and certain payments from fishing boat operators. Real estate transactions are not subject to backup withholding.

You will not be subject to backup withholding on payments you receive if you give the requester your correct TIN, make the proper certifications, and report all your taxable interest and dividends on your tax return.

Payments you receive will be subject to backup withholding if:

1 You do not furnish your TIN to the requester,

2 You do not certify your TIN when required (see the Part II instructions on page 3 for details),

3 The IRS tells the requester that you furnished an incorrect TIN,

4 The IRS tells you that you are subject to backup withholding because you did not report all your interest and dividends on your tax return (for reportable interest and dividends only), or

5. You do not certify to the requester that you are not subject to backup withholding under 4 above (for reportable interest and dividend accounts opened after 1983 only).

Certain payees and payments are exempt from backup withholding See the instructions below and the separate Instructions for the Requester of Form W-9

Also see *Special rules for partnerships* on page 1

Penalties

Failure to furnish TIN. If you fail to furnish your correct TIN to a requester, you are subject to a penalty of $50 for each such failure unless your failure is due to reasonable cause and not to willful neglect.

Civil penalty for false information with respect to withholding. If you make a false statement with no reasonable basis that results in no backup withholding, you are subject to a $500 penalty

Criminal penalty for falsifying information. Willfully falsifying certifications or affirmations may subject you to criminal penalties including fines and/or imprisonment

Misuse of TINs. If the requester discloses or uses TINs in violation of federal law, the requester may be subject to civil and criminal penalties.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

* an existing published wage determination
* a survey underlying a wage determination
* a Wage and Hour Division letter setting forth a position on a wage determination matter
* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

37. **ESTIMATED QUANTITIES**

This Contract, including the specifications, plans and estimates, is intended to show clearly all the work to be done and material to be furnished hereunder. The estimated quantities of the various classes of work to be done and material to be furnished under this contract are approximate and are to be used as a basis for estimating the probable cost of the work and for comparing the proposals offered for the work It is understood and agreed that the actual amount of work to be done and material to be furnished under this contract may differ somewhat from these estimates, and that the basis for payment under this contract shall be the plan quantity or actual amount of such work done whichever is specified. It is further understood that the County does not guarantee any minimum amount of work under this Contract.

Contractor agrees that it will make no claim for damages, anticipated profits or otherwise on account of any differences which may be found between the quantities of work actually done, the material actually furnished under this Contract and the estimated quantities contemplated and contained in the proposals.

38. **CHANGES AND ALTERATIONS**

Contractor further agrees that Program Administrator may make such changes and alterations as County may see fit, in the line, grade, form dimensions, plans or materials for the work herein contemplated, or any part thereof, either before or after the beginning of the contract construction, without affecting the validity of this Contract and the accompanying bonds.

If such changes or alterations diminish the quantity of the work to be done, they shall not constitute the basis for a claim for damages, or anticipated profits on the work that may be dispensed with. If they increase the amount of the work, and the increased work can fairly be classified under the specifications, such increase shall be paid for according to the quantity actually done and at the unit price established for such work under this contract; otherwise such additional work shall be paid for as provided under the paragraph entitled "EXTRA WORK". In case Program Administrator shall

make such changes or alterations as shall make useless any work already done or material already furnished or used in said work, then County shall recompense Contractor for any material or labor so used, and for any actual loss occasioned by such change due to actual expenses incurred in preparation for the work as originally planned.

39 **EXTRA WORK**

The term "Extra Work" as used in this contract shall be understood to mean and include all work that may be required by the Program Administrator to be done by Contractor to accomplish any change, alteration or addition to the work shown in the plans and specifications.

It is also agreed that the compensation to be paid Contractor for performing said Extra Work shall be determined by one or more of the following methods:

Method (a) - By agreed unit prices; or
Method (b) - By agreed lump sum: or
Method (c) - If Neither Method (a) nor Method (b) can be agreed upon before the Extra Work is commenced, then Contractor shall be paid the "Actual field cost" of the work plus fifteen (15) percent.

In the event said Extra Work be performed and paid for under Method (c), then the provisions of this paragraph shall apply and the "actual field cost" is hereby defined to include the cost of all workmen, such as foremen, timekeepers, merchants, and laborers, and materials, supplies, teams, trucks, rentals on machinery and equipment for time actually employed or used on such Extra Work plus actual transportation charges necessarily incurred, if the kind of equipment or machinery is not already on the job, together with all power, fuel, lubricants, water and similar operating expenses, also all necessary incidental expenses incurred directly on account of such Extra Work including Social Security, Old Age Benefits and other payroll taxes, and a ratable proportion of premiums on Construction and Maintenance Bonds, Public Liability and Property Damage and Workmen's Compensation, and all other insurance as may be required by any law or ordinance, or directed by the Program Administrator or by him agreed The Program Administrator may direct the form in which accounts of the "actual field cost" shall be kept and may also specify in writing, before the work commences, the method of doing the work and the type and kind of machinery and equipment to be used, otherwise these matters shall be determined by Contractor. Unless otherwise agreed upon, the prices for the use of machinery and equipment shall be determined by using the one hundred (100) percent of the actual hourly or daily rate (for the time used plus time in moving to and from Job) of the latest schedule of Equipment Ownership Expense adopted by the Association General Contractors of America. Where practicable the terms and prices for the use of Machinery and Equipment shall be incorporated in the Written Extra Work

Order. The fifteen (15) percent of the "Actual Field Cost" to be paid Contractor shall cover and compensate him for his profit, overhead, general superintendence and field office expense, and all other elements of cost and expense not embraced within the 'actual field cost" as herein defined, save that where the Contractor's Camp or Field Office must be maintained primarily on account of such extra work, then the cost to maintain and operate same shall be included in the "actual field cost".

No claim for extra work of any kind will be allowed unless ordered in writing by the Program Administrator. In case any orders or instructions, either oral or written appear to Contractor to involve extra work for which he should receive compensation, it shall make written request to the Program Administrator for written order authorizing Extra Work. Should a difference of opinion arise as to what does or does not constitute extra work, or as to the payment therefor, and the Program Administrator insists upon its performance, Contractor shall proceed with the work after making written order and shall keep an accurate account of the "actual field cost" thereof, as provided under Method (c) and by this action Contractor will thereby preserve the right to submit the matter of payment to litigation.

40. **FINAL PAYMENT**

Upon the issuance of the approval for payment, the Program Administrator shall certify same to County, who shall pay to Contractor the balance due Contractor under the terms of this agreement, provided it has fully performed its contractual obligations under the terms of this contract; and has provided County with a release of liens from all materialmen, suppliers and subcontractors utilized in the work.

MEMO

Date .... March 30, 2011

Addressed to:

Rufus Crowder ... . Galveston County Purchasing Agent

Project:

Texas Cooperative Extension Service Office Building for Galveston County

Items:

This office requests Commissioners' Court approve the attached quote of OM Workspace to provide systems furnishings for the Cooperative Extension Service Building at Carbide Park and authorize the Purchasing Agent to issue Purchase Orders for that material and installation.

A furnishings evaluation group including Rufus Crowder, Dudley Anderson, Charles Kenworthy, OC Unbehagen, and Brian Maxwell previously selected the Teknion "Expansion Desking" system as the standard for Galveston County projects funded by the 2008 Bonds. This group considered systems manufactured by Teknion, Herman Miller, HON, Steelcase, All Steel, and Kimball. The selection criteria included quality, durability, cost, and appearance. This system consistently rated in the top 2 for quality and at the top for pricing of the 2 preferred systems.

We received quotes on Teknion and other systems furnishings from OM Workspace for a total installation for $135,829.18 This is below the budgeted $150,000 for this project. The quote and spreadsheet are attached.

Quotes are based upon the TCPN cooperative buying group. The quote is lower than the TXMAS service we have previously used

Thank you for the opportunity. Attached you will find our analysis of TXMAS, TCPN and Choice Facility Partners. We have calculated the difference between them and believe Galveston County will save $4832.73 on the TCPN contract, this includes TCPN rebates of 2%. We have not calculated Choice's Rebate.

OMWorkspace has saved Galveston County additional costs such as:

Design Time	$2,400
Project Management	$1,500
Shipping Fees	$15,000
Total Savings	$23,732
Total Project Cost	$135,829.18

Please don't hesitate to contact me or Beth Moher with any questions or concerns.

Sincerely,

Shannon Meek

Cooperative Extension Service Offices - furniture

The Court deferred action of furnishings at the Cooperative Extension Service Office April 5, 2011 until the Extension Service and Facilities could consider reuse of some existing furnishings at the existing Extension Service Offices

The Extension Service has provided photographs of 22 vertical file cabinets and 13 bookshelves they consider suitable for reuse Facilities did not participate in gathering the photos or identifying the file storage or shelving

Our recommendation to the Court is that the vertical file cabinets be moved to the new building and located in the new Storage Room These cabinets have a variety of colors and hardware but will be placed in the new Storage Room where it is not in public view This will allow for a reduction in new file storage in that room and therefore less cost

The bookcases appear to be quality furnishings that are suitable for public view They can be used to supplement the quantity of bookshelves we anticipated ordering Our recommendation is that they be dispersed in the building so that each office has matching bookcases

722 Moody 6th Floor Galveston, Texas 77550 (409) 770-5330

There was no other furniture identified by the Extension Service as suitable for reuse

The estimate for furnishings is $135,829 18 and will be reduced somewhat if Court approves reuse of the items discussed above This is less than the $150,000 originally budgeted The difference between the budget and actual expense can be returned to the overall bond fund and used on other necessary construction projects in the program

The Purchasing Agent requested the Commissioners' Court grant an exemption from the competitive bidding requirements to procure the furniture package for this project He also request that the County procure the furniture package from OM Workspace through their contract agreement with the Texas Cooperative Purchasing Network (TCPN)

Court must act on the above prior to finalizing this furniture order

The expected schedule if Commissioners' Court approves the request will be

1	Action by Commissioners' Court	April 12, 2011
2	Receipt of a finalized quote from OM Workspace (2 days)	April 15, 2011
3	Review by Purchasing and Facilities for completeness (2 days)	April 19, 2011
4	Purchase Order issued (same day)	April 19, 2011
5	Furniture ordered by OM Workspace (2 days)	April 21, 2011
6	Furniture manufactured (8 weeks)	June 16, 2011
7	Furniture shipping and installation (one week)	June 23, 2011

RECITALS

WHEREAS, the City of Austin has, at the request of the State of Texas, developed and implemented a regional Capital Area Hurricane Evacuation Shelter Hub Plan ("Shelter Hub Plan") to receive evacuees from the Texas Gulf Coast,

WHEREAS, the State of Texas has requested that this Shelter Hub Plan accommodate evacuees with transportation needs from pre-designated municipalities and counties including Galveston County;

WHEREAS, the City of Austin activates that plan when requested by the State and coordinates shelter hub operations involving multiple counties, municipalities, school districts and other responding entities,

WHEREAS, Galveston County desires to have adequate emergency response provisions in place in the event of a declared state of emergency and/or mandatory evacuation,

WHEREAS, Galveston County intends to evacuate approximately 1,600 residents with transportation needs from these municipalities and unincorporated areas, and transport them to mass care shelters;

WHEREAS, Austin intends to provide short-term shelter for these Galveston County residents subject to the terms and conditions as specified in this Agreement,

NOW THEREFORE, the City of Austin and Galveston County agree as follows

I. RESPONSIBILITIES OF THE PARTIES

A. COUNTY OF GALVESTON

Galveston County shall be responsible for providing or securing transportation for a maximum of 1,600 individuals seeking transportation to and from Austin during mandatory

evacuation, including the families of the bus drivers Galveston County will use its best efforts to provide bus transportation at the shelter location(s) to assist in transporting individuals within the City of Austin

Transported individuals will be allowed to bring pets, subject to certain conditions Galveston County will use its best efforts to require and/or provide animal carriers and animal supplies

Galveston County shall be responsible for collecting data for the purpose of identifying individuals who seek transportation, including those individuals with medical needs. The Parties anticipate that the individuals with medical needs will constitute less than 240 of the evacuees to be sheltered.

Galveston County will not transport for sheltering under this Agreement individuals requiring extensive medical oversight or individuals receiving care in an institutional setting

The municipalities in Galveston County, by separate agreement with Galveston County, will with assistance from the State of Texas 2-1-1 Registry Program, identify City residents who seek transportation, including those individuals with medical needs, and will be responsible for loading passengers onto buses at their pre-designated pickup points The County and Cities will provide travel supplies, if necessary The County and Cities also will provide 35 County and City employees to accompany evacuees to Austin and to assist at the shelter(s) Staff support to be provided by the County and Cities will increase or decrease commensurate with the evacuee population, at the ratio of approximately one staff person per 50 evacuees

The University of Texas Medical Branch, or other appropriate organization of medical care providers, by separate agreement with Galveston County, will provide an emergency medical team for the triage of evacuees and will provide medical and functional needs care in route and at the Austin shelter(s) Galveston County will arrange for and provide all necessary logistical support vehicles for the transportation of medical supplies and equipment.

Within 60 days of the execution of this agreement, and by April 1 of each year in which this Agreement is in effect, Galveston County will use its best efforts to provide Austin a numerical summary of persons expected to be sheltered under this Agreement for the purpose of pre-planning only The summary shall show the categories of evacuees (e g. general population, county and city personnel and families, medical caretakers, medical need (evacuees, etc.), the number in each category, and residential origin

Galveston County will use its best efforts to educate all residents seeking transportation to bring bedding, toiletries, prescription medication, and necessary mobility devices.

Galveston County agrees that should there be a need to shelter its residents after the termination of an evacuation order and Galveston County can open its own shelters, it will do so as soon as possible and take back evacuees sheltered in Austin under this Agreement on a first-priority basis.

Galveston County may provide certain services and resources delineated in this Agreement through cooperating entities as described in the State of Texas Hurricane Evacuation and Mass Care Plan, and in the Galveston County Cooperative Emergency Management Plan

Galveston County agrees to cooperate with Austin in the process of seeking FEMA and State direct reimbursement for the services provided under this Agreement.

Galveston County will be responsible, with assistance from Austin, for obtaining midterm housing for any evacuees who cannot return home within seven calendar days Austin will operate shelter facilities and arrange for mass feeding and other appropriate support, either directly or through other entities as described in the Shelter Hub Plan. Austin reserves the right to determine the number and location of shelter facilities Austin will use its best efforts to locate Galveston County residents in one shelter or in multiple shelters located in the same general vicinity Austin will have sole authority to coordinate and implement these activities.

Austin will use its best efforts to provide "medical needs" shelters and necessary care for individuals who require medical support services.

Austin will coordinate and provide shelter and necessary care including supplies for all transported pets. Austin will use its best efforts to locate animal shelters next to evacuation shelters.

Austin may provide certain services and resources delineated in this agreement through cooperating entities as described in the Shelter Hub Plan.

intent to implement this Agreement. Galveston County will provide Austin timely notice of the number of buses and individuals being transported, and the estimated time of arrival.
